## The Pittsburgh Gazette

LETTER FROM MRS. SWISSHELM.

Her Interview with the Wickedest Man in New York—Tenement Houses—Robbing the Poor to Benefit the Rich—The Record of Democracy in the Metropolis—The Five Points.

[Correspondence Pittsburgh Gazette. BROOKLYN, N. Y., Sept. 9th, 1868. I have had the horor of an introduction to that interesting celebrity, "the wickedest man in New York," a most villainous looking scamp, and of escaping a similar honor of an introduction to his wife, a buxom woman in a black dress bespattered with green ribbons, which ran helter skelter over it, in that charming forked lightning fashion, in which many less distinguished women do so much delight. I have even passed through the residence of the lion of the hour, and feel that my achievements as a sight seer are complete. It is a miserable den, an old three-storied brick, with ceilings which almost touch one's head, and floors and stairs worn through with the trampling of the thousands of feet who have passed that way to a hopeless hereafter. Behind the little bar room, the old dancing hall has been supplied with a few benches and chairs, . a table, some tracts and a vessel of ice water. Here a number, of people were as-sembling for worship, respectable people who had been drawn from a distance by curiosity or a desire to do good, while the men of that region crowded in the outer room and around the doorway, or lounged at other doors looking on, and the women lolled out of windows or sat on door steps and gaped. The meetings are matters of curiosity to them, and some good may come of them; but the missionary that is wanted in New York is the locomotive—a way to get out of the city in the evening and back to work in the morning. It is impossible for a man to work in the eity and sleep out of it. It is a journey of an hour and a half from City Hall to a car drawn by steam, and a laboring man can neither afford the time nor expense of traveling head and carbon ing back and forth to work. So they are piled into down town houses like maggots in a cheese. I visited one of the best model in a cneese. I yisited one of the best model tenement houses, yesterday, and found sixty-six families on a lot 50x100 feet, giving a space of Earth's surface of a little over 9x8 feet square for each family. Not more than they are entitled to for graves. As I have said, this is one of the best tenement houses, they the said the said that the said the s for it has no tenements more than two feet below the surface. One part faces on a narrow street into which all the ashes and garbage is thrown, and the drainage into two ells, the contents of which must be carried through the main hall, thrown into night carts and carted miles across the city, to be dumped into a river. The wharf at one side of the city, built of a dump, has long since fallen into decay, so that high carts, from that side of the city, must pass clear across to the other, to rea a dumping wharf. In that city "The World" boasts that the Democratic majority is larger than the entire Republican vote! Democracy, which in the South denied to the laboring man the right to his own bones, in the North denies him pure air, sunshine and enough of the earth surface while living to bury him when dead. Democracy contracts to pay to their Democrets, Brown, Devoe and Knap, \$498,500 a year in ten years for cleaning the streets. One year r said Democrats sell their contract for \$200,000. They have saved enough to secure them airy churches, luxurious parlors, well kept grass plats, fast horses and elegant carriages, while the poor man wades to his little dark room through heaps of festering filth, sleeps in a fetid atmosphere and sees his children pine and die for want of pure air and sunshine! The reeking record which American Democracy has made for itself, in the City of New York, would surely be its death warrant, if it were not that so many thousands of its victims are unable to read. No eastern potentate ever concocted a more effective scheme of robbing the poor for the benefit of the rich, than that devised and being constantly executed by the Democratic government of the City of New York. Were it not for the Metropolitan Police and Board of Health, organized and sustained by the Republican government of the State, the city must, before this time, have been abandon ed to theives, desperadoes, and prostitutes. As it is, these two Boards have long been engaged in a greatly unequal contest but are gradually and surely driving the enemy to the last ditch. The famous Five Points, whose sights and sounds of horror have been stamped on my memory for filteen years, is now comparatively clean and decent. Then, I had an escort of a citizen and police officer, specially employed for that purpose, ere it was thought safe for me to go. Now any one can walk or ride through it without apprehension. We also rode back and forth through the streets in a district adjoining, where a mile square of closely built streets is principally given up to thieves and pros-titutes, yet so admirable are the police arrangements that there was no offence to the sense of sight or smell. Fifteen years ago I saw women almost nude, some frightfully blotched with disease, some drunk and some apparently suber, attering obscenities or practicing lewd attitudes in the reaking stench of the dirty streets.

