The past week has been one of much encouragement to business men, and the prospects for the tall trade are very promising. On all sides we see the hum of preparation, and the wealth of grain and cotton in the country will make the South and West ready buyers. We cannot expect to have a specimen of the great fall seasops of former years, because the whole plan of business has changed. Even after the railroads were introduced there used to be twice a year—in the fall and spring—a perfect avalanche of buyers from all sections of the Union, who would purchase enough to last them for the half year, but now the telegraph has changed all this. Instead of buying large quantities at one time, they order by wire a case as they need it, and the railroad carries it to them. This enables them always to keep their stock up without visiting the principal cities, and also avoids the risk of having a large stock of goods on hand in case prices decline. Formerly our business men were busy all night, as well as day, filling their orders and sending goods off. Now, nearly all the work can be done in the ordinary hours of labor, as the purchasers are more equitably distributed throughout the year. The cities, however, still have their busy periods, which occur at much the same time of the year as formerly. The excitement of the Presid ntial campaign may possibly delay the season, butthe general opinion is that it will have very little effect.—Phila.

The past week has shown an active business in all branches of trade centering here. The receipts of grain continue at a daily average of over three bundred thouventing any assumulation; here, to which fact is, in one respect, due the ease with which the banks; have worked through such a heavy business. The business in dry goods, groceries, lumber, etc., is now more active than at any time since last summer. The increase of traje is reflected in the aggregate of the week's business at the Clearing House, which, as shown below, it nearly double what it was five years ago, being a little over ten millions for the week ending August 1st. PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, Tuesday, September 8, 1868. The decline in Flourand Wheat is about the only important characteristic noticesble in the general market to-day. Nor is it probable that the bottom has yet been reached, judging from present indications; vith half a million of bushels of Grain going into Chicago daily, and the receipts in all of the leading markets in about the same ratio, still lower prices seem almost inevitable. The supply of Flour in Chicago s also unusually heavy, being fully six imes larger than it was at this time last year, and the arrivals there for some days past have run from fifteen to sixteen thou-

and barrels. APPLES-In consequence of diminished

APPLES—In consequence of diminished receipts, the market is considerably firmer and are now quoted at \$3 to \$4 per bbl.

POTATOES—Sales at \$1,20 per bushel, and \$3,50 peri bbl. Jersey Sweets scarce and higher, \$6,50 to \$7 per bbl.

BUTTER—Prime to choice fresh packed is scarce and prices are still maintained, ranging from 37 to 40.

EGUS—Scarce and in better demand; we now quote fresh packed at 20 to 21c.

SEEDS—Flaxseed is scarce and in demand at \$2,25 to \$2,30. Timothy Seed is scarce and is held at \$3,75 to \$4, in a retail way. Clover Seed is nominal at \$7,50 to \$8.

HAY—Sales at Allegheny Diamond market of 49 loads at \$23 to \$34 per ton, according to quality cording to quality
CHEESE—Is arm but unchanged at 14

Oats unchanged—sales of 2 cars at 65c—may be quoted at 68 to 70c, in store. Sale of 1 car mixed Corn at \$1.12—prime Yellow is held at \$1.15. Barley is scarce and wanted, and No. 1 Spring may be quoted strong at \$2. Rye is quiet, with hardly enough doing to establish quotations; we quote \$1.40 as the nominal price.

30,50 to \$31,50.
MILL FEED—The demand is fair, and prices unchanged; the mills continue to quote at \$1,10 for Bran; \$1,30 for Shipstuffs, and \$2 for Middlings.

FLOUR—The demand is fair, notwith-

PITTSBURGH PETROLEUM MARKET. OFFICE OF THE PITTSBURGH GAZETTE,

Tuesday, September 8, 1868. CRUDE. The market was again very quiet to-day, not a single sale reported, and while the feeling seemed to be a little offish, prices is as yet have undergone no quotable change. Spot oil is still held at 12, but for the present there are no buyers at that figure; indeed, as noted in our last report, twelve cents seems to be the asking price for any delivery between now and January 1st. From January until July, seller's option, 10 cents is the nominal pr no sales for that particular delivery for some time, but the last sale, reported was at the figure. There was a sale of 1,000 bbls reported at \$4,50, on cars at Oil City.

REPINED. The market was moderately active, the The market was moderately active, the sales aggregating 5,500 bbls, but prices, as will be seen, are a shade lower. Sale of 2,000 bbls for first half of September at 30%c; three lots of 500 each for October at 31c; 500 for November at 31c, and 500 each for September, October and November at 31%c. At the close, it was reported that there were offers to sell November and December at 30%c, and we heard of 30%c being offered for immediate delivery. On cars here, standard white may be quoted being offered for immediate delivery. On cars here, standard white may be quoted at 27c, and prime light straw to white may be quoted at 25% to 26c. The demand for home consumption is on the increase, and if it were not for theveland, there would doubtless be a good many orders flowing in from the west. Cleveland is able to monopolize the western trade, from the fact that she can ship cheaper than Pittsburgh.
