ALLEGHENY CATTLE MARKET. OFFICE OF THE PITTSBURGH GAZETTE, Monday, September, 28, 1868.

CATTLE. Notwithstanding there was an average supply of Cattle on sale to-day, the market, under the influence of a good local demand, ruled steady, and prime retailing stock sold readily at full prices. As the weather gets cooler, the butchers, as a general thing, will take a larger number of Cattle, and this, as a matter of course, makes considerable difference on the general tone of the market. The quality of the Cattle on sale was about up to the usual standard; in fact, it appeared to us that there was a larger number of good Cattle on sale than there was last week. Pennsylvania and Ohio furnished the greater number, though Indiana, Iowa and Illinois were also pretty well represented, and there was one small drove from Texas.

As will be seen by reference to the report of sales, prime to extra retailing Cattle sold at from 7½ to 7¾; medium to good at 6½ to 7, and fairish butchers stock at 6 to 6.25. Stock Cattle in limited supply, and as the recent rains have improved the pasture very much, there is not the same disposition among farmers and stock growers to send this grade of Cattle to market. To-day there seems to be buyers for all kinds of Cattle, and we have no doubt that by noon the pens would be pretty well

The offerings of Sheep and Lambs were not near so large as they have been for some weeks past, and as a consequence, the market ruled more active, and as a general thing prices were a shade better. There were but very few really good Sheep ibs on sale, the greatest number in the pens being common and inferior, and only suitable for second or third class shers; and prime fat sheep had there bave been any, such in market, would have brought 4½ and 5 cents. As will be seen by refernce both report of sales, there were but very few sold above 3½ and but few at that the great proportion of the areas parts between