Democracy had everthing its own way.

Now the spirit of freedom and progress. through the aid of a very powerful agent—our Republican organization—has compelled vice as ashamed to hide behind walls. The best police captains, and picked men of the force, are detailed for duty in these districts; and no braver or nobler body of men placed themselves be-tween our Government and the Slave Power, in the first years of the rebellion, than that which now stands between Virtue and Vice Portable Flour and Feed Mills, on this old Island of Manhattan. Like the Army of the Republic, there are Democrats amongst them; but the power which organ ized and controls them is Republican. So, imperiect as that party is, and I think I have a not much higher opinion of it than Wen-dell Phillips himself, I can see, in the improvement here, in the difference between Democratic and Republican municipal gov-

future of the upward progress of our race,
JANE G. SWISSHELM. Died Among Strangers. The Cincinnati Commercial of Friday contains the following account of an old man

ernments elsewhere, and in the results of the war thus far, that it is the civilizer; and

that on its success depends the immediate

while on his way to this city: Coroner Emmert was yesterday morning called upon to exam ne the case of William Groh, a passenger on the steamer Rob Roy, coming from Missouri and bound for Pittsburgh. The ev dence showed that he had a son residing in Pennsylvania. The old man became weak, and was evidently linking, af er arriving at Cairo. He died sudman became weak, and was evidently sinking, af er arriving at Cairo. He died suddenly between 3 and 4 o'clock yesterday morning. Every attention had been rendered him as to food and accommodations by the officers of the boat. One of the employes of the hoat had given him water at 3 a. M., and found him dead before by clock. The deceased was eighty-seven years of age, and seamed greatly debilitated upon starting from St. Louis. The verdict of the jury was that the deceased verdict of the jury was that the deceased came to his death from general debility and old age, every attent in having been rendered him by the officers of the boot. rendered him by the officers of the boat.

EN ROUTE WESTWARD. orrespondence of the Pittsburgh Gazette.

TOM JASPER, MISSISSIPPI RIVER, September 10, 1868. I left Chicago yesterday and came down to Quincy on the Chicago, Burlington and Quincy Railroad, one of the best and most profitable roads in Illinois, and which runs the whole length through the best cultivated and apparently the most properous region I ever saw—the country was originally an almost unbroken prarie. We passed through many very pretty towns, of which I shall

not speak particularly. Quincy, on the east bank of the Mississippi, is a busy and growing city of from twenty-five to thirty thousand inhabitants. It has that peculiar air of freshness and good taste which marks nearly all the towns in this part of the country, and many of the new built business houses and dwellings are really very fine. The number of stores &c., and the bustle in the streets, indicate the extent and activity of its business. The city is set on—not exactly a hill—but a bluff, which rises some some fifty feet above the level of the river. This bluff is composed of a heavy stratum of magnesion lime-stone, deeply overlaid with drift. This stone, which is largely quarried, is a very superier building material, nearly as white as marble and deci-

dedly prettier. Nearly a mile above the compact and busi ness portion of the city is the new railroad bridge over the Mississippi, which will unite the railroads on the east of the river, particularly the Chicago, Burlington & Quincy, with the Hannibal & St. Joseph road on the west side, and through the latter with the Kansas Pacific and other roads west of Missouri. It is a work of very great importance to the entire country north of the Ohio river, stretching from the Atlantic to the Pacific. This bridge is a massive iron structure resting upon tall and substantial piers, built of the stone above spoken of. The total length of the iron structure is

3,587 feet, divided as follows: Span over main channel between west abutment and draw.

Draw, with pivot-tower in the middle.

One span cast of draw.

Two spans, each 20f eet.

Eleven '157 feet.

Eleven '157 feet.

Bland, about f, mile across, roadway heavily em auk.d

Bridge overchannel cast of the island, with

3,587 The cost of this bridge was not much short of two millions of dollars. It is so nearly completed that trains will be running in October. It is a single track railover road bridge only-no other kind of travel can pass over.

