The conditions then stipulated that they should not be forced to serve againts Lopez, and should choose their own place of residence in the allied nations. A PHILADELPHIA paper says: -The "Midnight Mission." a work of a most benificent character lately organized in this city, makes its first appeal for aid in the columns of this paper this morning. The benevolent and generous supporters of this plan for rescuing women from a life of degredation, have provided a home for those taken under its care, and have already met with gratifying success, in restoring thirty-six persons to a life of propriety and useful-ness. As the institution has had but sixtyone women, altogether, under its care, this large proportion of successful treatment, shows that in he field of labor entered upon by the "Midnight'Mission," there is a prospect and promise of greater and more gratifying success than usually results from missionary labors. What has already been accomplished, is the best measure of the merits of this mission, and ought to commend it to the favor and support of many of our

THE recently deceased Mr. Stevens, of Hoboken, whose real estate in the place is believed to be worth \$20,000,000, and whose entire property is estimated at over \$50,-000,000, has, by his will, directed the appropriation of \$150,000 for the erection of an institution of learning in Hoboken, and \$500,000 for its perpetual endowment, and he has also directed that \$1,000,000 be devoted to the completion of the Stevens Battery, which is to be the property of the State of New Jersey. With the exception of these sums, the whole of his enormous property is left to his family (wife and children).

BLOOMS FROM ORE.—The manufacture of blooms direct from ore, under the Jameson patent, is successfully carried on at the forge of F. W. Hughes, Esq., at Ringgold, Schuylkill county, by a company, of which Mr. Hughes is one. Two hundred bushels of good charcoal and about two and a half tons of fifty per cent. ore yield a ton of blooms. The blooms are said to be of the best quality. The cost of working blooms by this process is said to be about six dol-lars per ton more than the cost of making pig metal in the ordinary blast furnace.

THE New York Times says: The Jews of America are at perfect liberty to vote for Seymour or any other man: but we must agree with the opinion expressed by several Israelite newspapers that it will be a very unwise thing for them to make a sectarian matter of their votes. As American citizens, the Jews are guarantied precisely the same political rights as other members of the population. Their voting, therefore, should be not as Jews, but as American citizens, whose best guarantee for their political rights is in the continued character of

I believe it to be all that it is recommended, and I would advise all who wish to quit the use of tobacco to try one box of Orton's Preparation.
