THE EFFECTIVE RESULTS of hard, faithful-work are shown by the Republicans of our Northumberland county: Time was when the Democracy regularly rolled up a majority of 1,800 or 1,900 against them. Steady work, in the support of uniformly judicious local nominations, has been, year after year, reducing that preponderance till a meagre 413 is the outside figure for SEV-MOUR'S majority this year. We predict the complete conversion of old Northumberland before the close of 1870.

The results of the understood that the Constitution was rejected. The country is now surprised by the announcement, made from the Committee charged by the Convention with the duty of receiving the returns, that the new Constitution was in fact adopted and the Union tickets for all offices elected by a decisive majority vote. The announcement includes also the names of the successful candidates, headed by B. B. Eggleston, for Governor, and including full representation in both the XLth and XLIst Congresses. The suppression of all this information until the month of November, is a very remarkable feature of the business, and will ensure a close examination by Congress into all its details. Upon that investigation hangs the question whether Mississippi is, or is not in fact, already reconstructed and needlessly deprived of her Electoral vote.

DAVID TOD.

The death of Ex-Governor David Ton, a distinguished and inflential citizen of Ohio, occurred very suddenly yesterday morning at Youngstown, the place of his residence. Previous strokes, probably of the same malady which has now proved fatal, had given warning to himself and to his friends, that another attack might be expected at any moment, and the suddenness of this event has not, therefore, surprised them. Governor Top must have been nearly seventy years of age. A native of Ohio, his father, the late Judge Top, was a pioneer emigrant to the valley of the Mahoning, and there, in what was then Trumbull, but has since been known as Mahoning county, the deceased lived all the years of his active, honorable, honored and useful life. Bred to the bar, he stood in the front rank of the profession in Northern Ohio, whether as counsel or advocate. Naturally of far more than ordinary intellectual parts, there were few men apon the Reserve circuits who could rival him in the effective management of juries. His forte lay not so much in polished rhetoric or elegant declamation, as in the use of a popular expression, familiar language, apt illustrations, a caustic humor which always tells with juries in that region, and much shrewd insight into human nature. "DAYE" Top, as he was sentation,

familiarly known in a half score of counties, acquired a large practice, but, like most of the profession at that time, without a corresponding pecuniary advantage. Mingling, after the fashion of the American bar, political engagements with professional du-

ty, he was known for full twenty years as a leader of the Olive Democracy. Taken up at last as their candidate for Governor, a strong though unsuccessful pollshowed him to be one of their most popular and available champions.

In 1853, if we remember correctly, Mr Tod was offered, from President Pierce. an appointment as American Minister to the Brazilian Court. Accepting the trust he repaired to Rio, and there discharged the responsible duties of that mission with fidelity, ability and to the satisfaction of his government and countrymen. Returning home after a few years, he de-

clined any future engagements, either in his profession or in politics, and addressed all his energies to the task of developing the little known, and imperfectly appreciated, wealth of the great Mahoning coal field, in which his proprietary interests were large. His labors were in due time crowned, not only with large pecuniary profit to himself, accumulating for him a very handsome estate, but with results interesting to the public in a vastly greater degree. The extent of these coalfields, the valuable qualities of the mineral itself, and its almost boundless capacities as a source of wealth to the counties of Trumbull and Mahoning, came in a few years to be appreciated and in a considerable measure to be realized, through his energetic and successful schemes of development, so that to him probably more than to any other one citizen, is to be conceded, in this regard, the honorable name of a public bene factor.

Still known and recognized as a Deme crat, although not actively sharing in current politics, the Union's peril, in 1861, brought DAVID Top, as it did all other large-hearted and clear-headed members of that party, to the side of his country. His War Democracy became instantly so pronounced and glowing that it naturally needed but a few months to find that all partisanship had been completely sloughed off, and Mr. Top became, irrespective of old party lines, one of the first among the floremost of those loyal men who swore that the old flag should not be trampled under rebel feet so long as they could defend it with a man or dollar. Northern Ohio cannot easily forget the constant hourly proofs which marked Mr. Top as a man splendidly in earnest. In private life, as President of the Mahoning railway, in all his relations whatever, he would not suffer patiently even the mention of rebel treason. In 1862, Mr. Top was again nominated,

in a whirlwind of enthusiasm, as a candidate for Governor of Ohio-this time as the choice of all true friends of the Union-and was elected by an unusually large majority. His two year's administration of the affairs of that great State, holding it steadfastly to the right hand of the Great President, and as heartily sustained by his people as he himself sustained the flag. Governor Top's official career will be long remembered to the honor of the State and of himself,

RELIGIOUS INTELLIGENCE.

