Tuesday, October 6, 1868. Gold remained firm to-day at 1401/2, and closed steady at 140%; cash gold being scarce again, it is loaned at 5-64 per cent. per day. The large bulls who bought from 144 down to 142, are determined if possible to carry up the premium to about 145 before the Pennsylvania elections, this at least is their programme. There is ent a very uneasy feeling, and thi probability is that the government will not interfere with the market value of gold by selling what might at present be deemed a surplus. European markets are less bouy-

ent, and bonds can not be sold, there at a Government bonds are very dull, and there is no demand, either by speculators nor by investors at present prices; the market advanced to rapid on Friday last, to permit investors to come in at the low igures. The pressure to sell ceased about at a time when it was supposed it would commence, judging from the easy money

markets on call loans a rise is almost unavoidable in the absence of other suitable investments, and during a dull business season.

Stocks were very firm, and excited early in the day. Pacific Mail advanced from 124 to 129%; it having sold at 108 about ten days ago. Fort Wayne was 112%, declined to 111%. New York Central declined from 130% to 129%. Cleveland advanced and 130% to 129%. Eric hed terrabel 1888.

CHEESE—Is firmer, and in fair demand; sales of Hamburg and Factory at 17 to 18c, and Sweitzer at 19 to 20c. SEEDS—Flaxseed continues scarce and in demand at \$2,50. Timothy Seed is in good supply and dull at \$3,50. Smallsales of Cloverseed, in a retail way, at \$9.

PROVISIONS—Bacon unchanged at 13% for Shoulders; 15½ to 16c for Ribbed, and 17½ to 18c for Clear Sides, and 20 /c for Sugar Cured Hams. Lard 20%c, in tierces, and 21 in kegs. Mess Pork, \$30,50 to \$31.

Merchants Union Express, 23%. —It transpires in regard to the "corner" \$10,50 in sacks. Rye Flour, \$8.50. in Chicago corn market that the shrewd operators there have been beaten at their own game. The game usually played is to saddle the losses on to some other city, but t seems that the country, taking advantage of the immensely over-ruled condition of the corn market, formed a combination, kept back supplies, and cornered the market. The losses are immense, and so generally distributed as to shake mercantile confidence to its center. If we could only hope this would break up gambling in the necessaries of life there would be little to regret. The Republican, of Monday, says: In grain circles the chief feature of the week has been the "corner" on corn, which has proven even more disastrous to the interests of our grain merchants than did the "corner" on wheat in June last. We have previously given accounts of this last in provided at the inside which yields and rejected, at \$1.17a1,19 for No. 1, \$1.18 for No. 2 and \$1.17a1,19 for No. 2 at \$1.76a1,78, and rejected, which have previously given accounts of this last in proviously given accounts of this last tage of the immensely over-ruled condition the "corner" on wheat in June last. We have previously given accounts of this last "corner" on corn; so shat it is unnecessary to go into detail here. Numerous failures have occurred, a number being reported to-day. The subject of abolishing "corners" is still discussed with vigor, and each day brings forth a new remedy. brings forth a new remedy.