The bridge at Kansas City, over the Missouri, is progressing rapidly, and will be ready for the passage of trains in March next. That done, all the roads of 4 feet 81 inches gauge east of the Mississippi will be put into connection with the Kansas Pacific road, heretofore known as "the Union Pacific Railway, Eastern Division," and also with the other new and far-reaching roads which diverge southward from it. From Quincy I took passage on this elegant steamer, to run down to St. Louis, a listance of about 170 miles. This river above the mouth of the Missouri, is so full of islands that it is only at rare intervals that both main shores can be seen at one time. In fact it looks as if it had torn the

bottom lands all to pieces. The water is low, and no little twisting and turning is

required to thread the tortuous channel

Below the mouth of the Missouri, which changes the whole character of the river, we have water enough. REMOVALS.

REMOVAL—The Merchants & Manufacturers National Bank will, on THURSDAY, August 27th. Remove to the corner of First and Wood streets, House formerly occupied by the Proplet's National Early, and remain during the crection of their new Banking House.

SPECIAL NOTICES THE APPETITE FOR

Tobacco Destroyed! Leave of Chewing and Smoking the Poisonous Weed, Tobacco.

One box of ORTON'S PREPARATION IS WARRANYED to destroy the appetite for tobacco in any
person, no matter how strong the habit may be,
if IT TAILS IN MAY CASE THE MONEY WILL BE,
REFUNDEE. It is almost impossible to break off
from the use of tobacco by the mere exercise of the
will. Something is needed to assist nature in overcoming a habit so firmly rooted: with the help of the
preparation there is not the least trouble. Hundreds have used it who are willing to bear witness
to the fact that ORTON'S PREPARATION compictely destroys the appetite for tobacco and leaves
the person as free from any desire for it as before
he commenced its use. It is perfectly safe and One box of ORTON'S PREPARATION IS WARhe commenced its use. It is perfectly safe and harmless in all cases. The Preparation acts directly upon the same glands and secretions affected by tobocco, and through these upon the blood, thorough-ly cleansing the poison of tobacco from the system, and thus allaying the unnatural cravings of tobacco

O More Hankering for Tobacco after using OHTON'S PHEPARATION! RECOLLECT IT IS WARRANTED. BEWARE OF COUNTERFEITS! RECOMMENDATIONS.

The following are a few selected from the multineudations in our possessio

Inde of recommendations in our possession:

(From W. P. Heald, Esq., Bangor, Mc. 1
BANGOB, Mc., April 24. 1868.

I hereby certify that I have used tobacco for thirty Jears past, and for the last fifteen years I have used two pounds per month. I have made attempts to leave off at different times. I have left of one year at a time, but always continued to hanker for it until I used Orton's Preparation, which has completely cured me of the appetite for tobacco. I would recommend all who are affected with this terrible habit to try the preparation, which will certainly care it if the directions are fallowed.

W. P. HEALD.

(From E. W. Adkins, Knoxville, Tenn.) [From E. W. Adkins, Knoxville, Tenn.]

From E. W. Adkins, Knoxville, Tenn.]

KNOXVILLE, Tenn., August 5, 1867.

This is to certify that I had used tobacco to such an extent that my he aith had become greatly impaired, and my whole system deranged and broken down. In June. 1864, I purchased one box of Orton's Preparation, and after using it I found that I was completely cured. I bave not had any hankering or desire for tobacco since high the preparation. Ibelieve it to be all that it is recommended, and I would advise all who wish to quittine use of tobacco to try one box of Orton's Preparation.

E. W. ADKINS.

E. W. ADKINS.

[From John Morrill, Bangor, Mc.]

BANGOR, Me., March 24, 1868.

This is to certify that I have used tobacco for eighteen years; have tried may used tobacco for but have subcred so much from a dizziness in my head, and gnawing at my stomach, that I have soon given up the trial. A spet time since a friend induced me to try Orton's Preparation sold by you. I have done so, and an completely cured. I did not in the least hanker after tubacco, either to smoke or chew, after I began to use the Freparation.