We gave the supposed increase of members in the M. E. Church for 1868 some days ago, in round numbers at one hundred thousand, since which we have received the official statistics, which show the entire membership of the M. E. Church in the United States to be 1,242,259, being a net increase for the past year of 96,178. These figures are exclusive of the number of Bishops and traveling preachers, who number 8,481. The increase of traveling and local ministers for the year is 906. The statistics show even more remarkable gains in the value of the church edifices and parsonages, than in membership, and the Sunday School department will also show a large gain. The receipts of the missionary treasury in 1858 vere\$158,12461, and for 1867 \$607,520 96. Pretty good for one decade. The receipts for this cause for the year ending Oct. 31,

1868, are \$614,137 16. Bishop Domenec, of the Catholic Diocese of Pittsburgh, has ordered that the Feast of the Immaculate Conception, the 8th of December, will be a Feast of strict obligation, and, therefore, the faithful are obliged on that day to hear Mass and abstain from ser-

vile work. Few persons think, as they should, that the contributions to the Missionary cause will produce early fruit. In some countries the truth of the Gospel seems to make very slow progress, and suddenly breaks out in a flame of glory. Recent favorable omens mong heathen nations indicate the rapid spread of the Kingdom of Christ. Look for instance at Madagascar! Only a few years ago this was regarded as one of the most barbarous islands on the globe. But now Christians can enjoy unmolested their privileges, and the Queen and the Government are favoring the cause of Christ. What a contrast, and what encouragement to con-

tribute to the spread of the Gospel! The Old School Presbytery of Blairsville adopted a resolution not to take under the care of the Presbytery any young man as a candidate for the ministry, who is an adherent member of any secret society.

The Philadelphia Baptist Association held ts one hundred and sixty-first anniversary not long since. The letters from the churches breathed a fine spirit, and from them the following facts are gleaned: Churches, 66; of which number 12 are without pasters. Additions during the year, by baptism, 12,258; letter, 547; experience, 158; restored, 69. Diminution by letter, 553; erasure, 269; exclusion, 240; deaths, 185. Total membership, 17,493. The New Covenant (Universalist) of Chis Greene

cago, announces that Rev. Davis Bacon, of Huntingdon. . Pittsburgh, is to discuss with Rev. J. S-Sweeny, of Chicago, the question: "Do the Scriptures teach the final holiness and happiness of all mankind?" The discussion takes place at Cameron, West Va. Rev. L. C. Collins was suspended from the ministry at the recent session of the Minnesota M. E. Conference for holding the

loctrine of the annihilation of the wicked. We noticed at the time the movement | Monroe of the First Presbyterian Church, of Cin. Montgomery cinnati, of its adoption of the free seat principle: The Fifth Presbyterian church, of Cincinnati, Rev. J. B. Stewart, pastor, following the example of the First church, has adopted the free seat plan. The voluntary subscription, based upon the change, it is said, adds to the church's finances an increase of over-one-third, and it is expected

will also and in like nature to its numerical and spiritual prosperity. The article entitled "Democracy of the Chinese," in Harper's Magazine for November, was written by Rev. Dr. Speer, son of Dr. Speer, of this city, the Secretary of the Presbyterian Board of Education. The paper is designed to give an impartial and ntelligent estimate of the political institutions of China, and to call attention to the amount of freedom and popular intelligence

possessed by the people of the land. We give the vote on the terms of union n the Presbyteries of the Old School Church, to give an idea of the final result, namely, thirty-seven for approval, sixty non-ap-

proval. It is said the Congregational Sabbath School of Bethlehem, Connecticut, is the oldest in this country, if not in the world,

it having been organized in 1740. The National Christian Convention, already noticed in our columns, will meet in the Reformed (Dutch) Church, corner of Fifth avenue and Twenty-ninth street, Tuesday, November 17th, and will continue three days in session. We hope our city will be well represented, as the exercises will be of unusual interest to the Christian support of it. There was nothing in the

public. It is estimated that the individual benefactions to American colleges since the close of the late war, amount to over nine millions of dollars. About another million has been contributed to academies.

