Soldiers' Convention. A meeting was held at City Hall last evening to make arrangements for attending the Soldiers' Mass Convention at Philadelphia on the 1st and 2d proximo. The meeting was organized by calling

Col. George F. Morgan to the Chair, and appointing William Hatfield, Secretary. A battalion of five companies of boys in blue was organized, and Col. George F. Morgan appointed Commander and Capt. Gus, L. Braun, Adjutant. The Enrollment Books will be open at City Hall to-day, and all persons who de-

sire to attend are requested to call and get their order for transportation. The battalio will meet at City Hall at 2 The pattano. Will meet at only o'clock P. M. Wedne-day.

Fifty names were enrolled, and the books will be open to-day at 46 thfield street and this evening at Wil-

A Committee of three was appointed to make arrangements for transportation.

Severe Accident.

John Scott, a young man employed as a painter by Messrs. J. & H. Phillips, met with a severe accident vesterday morning. He was engaged in painting the exterior of of the establishment of Geo. Albree & Son, corner of Fourth avenue and Wood streets. and for this purpose had placed a couple of "jacks" from the windows on the third story on the Fourth avenue side, and laid across them a board, upon which he stood while at work. It seems that in the centre of the board was a large knot which weakened it, and caused it to give way suddenly oned it, and caused it to give way suddenly under the weight of the workman, precipitating him to the pavement below. Falling upon a cellar door the force of the fall was somewhat broken, but as it was he received severe internal injuries and had his left ankle badly fractured. Drs. Le Moyne, King and Sutton being immediately called, succeeded in reducing the fracture, after which the sufferer was conveyed to his home on Penn street, Twelfth ward. His injuries, though painful, are not necessarily dangerous, though it will be some time before he is re-

An Improvement. Heretofore the Election Board of the Third ward, Allegheny, have occupied a room in the School House, and this naturally interfered with the schools on election days. The School Board of the ward, with a design of remedying this matter, are fitting up a room in the basement of the new wing for the especial use of the Election Board. The entrance will be from North avenue, and the approach to the window will be so arranged as to preclude the possibility of crowding. The new arrangement will go into effect on next election day, and will, no doubt, prove a very convenient and useful improvement.

The Ring Entered.

Two chaps of pugilistic tendencies, named respectively Hart and Rimsley, had arranged for a pleasant little scrimmage vesterday morning, according to the latest rules of the prize ring. The stakes were \$100, the time five o'clock and the place just outside the Cemetery gates. The agreeable contest was about to commence in the presence of a goodly company of the shortence of a goodly company of the short-haired fraternity, when Lieutenant Wooldridge, with twelve assistants, made his appearance, which suddenly checked the proceedings before a blow had been struck, and entered a shuking of hands between the and caused a shaking principals and the dispersing of the gathering,

A SLIGHT COLD, COUGH,

Or SORE THROAT may be checked if a reliable remery is applied at once, but if neglected very soon preys up in the lungs, and the result may prove fatal. The past few weeks of changeable temperature and cold rains are truitful s urces of troubles of the lungs, throat and chest. If you are attacked by a cold, no matter how slight, use at once

DE SARGENTS COUGH SYRUP,

Which is an old and well tried remedy for COUGHS, COLDS, ASTHMA, BPONCHIMS, and all Affections of the Pulmonary Organs.

WE ARE NOT CAST IRON. Cast Iron undergoes marked changes under the alternate action of heat and cold, and the human bedy is not cast iron. On the contrary, it is a combination of delicate tissues and flurgs, which are exquisitely sensitive to atmospheric changes; and, iless protected against sudden and violent variations of temperature by wise precautions, are sure to be disastr usly affected by them.

At this season the difference between the temper-

ature of night and day is greater than at any other period of the year, and the stomach, the liver, the bowels and the nervous system are apt to receive violent shocks from these changes, resulting in indigestion, bilious attacks, debiity, low nervous digestion, billious attacks, debility, low nervous fever, feverand ague, remittent fever, &c. Sustain and reinforce these organs, therefore, with the purest and most potent of all vegetable tonics and alteratives, viz: HOSTETFER'S STOMACH BIT-TERS. The effect of this matchiess invigorant is to brace up the whole vital organization, and regulate its action. Useful at all seasons as a means of proits action. Useful at all seasons as a means of promoting perfect digestion, an even and natural flow
of bile, and a hearthy condition of the bowels and
the skin, it is especially necessary in the Fail when
the commissin a arising from checked berrpiration
are so common. It is found, by those who a c in the
habit of using this agree-avic and unequalted tonic
that it so strengtness and fertifies the body as to
render it proof agains, the mirroid influences which
infect the air during the prevalence of epidemics.

DISEASED LUNGS. There is no doubt whatever that diseases of the dungs, or ulcers of whatever sort, on any of the in-

ternal organs may be and are frequently cured, and a complete condition of health established. If the elaborative functions, of which the stomach is the primary and most important one, are restored to a condition to do the repairing of the human system, ulcers or sores, whether upon the lungs the liver, the kidneys of the bowels, or upon the legs, as is frequently the case, can be made to heal, and a complete standard of health re-established. We have frequently seen these results from the se of Dr. KEYSER'S LUNG CURE, a pleasant

and agreeable midding, which will ripen up and carry out the animal economy all effete and used up material. Dr. KEYSER'S LUNG CURE is enriched by some of the most valuable plants and herbs known to be useful and curative in all deteriorated states of the human blood, and whilst it adds to its plasma, it at the same time stimulates, gently but effectively, the skin, the kidneys, the liver and the glandular syst m to sufficient action to enable the body to take on healthful action and eradicate the disease. The sick and afflicted should bear in mind the virtues of this great medicine, and if those who are sufficiently alive to the importance of health, are sufficiently alive to the importance of health, will resort to it in the beginning of a cough or cold, there would be no falling into declines and rapid consumption, so hopelessly incurable, and so most surely fatal. Let any one smitted with any pulmosurely fatal, the sun your smitted with any pulmonary disease try but one botte, and they will be convinced of the value of br. Kevser's rung fure. Very Disorderly.

Lieutenant Campbell, of the Alleghen night police, assisted by officers Lies, Kennedy and Dall, arrested a party of males and females, who were making night hideous with their uproar between twelve and one o'clock on Sunday. The party consisted of Henry Hartman, John Rollinger, Alphahouse, McMillen, James Jackson, Molley Jones and Mary White. They had been out in a two horse barouche to Perrysville and were returning bone when the disturand were returning home when the distur bance was created. From the general tenor of circumstances the officers conclud d that they were fit subjects for the lock up, and accordingly conveyed them thither, not however without consid erable difficulty. Six empty bottles on the floor of the barouche told the tale. This morning the six (that the six persons not the bottles) were called up before Mayor Drups and the days deliver goth and costs.
