Government securities are stronger this evening, and sympathize with the former feeling in gold, yet the investment demand is very light, and only small amounts change hands; the larger dealers were sellers on Saturday and Monday evening, and are not disposed to buy at present, unless the premium on gold is either lower or the government ceases to sell gold. It is also rumored, and positively asserted by parties who have the means to be informed, that the seller of 1867 bonds, the only loan that is not closed yet-but, perhaps, this rumor may be traced to the sale of a fewbonds to cover the seven-thirty notes now when it is selling gold to get currency, six million dollars in gold, whilst our export do not exceed two and a half millions in currency, freight and charges considered. Trade, generally, has been dull, all week, and from present indications, is likely to continue so until after the electron. We can report a steady local demand for most, if not all, of the leading articles, thut the volume of business, in the aggregate, is

restricted by low water, and this, \in a measure, tends to restrict business, which, at best, is nothing to brag of. APPLES-In good supply and dull buck unchanged at \$2,50 to \$3,50 for fair to prime,