The Official Board of Rev. H. W. Beecher's Church instructed him not to administer baptism to a child unless both of its parents were Christians. He remarked that inside his own Church he would conform to the order, but outside would baptize if but one of the parents was professedly a Christian. A Convention was recently held at Chicago to consider the propriety of organizing

Woman's Board of Missions in connection with the American Board of Foreign Missions. The movement finds much favor. At the "wickedest man's" prayer meeting n Water street, New York, the other day, an old sailor cried out, "Presbyterians for discipline, Baptists for water, and Method.

Methodist in winter." pefore the Boston Theological Seminary, took the ground in his argument on the derelopment theory that all animals have been developed from man instead of man from ani-

It is said all the foreign ministers at Washington city—including the English and Turkish—are Roman Catholics. The grand Metropolitan M. E. Church, Washington city, D. C., will soon be ready iness interests, her population, her wealth, for dedication. A twenty thousand dollar her internal improvements, her varied in-

room, a smaller one for the lecture room, a third for the infant class, and a beautiful not only appreciate the wants and interests organ for the parlor. A silver service has been presented by Mrs. James Foster, of New York, worth twelve hundred dollars, and a baptismal font worth five hundred dollars. Hon. Anson Burlingame has taken a thousand dollar pew for future attendants from the Celestial Empire.

Dr. J. M. Pendleton, an eminent Baptist' divine, says the Christian Advocate, thinks that the Baptist Church will be annihilated if open communion services prevail.

The Universe, the oldest Catholic organ in the country, published at Philadelphia, is quite jolly over the good time expected at the approaching Thanksgiving. It hopes that the turkeys will be fat, the cranberry sauce delicious, the hot punch strong, champaign efferesernt, and the cooking both prime and true.

York City, said in a recent sermom: "Protestantism, as a system for the preservation of Christianity, is a nonsumate failure and awful cheat, a delusion for souls."

Opinions of the Press. (From the Harrisburg Patriot, (Dem.))

Thomas M. Marshall has been long recognized as a leading member of the Pittsurgh bar, and he has been known at the same time, throughout the State, as an active and zealous politician. He is the very Boanerges of the Radicals of the western part of the State. To him more than to any other man are due the immense majorities piled up by that Radicals in that region. While others slunk away from any attempt to defend the measures of the Radicals in Congress, he daringly insisted on their wisom and justice everywhere. While other Radicals were engaged in lustily denying that the party were in favor of negro suf-frage in this State, he frankly avowed his econstruction measures of Congress, in the military rule in the South, in the ruthless proscription of hundreds of thousands of his fellow-citizens, and the elevation over them of ignorant barbarians, that did not find in Thomas M. Marshall a bold, adroit and unscrupulous defender. He is the very beau ideal of a modern Radical, always far in the lead of his party, urging forward and encouraging the laggards, never found lurking among the camp followers in the rear. Ever popular and influential with his party in Allegheny, ite disdained all the offices at their disposal, proudly waiting for a prize which might be worth contending for Talanted improvements.

for. Talented, impetuous, physically and morally brave, never suspected of any great delicacy or scrupulousness, he would prove in the Senate the Danton of modern Jacobins. His presence among such mouldy and mousing politiciaus as Wilson, Chanc ler, Pomeroy and Cattell, would be refreshing to all who admire talent and daring. He would not be long in the Senate until he would share in its control, and the approbation of the party, with Morton, of Indiana. whom he, in many points, resembles. He goes the full length of Wendell Phillips on ists for fire. I am a Presbyterian when on duty, a Baptist in hot weather, and a advance. If the opponents of William H Bishop Thompson, in one of his lectures | advance. If the opponents of William H. Kemble want a leader, Tom Marshall, of Allegheny, is the man. He would intuse

