MICROSCOPE FOR ONE DOLLAR. Equal in Power to an Instrument Costing 814. Simple and Durable.

"The microscope is one of the most useful instruments; it has been extensively employed of late years in detecting adulteration in food and other substances which could not be easily discovered by chemical analysis; and to all it is a source of elevating and instructive amusement. This little instrument, although perfect in every part, is retailed at the low price of one dollar."—Scientific American, January 26, 1867.

"A neat and complete thing, and a wonderfully ingenious and convenient little pocket thing it is. No one who wishes to be able to detect bad bank bills, or examine the smallest item in creation, should be without it."—National Eagle, Claremont, N. H.
