story will expose the hypocrisy of his "tak-ing" style. He retired to his room at the St. Charles to find the gentleman assigned quarters with him sound asleep. Carrying duarters with him sound asleep. Carrying-his "taking" style into practical use, he pro-ceeded to take everything in the room. He had spoken too long, for the want of a watch, so he appropriated his sleeping partner's time-piece. He needed some-thing to illustrate the "carpet-bagger" on his next political effort in the clocknow cause of partner's time-piece. He needed some thing to illustrate the "carpet-bagger" on his next political effort in the giorious cause of the Democracy, so he took the man's well-ifilied satchel. He needed boots wherein to travel off, so he finished his job by drawing on his viotim's patent leathers and leaving his own seedy brogans behind. Having another en-gagement to address a Democratic meeting he took a hurried departure, for-getting to stop and see the clerk to settle the "little bill" he had contracted. The orator found himself suddenly introduced to two of Mayor Black more's police, at the Unior Depot yesterday morning, just as he was about taking his departure for the East. He was brought to the tombs, stripped of his plunder and permitted to depart, as the patriotic Democrat whom he had robbed refused to make information against him. Mr. Jones will speak at the

GEORGE WILKES has a standing offer o several thousand dollars on Pennsylvania econ---no takers. The Dix letter has been new wet blanket on the faithful. One wag proposed to put up a pile that Kenresponded with the "Political Miller and his three sons." Hon. Mahlon Chance, of Ohio, was next introduced, and made an able and eloquent address. He is a natural orator, and is gifted with a most powerful and musical yoice. Notwithstanding the lateness of the hour, he held the crowd until after eleven o'lcock, and kept them in a perfect blaze of the devil this stampede will stop." The un-easy feeling among the Irish Catholic De-no the Irish People, of New York, a weekly whether the devil this stamped will stop." than sny which circulates more heavily other excepting the New York Ledger, to support Seymour, followed by the loud growls of the great Irish Catholic Freeman's Journal' have created quite a stir. Much as we have been indisposed to believe that

any considerable portion of that class of our adopted citizens could be brought to vote against the leaders who have gulled them so long, that contingency does not seem to be so remote. Now the tide is all against Seymour, and there is neither inducement to spend money nor to risk jail in his behalf. There is nothing so danger-ous as the habit of false calculations before elections. Men may commit mistakes; these are natural; but when Democratic papers are natural; but when Democratic papers deliberately misstate figures, and hide the weakness of their own cause, they tempt their credulous followers into the most dam-aging cources. Mence the heavy losses to honest Democrats who put up their money

on Maine. THE St. Paul (Minnesota) Press says: "Ex. Governor Orr, of South Carolina. who is now in this city, has been giving some of the leading Democrate here a piece of his mind on the bungling way the Democracy. have been managing matters of late. one of them, who was a delegate to the Tammany Convention, he said that the nominstions of Seymour and Blair were both great mistakes; Seymour, because he repre-sented impracticable and obsolete ideas, and Blair, on account of his revolutionary letter. Besides, Blair was a military man, and the Democracy set out with the idea of having a great civilian statesman, and they should have been consistent in that idea. Pendleton was equally objectionable on account of his identity with old worn-out pol-icies. If the Democrats had nominated Chase, the Governor said, his name, so long identified with the abolition of slavery, would have enabled them to carry every Southern State. Now they might possibly carry Georgia and Alabama; the rest would all go for Grant."