He possesses more ability, more courage and more learning than any man who has been seriously named for the position. 1From the Titusville Heraid. 1 Our next Legislature is to choose the successor of Senator Buckalew, and it is to be hoped that its selection will be a wise one. Pennsylvania is the second State in the Union in political power; she has great bus-

piano has been presented for the audience | dustries all demand that her Sepators should ef his State, so far as they may be affected by Federal legislation, he should also be a tried and true Republican, one who has been thoroughly identified with the history and organization of the party, who is in full sympathy with its principles, who en-

joys the public confidence, and who is fitted o take an active and leading part in the National councils, under a Republican administration. It would seem only fair that the next Senator should be taken from the North. And among the possible candidates from this section, Hon. Galusha A. Grow is prominently named and urged by the press in different sections of the State. Grow's long experience in legislation, the purity and consistency of his political course and public life, his high ability as a parliamentary debater, all recommend him very strongly for the Senatorship. As Chairman of the State Central Committee

he has organized victory for the party in our late political contest in this State, and contributed largely by his zeal and well direct-Rev. Dr. Ewer, (Episcopal,) of Newed management to defeat the machinations of Wm. A. Wallace for throwing the State into the arms of the Demogracy. No selection would secure a more hearty ondorsement in this part of the State, than that of Galusha A. Grow.

[From the Venango Republican.] Hon. Thomas M. Marshall has been identified with the Republican party ever since its organization. He has been an earnest advocate of its principles, and a fearless champion of progress, and equality before the law for all men. He has ever been identified with the interest of the tradesman, the citizen, and the workingman-in short, he is a man of the people, and a man whom the people will delight to honor. Mr. Marshall has been an active public speaker for more than twenty years; and this, with his acknowledged ability, should be a strong ar-

gument in his favor. We earnestly hope that Venango county will give Mr. Marshall her full and cordial support for U. S. Senator.

[From the Indiana Messenger,] In the person of Mr. Grow, we have an honest, upright, conscientious man, one upon whom we could rely and trust to properly represent us in the Senate of the United States. His political record is without stain or blemish, while his private character is above reproach. No man in the State is more deserving of position, and we trust our Representatives will see the force of giving us a Senator who will not only reflect credit upon our State, but stand as wall of fire between the honest tax-payers and the thieves and robbers who infest the National Capitol.

From the Raftsman's Journal. The laborious, unwearied and conscientious exertions of Mr. Grow, as Chairman of the Republican State Committee, during the most important and most, exciting political contest ever witnessed in Pennsylvania, entitle him to the cordial thanks of every member of our party.
[From the Philadelphia Press.]

The Harrisburg State Guard declares for the re-nomination of Governor John W. Geary, and in so doing justly reflects the prevailing judgment of the Republican party in favor of a brave and faithful public

servant. (From the Scranton Republican.) The Harrisburg State Guard proposes the re-nomination of Governor Geary. Without any disparagement of the highly satisfactory administration of the Governor, we ale timely notice of the intention of the north-eastern section of the State to again press the claims of Mr. Ketchum for that

next fall.

DR. A. P. LIGHTHILL -DEAR SIR-Your treatment in the cure of my Catarrh has had the desired effect, and resulted in permanent good to me, although my case has frequently been pronounced incarable, and I had exhausted all other modes of treatment, without the least benefit. My case was so chronic and troublesome, that by giving a few of the symptoms the value of your treatment can be more readily estimated. For years I had been afflicted with a constant cold in the head, obstructing my breathing so as to necessitate me to keep my nouth open during sleep; latterly the discharges became solidified and impacted in my nose to such an extent that it required the greatest exertion to expei them. Sometimes these hardened lumps would get in my throat causing me to hawk and scrape even by the honr to relieve myself. My breath was offensive; my memory became impaired. Dizziness and light headiness made their appearance, and of late symptoms of paralysis stepped in, and when I placed myself under your care one side of my face was badly affected by this dread disease.
