a great favorite with our play-goers, appeared last night as Hamlet before quite a respectable though by no means crowded a respectable though by no means crowded house. His interpretation of Hamlet varies very much from that of Edwin Booth, original, but none the less acceptable. He was ably supported by the fine stock com-pany which now graces the boards of the Opera House. As Ophelia, Miss Dargon, an actress of conceded power and ability, fairly surprised her warmest admirers, per-sonating the character in the highest and most pleasing style of art. Miss Van-dereen equally well sustained her high his-trionic reputation in Gertrude, and Messrs. Doud, Norton, Hotto and Vandereen, and sold.

PITTSBBUGH THEATBE. - The attendance at the old Theatre last evening was as large

as usual. Miss Kate Fisher is quite a favorite and her reading of the several char-acters in the "Three Fast Men" was most excellent. The piece will be repeated tonight.

VARIETIES THEATRE .- The attractions at Trimble's Varieties continue to draw crowded houses, notwithstanding the op-position the establishment has to contend against. Mr. Williams is a practical man and fully understands his business.

THE MUSEUM.-The museum still continues to be a favorite place of resort for lovers of the curious in nature or art. The Major has succeeded in obtaining a collection, which is well worth a visit for examination. The establishment is open day and even-ing, and should be visited by every one.

CITY HALL—The fair, under the auspices of the Women's Christian Association, for the benefit of the home for destitute wothe benefit of the nome for desinting wo-men, will open this evening in City Hall. The Hall has been tastefully decorated for the occasion, and everything in the line of fancy and useful trinkets can be found upon the booths. Dinner and supper will be served each day until the close of the fair. The distance of a part of these farms, computing distance by time, is not more than from five to thirty minutes apart; and the slight difference is of but little consequence, since it is not intende we presume, to provision the occupants from the city, but mainly from the products of the farm. There would, therefore, be little or no difference of expense in the superintendency and management of other, and the inmates more likely to remain at the institution than visit the city at costs for recommitment.

Some inaccuracies occur in describing the Brackenridge farm, which it is deemed proper to correct. It is stated that there proper to correct. It is stated that there is "a good spring of water on the farm." The farm, instead of being billy, is, from its frontage of about 1700 feet on the Western Pennsylvania Railroad, extending back to the Freeport road, a distance of about 100 rods, a gen-tle slope of beautiful land and all of it susceptible of cultification, admirably adapted for buildings, orchards, &c.; and for extent of prospect and beauty of scenery is unsurpassed by any other tract on the banks of the Allegheny. It is open, too, on three sides-on the West by a street or road of fifty feet wide, the Freeport road on the Northeast 49% feet in width, and the West Pennsylvania Railroad on the South-west. No part of these roads are included in the measurement of the land. It is also in the measurement of the land stated in the article referred to that "there

This is a recommenda-tion to start with, and if the Company is a secure one, its low rates will naturally be popular. Some days they have used it ac-ording to the directions, and others have not touched it. The whole trial has been irregular, and of course a less favorable re-sult has come from their use. If it be true that "what is worth doing at all is worth doing well," how emphatically is it true in matters relating to the health. A few bot-tles of PLANTATION BITTERS have often

Pleasant Valley, or the rural district known by that name, lies beyond the Alle-gheny City line-we believe in McCure township. In the district thus indicated, gheny City line—we believe in McGure township. In the district thus indicated, which we have traversed a hundred times, we know of nothing unpleasant. The val-lay is narrow, but upon the uplands, which form its boundaries, many fine and costly mansions are, erected and locupied, among others by Jonathan Gallagher, the brothers McCreery, Wilham S. Bissell, W. B. Pusev, Israel Hoag, James Hoag, and David Evans, gentlemen who have within a few years selected and improved their re-spective estates tastefally and expensively. That portion of the valley within the city is more densely inhabited. A village of comfortable freeholds are neated in this part of the city. Quite within the city, in the approaches to the valley—not within it —are the cattle pens, destined ere long to be replaced by dwelling houses. These pens are at times offensive, but Pleasant Valley is beyond the sight or reach of these odors, and has nothing to do with their origin or continuance. If our neighbor will visit the district to which the name of Pleasant Valley has been given, he will agree with us that the name is not a misnomer.
