FINANCE AND TRADE, OFFICE OF THE PITTSBURGH GAZETTE, ? Tuesday, September, 15, 1868. The tendency for gold seemed to be up-

ward; the scarcity of gold materially assists the bull cliques, but the Maine election has defeated their efforts, and unless gold can be made so scarce as to command premium on daily loans, quotations will be made lower. The large supply of exchange constantly pressed on the market, and the increasing shipments of cotton and cereals will have a tendency to gradually

depress the premium. In Government bonds a better feeling was manifested, yet the market is only sustained by the large short interest. The sold at quotations; the older bonds are

contracts. Shippers have feared to take hold, and some who are usually the largest operators have done scarcely anything for the last three days. The unfavorable weather has also had an effect to prevent loading of vessels, and also to hinder the handling of grain in the country. Receipts of grain have not been so heavy during the last half of the week, and to that fact it is partually due that prices have not receded more. Merchants in all the goods trades have done an ex-

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, Tuesday, September 15, 1868. The general markets are quiet but steady, with a fair volume of business in the aggregate. For most of the leading articles, particularly Flour, the demand is restricted mainly to supplying the immediate wants of the local trade, and, as a consequence, we have but few round lot operations to record. Grain of all kinds is firm, though a still further decline in Wheat would create no surprise, in sympathy with the decline in the West. The Grocery trade is fairly active with an increased jobbing trade, consequent upon the resump-

tion of navigation, and the same is true of Pittsburgh manufactures. BUTTER-Is steady with a good local mand, and we can report regular sales at 35 to 40. EGGS-In limited supply and in good

demand, and fresh packed may be quoted firm at 22c. CHEESE—Is unchanged at 15 to 16 for Western Reserve and Hamburg 17 for Factory and Goshen and 20 to 21c for Sweitzer.

APPLES—Are not coming in very plentially and with a steady demand, prices are well sustained, ranging from \$3 to \$4 per bbl.

POTATOES—Unchanged at \$1,15 to \$1,20 new bonds are rather scarcer, but besides the regular dealers, few buyers appear to be in the market, and large lots can not be sold at quotations: the older bonds are soid at quotations; the older bonds are more neglected, and speculators are not dealing in them except in covering old \$2.35. No movement in Clover Seed. HAY—Sales at Allegheny Diamond Scales of 52 loads at \$25 to \$38 per ton, showing an advance on prime.
GRAIN—Wheat is quiet and unchanged

PROVISIONS—Bacon is steady, with regular jobbing sales at 14% to 14% for Shoulders; 16% to 16% for Ribbed, and 18% to 18% for Clear Sides, and 22 to 22% for Shoulders; 16% for Ribbed, and 18% to 18% for Clear Sides, and 22 to 22% for Ribbed Laws Prices Letter

for Sugar Cured Hams. Prime kettle rendered Lard is firm at 20c, in tierces, and 22c, in kegs. Mess Pork, \$30,50 to \$31.

LARD OIL—Is firm but unchanged at \$1,20 for No. 2; and \$1,50 for No. 1.

FEATHERS—Live Geese Feathers may be quoted at 80c to the trade, and 85 to 90c, or equoted at soc to the trade, and so to soc, in a retail way.

FLOUR—The market con'inues dull, with a drooping tendency. Good to choice. Spring Wheat brands are quoted at \$9,50 to \$10,25. The "Pearl" and "City Mills"

continue to quote at \$10,50 for Extra Family, in barrels, and \$10,20, in sacks; Double Extra at \$11, in barrels, and \$10,70, in sacks. Rye Flour, \$9.

WHISKY—Is fairly active and firm but unchanged; we continue to quote common rectified per gallon \$1,25; half rye and half corn per gallon \$1,75; old Monongahela

rye, two years old, per gallon \$2,25; old Monongahela rye, three years old, per gallon, \$3,50; highwines per gallon \$1,35.

New York Dry Goods Market. (By Telegraph to the Pittsburgh Gazette.)

New York, Sept. 15.—There continues a good demand for all description of goods, and especially for woolen goods of desirable makes and colors, and prices rule steady and firm. Cottons are in limited demand. Plain bleached and unbleached musling irregular in reies, but not another. muslins irregular in prices, but not quota-bly lower. All lower priced and narrow classes of brown speetings and sheetclasses of brown spectings and sheetings are relatively higher than yard wide heavy goods, and the same is true in bleached muslins. That there are many classes of cotton goods selling below cost does not admit of doubt, while others are bringing good prices; consequently, until prices become equalized buyers find it necessary to require protection on averaging they buy equalized buyers and it necessary to require protection on everything they buy. Colored Cotton, all kinds are in light stock and firm. Silk goods are in good supply and more slowly, as prices are very high, owing to the high cost of production of stuff goods for ladies.

New York Cattle Market. [By Telegraph to the Pittsburgh Gazette.] New York, September 15. - Beeves quiet,

generally favoring purchasers; the average quality of offerings are fair to good; quotations ranged: extras \$16,50; prime \$15a25; fair to good \$15a15,75; ordinar \$14,50a15; The Crude market opened up a little stronger for spot oil, and for a time an effort was made to establish a slight advance; at the opening it was held at 111/c; subsequently it was offered at 111/c; but so
