This Company, National in its character, offers, by reason of the Larg Capital, Low Ratus of Premium and New Tables, the most desirable means of insuring life cit presented to the public.

The rates of premium being largely reduced, are made as favorable to the insurers as those of the best Mutual Companies, and avoid all the compileations and uncertainties of Notes, Dividends and the misunderstandings which the latter are so apt to cause the Po'ley-Holders.

Several new and attractive tables are now presented which need only to be understood to prove acceptable to the public, such as INCOME-PRODUC-ING POLICY and RETIBE PREMIUE POLICY. In the former, the policy-holder not only secures a life insurance, payaley-holder not only secures a life insurance, payaley-holder not only secures a living, after a period of a few years, an annual income equal in ten per cera. (If per cent.) of the par of his policy. The stention of persons contemptating insuring their lives or increasing the amount of his policy.

The stention of persons contemptating insuring their lives or increasing the amount of insurance thoy already have, is called to the special advantages offered by the National Life Insurance Ompany.
