DISEASED LUNGS.

There is no doubt whatever that diseases of the lungs, or ulcers of whatever sort, on any of the inernal organs may be, and are frequently cured, and s complete condition of health established. If the naborative functions, of which the stomach is the primary and most important one, are restored to a condition to do the repairing of the human system, ulcers or sores, whether upon the lungs, the liver, the kidneys or the bowels, or upon the legs, as is frequently the case, can be made to heal, and a compiete standard of health re-established.

We have frequently seen these results from the use of Dr. KEYSER'S LUNG CURE, a pleasant and agreeable medicine, which will ripen up and carry out of the animal economy all effete and used up material. Dr. K. says that he has known the most distressing and harassing coughs, whose vibrations would threaten to shake the whole constitution to pieces, removed in the course of a few days. In long standing cases of consumption, or of other sometimes fatal, but always troublesome and annoying maladies, known as catarrh, chronic brouchitis, trachitis or pharyngitis, it is a wonderful alleviating medicine in the former and a sure cure in the latter disease.

Dr. KEYSER'S LUNG CUBE IS ENRICHED BY OME OF THE MOST VALUABLE PLANTS AND HERBS KNOWN TO BE USEFUL AND CURATIVE IN ALL DETE-MIORATED STATES OF THE HUMAN BLOOD, and whilst it adds to its plasma, it at the same time stimulates, gently but effectively, the skin, the kidneys, the liver and the glanular system to sufficlent action to enable the body to take on healthful iction and eradicate the disease. The sick and afflicted should bear in mind the virtues of this great medicine, and if those who are sufficiently alive to the importance of health, will resort to it in the beginning of a cough or cold, there would be no falling into declines and rapid consumption, so hopelessly incurable and so moss surely fatal.