JOHN MORRILL.

43 Hall to let to Select Parties.

UNION PACIFIC RAILROAD.

700 MILES OF THE

UNION PACIFIC RAILROAD

Are now finished and in operation. 160 miles of Are now unished and in operation. 160 miles of track have been laid this spring, and the work along the whole line between the Atlantic and Pacific States is being pushed forward more rapidly than ever before. More than twenty thousand men are employed, and it is not impossible that the entire track, from Omaha to Sacramento, will be finished in 1869 instead of 1870. The means provided are ample, and all that energy, men and money can do to secure the completion of this

CREAT NATIONAL WORK.

At the earliest possible day, will be done. The UNION PACIFIC RAILBOAD COMPANY

-A GOVERNMENT GRANT of the right of way, and all necessary timber and other materials found along the line of its operations. I.-A GOVERNMENT GRANT of 12,800 acres

of land to the mile, taken in alternate sections on each side of its road. This is an absolute donation, and will be a source of large revenue in the future. II.—A GOVERNMENT GRANT of United States Thirty-year Bonds, amounting to from \$16,000 to \$48,000 per mile, according to the difficulties to be surmounted on the various sections to be built. The Government takes a second mortgage as security, and it is expected that not only the interest, but the principal amount may be paid in services rendered by the Company in

transporting troops, mails, &c. The interest is now much more than paid in this way, besides securing a great saving in time and money to the IV.-A GOVERNMENT GRANT of the right to issue its own FIRST MORTGAGE BONDS, to aid in building the road, to the same amount as the U.S. Bonds, issued for the same amount as the U.S. Bonds, issued for the same purpose, and no more. The Government permits the Trustees for the First Mortgage Bondholders to deliver the Bonds to the Company only as the road is completed, and after it has been examined by United States Commissioners and pronounced to be in all respects a first-class Railroad, laid with a heavy T rail, and completely

supplied with depots, stations, turnouts, car-shops, locomotives, cars, &c. V .- A CAPITAL STOCK SUBSCRIPTION from the stockholders, of which OVER EIGHT MIL-LION DOLLARS have been paid in upon the work already done, and which will be increased

as the wants of the Company require. VI.—NET CASH EARNINGS on its Way Business, that already amount to MORE THAN THE IN-TEREST on the First Mortgage Bonds. These earnings are no indication of the vast through traffic that must follow the opening of the line

to the Pacific, but they certainly prove that FIRST MORTCACE BONDS upon such a property, costing nearly three times their amount, ARE SECURE BEYOND ANY CONTINGENCY.

The Union Pacific Bonds run thirty years, are for \$1,000 each, and have coupons attached. They bear annual interest, payable on the first days of January and July, at the Company's Office, in the City of New York, at the rate of six per cent. in gold. The Principal is payable in gold at maturity. The price is 103, and at the present rate of gold, they pay a liberal income on their cost.

The Company believe that these Bonds, at the present rate, are the cheapest in the market, and reserve the right to advance the price at any time. Subscriptions will be received in Pittsburgh by

JAMES T. BRADY & Co., corner of Wood HART, CAUGHEY & Co., corner of Woo and Third Streets: S. McCLEAN & CO., 75 Fourth Street;

PH. R. MERTZ, corner 5th and Wood Sts.; ROBINSON BROS., 78 Fourth street; AND IN NEW YORK At the Company's Office, No. 20 Nassau Street, and by JOHN J. CISCO & SON, Bankers, No. 59

Wall Street, and by the Company's advertised agents throughout the United States. Remittances should be made in drafts or other funds par in New York, and the Bonds will be sent free of charge by return express. Parties subscribing through local agents, will look to them for the parties of the par scribing through local agents, will look to them for their safe delivery.

A PAMPHLET AND MAP FOR 1868 has just been published by the Company, giving fuller in-formation tima is possible in an advertisement, re-specting the Progress of the Work, the Resources of the Country traversed by the Road, the Means for Construction, and the Value of the Bonds, which will be sent free on application at the Company's offices, or to any of the advertised agents.
