FINANCE AND TRADE OFFICE OF THE PITTSBURGH GAZETTE, Wednesday, September, 16, 1868. The Main election had been discounted yesterday. To-day the market opened strong at 1441/4, an advance of 3/4 per cent. over yesterday, and gradually rose to 144%. Gold is scarcer, and loaning is flat; the short interest outstanding uncovered s still very large, and, in all probability, he bullswill twist bears by advancing quotations. War rumors from Europe give the market additional strength, and will

aid the bull party more than their own schemes. The government bond market was firm early in the day, butt owards noon fell off who are impressed with the belief that the about 1/2 per cent. It is the large short bottom has been touched. This may be sales predicated on a close money market the case, temporarily, but unless a sharp that sustains prices at present, and the New York journals in the interest of the large dealers which constantly speak of that there will be another reaction, and

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, September 16, 1868. The general markets are quiet and deoid of anything that is really new or important. The fact that both Wheat and Flour have reacted and advanced slightly in Chicago, caused a slight commotion in commercial circles, and there are some foreign d mand should spring up, causing large foreign shipments, the chances are

that there will be another reaction, and large investments made by savings banks, whilst it is well known that these institutions need all their funds for ordinary business purposes.
