FINANCE AND TRADE, OFFICE OF THE PITTSBURGH GAZETTE, Tushay, September 29, 1868. Gold was steady to-day at 141, and quite demand has sprung up for lots to pay for merchandise and other legitimate ways,

which seems to have been the prime cause of the firmness of the market. Governments were very dull to-day, and 1881's, 1862's, '65's, new, '67's, '68's and Ten Forties declined about % per cent., whilst the market remained firm and unyielding

in '64's and '65's. The stock market is strong in Fort Wayne, Cleveland, Erie and the Express shares; the balance is dull and lower.

Money is more in demand, and business closing unotations as received by Ph. R. rather dull. PITTEBURGH PETROLEUM MARKET. OFFICE OF THE PITTEBURGH GAZETTE TUESDAY, September 29, 1868.

CRUDE. The Crude market is quiet and unchanged. Early deliveries seemed to have been entirely neglected to-day not a single sale reported, though prices are about the same as on Monday; we heard of offers to sell spot or October, sellers option, at 11%, though as a general thing holders, are asking 12. Sale of 2,000 bbls to be delivered between now and April 1st, seller's option, at 10; and we heard it intimated that there were more buyers for some delivery at that figure. Offers to sell on ears at Oil City at \$4,40, either for spot or October, which is considered equivalent to 11%, here.

REPINED. The Refined market was reported some-The Refined market was reported somewhat firmer to-day, which is supposed to have been occasioned by the fact that another "deliver," day is near at hand, and usually there are some "shorts," who from sheer force of circumstances, are compelled to go in the market and buy. Early in the insually there are some shorts, are compelled sheer force of circumstances, are compelled to go in the market and buy. Early in the day there was a sale of spot eil in Philadelphia at 30%c, but later in the day, it is said, sales were made at a slight reduction. Here, we are cognizant of offers to buy at 30c, but there were no sellers at that figures. October was quoted at 30%—no sales reported. Sale of 500 bbls each for November and December at 20%c. From the above, it will be seen that there is no perceptible difference between the market of to-day and that of yesterday, save that spot and October were a shade higher, and held with more tenacity, while the later months, as yet, do not appear to sympathize.
