FINANCE AND TRADE, OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, September, 17, 1868. war rumors from Europe, have stimulated the demand to such an extent that the market advanced 3/2 per cent, and 144% was touched to-day; at the close, however lower quotations were made, when it was found out that the war rumors had no foundation. A fierce contest is now going on between the powerful cliques of bull operators for stocks, governments and gold, and the recently formed, but too soon exposed clique of bears. The bull side seems to have the inside track during an easy money market. Governments were very dull early this morning, but during the day the market become very strong on account of a demand, to cover short sales; the investment demand, however, is limited to small amounts, and

any size is quickly followed by a corresponding decline. The stock market is strong, and has materially advanced this afternoon in New York Central, Cleveland, Fort Wayne. The Express shares, are said to be at the beginning of a strong rise. The Northern cliques are holding up preferred to make a greater distinction between the two stocks rise has about been reached. Should the war rumors from Europe have any foundation, large sums of money would be withon governments or stock, in such a case. Closing quotations as received by Ph. R.
