OFFICE OF THE PITTSBURGH GAZETTE, } SATURDAY, September 26, 1868. The gold market is running steady at 1421/4: opening at 142%, declining to 1421/4 and closing at 1421/4. Gold is scarce and commands 1-32 per cent. per day to loan, yet the bull clique is powerless. The rise of our securities in the London market to 721/2 and 76 in Frankfort enables bankers to ship bonds where commercial bills are insufficient to meet the demand for exchange, and importers are not disposed to buy gold now for remittance to Europe. The favorable prospects of electing a Republican government in October and November strengthens the national credit at home as well as abroad, and tends to bring down the premium on gold, although the heavy imports and the small exports would not warrant a heavy decline.

Last year, at harvest time, the markets were entirely bare of wheat, and prices enormously high, and tarmers hurried their grain to market, and it was shipped immediately to supply the pressing needs of consumers. This year the large crop has caused a decline of 25 per cent. in prices, and the farmers refuse to sell, hoping for higher prices in the winter, and will probably hold on until they see their hopes are futile. Speculators are also waiting, and are not willing to purchase at present figures. Added to this, heavy rains have prevailed at the west during the past two weeks, making it impossible to move grain to market, so that although the roads at present are doing less business than last year, their prospects for a heavy business during the winter and spring are promising, and their earnings for the whole year will show a heavy increase over last—N. GENERAL REVIEW.

At no time during the past year has the market been subject to such violent fluctations as it has been during the past week. During the first three days Refined advanced from 281/20@29c to 33 cents; since then it has declined to 311/20@311/2c, sales having been made at these figures to-day. And the feeling between the "bulls" and 'bears' has become so bitter, that an out-

the week were 16,300 bbls against 22,824 the week were 16,300 bbls against 22,824 bbls last week; receipts since January 1st, 781,336 bbls. Exports of Refined 16,900, against 18,236 bbls last lweek; since January 1st, 494,833 bbls, against 476,473 same time last year, showing an increase of 18,360 bbls. The sales for the week were 66,200 against 95,500 last week.

Notwithstanding the decline in Refined, Crude, as yet, does not appear to sympathize much, the sales to-day, compared with these of Friday against the sales to-day. thize much, the sales to-day, compared with those of Friday evening, showing but very little change. We can report 3,000 bbls, on spot, at 12c; 1,000 each October, November and December at 12c; also, 1,000 comber and become at 12c; also, 1,000 comber and become at 12c; also, 1,000 comber at bbls on a bluff, at 121/c: for October and one hundred dollars, and there was another salesimilar to the above pending when we left, but it had not been fully decided—we will give the result in our next report. Last evening there was a sale of 1,000 bbls on spot, at 12c; also, 1,000 bbls at 121/c.

REFINED. The Refined market has still further declined, being off fully half a cent, compared with Friday. Sale of 500 bbls for September at 31½c; 500 do at 31½c; 500 do at 31½c, and 500 each for October, November and December at 30c. The market, although quiet closed steady, they being as far as quict, closed steady, there being, so far as we could learn, no further disposition to make concessions in order to effect sales.

PITTSBURGH MARKETS. OFFICE OF THE PITTSBURGH GAZETTE, The general markets have been quiet and rather dull during the past week, and de-Express stocks are firm and higher, void of any important characteristics Money not quite so easy as last week—busi- worthy of special notice. The inclement condition of the weather had a tendency to retard business somewhat, and besides the grand political demonstrations on Wednesday and Thursday absorbed the time and attention of our merchants and manufactures, and, as a consequence, business

was considerably neglected. APPLES—In good supply but un-changed; regular sales at \$2,50 to \$4 per BUTTER-Is in better supply, but with a continued steady demand, prices are maintained, ranging from 35 to 40c.

EGGS—Steady, with sales of fresh packed

at 22 to 23c—mostly at 23c.
SEEDS—Sales of Timothy Seed at \$3,50 business of the Pittsburgh Clearing House for the week ending Saturday, September 26th:

POTATOES—Dull, and cannot be quoted

above \$1 per bushel, and \$3 per barrel.

Sweets firm but unchanged at \$6,00 to \$6,50 per bbl, as to quality.

FEATHERS—We are cognizant of offers to sell live geese feathers, on arrival, at-75 cents per lb.
TALLOW—It may seem a little strange, yet it is nevertheless a fact, that this article is being bought here for shipment to Cincinnati. One house here has been buying for three years for shipment o that place, where it is manufactured into soap and

eandles, a portion of which is then shipped backe here. We quote rendered at 12 to

MILL FEED—Is very dull but unhanged at \$1,10 for Bran; \$1,30 for Shipstuffs, and \$2 for Middlings.

WHISKY—The market continues firm and as but few of the distilleries are in operation, in consequence of the high price of grain, it is not likely that the supply, which is now very light, will be much increased. is now very light, will be much increased.
