## PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY. December 5, 1868. There is no improvement to note in the tone of the general markets and business generally continues dull, and stagnated, and the feeling of uncertainty and irregularity which has prevailed for some time past still continues. For some few articles, there is a slight improvement in the demand, but this is the exceptional, for as a general thing the demand for all of the leading commodities is very light and restricted almost entirely to supplying the immediate wants of the local trade. APPLE BUTTER-Demand is rather

better, but prices are unchanged at 70 to 75 in kegs, and 80 to 85 in crocks.

For Rye there is considerable inquiry, but buyers are very scarce at any thing over \$1,40; at that figure, however, there is a good demand. Barley is held with more tenacity, but buyers are scarce at much of an advance, and most of the large brewers and malsters are pretty well supplied. Some few small sales of Spring have been made during the week at \$2, but, as yet, no considerable amount could be disposed of at that price.

#### RIVER NEWS.

The river rose slightly yesterday, and was still swelling last evening with six feet six inches in the channel by the Monongahela marks. Weather continues cloudy and unsettled, with indications about equally favorable for rain of

The Lorens, from St. Louis, is the only transient arrival we have to report. The Armenia, from the same point, and the New York, from Cincinnati, are among the first boats due. Capt. Jas Shedden, late of the Leonidas. has assumed command of the Mary Davage Barges, now loading for New Orleans.

The Kate Putnam left Cincinnati for St.

Louis on Friday with a good trip.

The Armadillo arrived at New Orleans on Thursday last.
The J. N. McCullough has been partially raised, and is being gradually floated to the Marine Ways, where she will be thoroughly repaired and made as good as

new. The Camelia, Capt. Thomas Poe, is announced for Rashville and all intermediate points forthwith.

The Sallie, en route from St. Louis to Pittsburgh, come up over the falls at Louis-ville on Friday.

The Bayard, Capt. A. S. Shepard, is the regular packet for Parkersburg to-day, leaving promptly at noon.

leaving promptly at noon. We notice a paragraph going the rounds in our river exchanges that a packet line has been established between Pittsburgh and St. Louis. Such a movement was made some two weeks since, but it was of short duration. But two boats loaded un-der its auspices, the third breaking over in regard to leaving on time, laying over three days after her regular day for leav-ing. This is the second attempt of the kind made here within two years, and as already noted, both have proved failures. It would be a good thing for steamboat owners if such a line could be established, as it

would, to some extent at least, prevent a ruinous competition which has prevailed for some years past. \_Morahall Slank to tage No. 2, and tied her up at Buffalo, Wes Virginia, on Thursday of last week.

-Gen. Morgan D. Smith, well known in marine circles, will succeed Col. Rogers deceased, as United States Marshal at St. Louis. He will make an excellent officer. -George Vandergrift, Esq., formerly a popular conductor on the Little Miami Railroad, and Mr. Samuel Woodward, purchased the towboat Jim Watson about week ago, for \$5,000.

—The Government steamboat S. H.Long, which is operating between Memphis and the mouth of White river, is doing effective service, having removed over 150 large snags in the bends below. -The case of the owners of the steamer

St. Cloud vs. the Magnolia Insurance Com-pany, to recover a policy of insurance for \$4,200, has been decided in favor of Capt. Rusk and other owners of the boat. —On Monday, John Kizer, Deputy Uni-ted States Marshal, seized the steamer Comet at Terre Haute, for some violation of the revenue laws. The Captain claimed there was some mistake about it, and posted off to Indiaeapolis to have the mat-

Pilots, John Moore and Henry Conant;

-Experienced river men in the North are predicting unusually high water next spring. They say the ground is now soaked as thorughly, almost, as it can be. It will freeze in that condition, with the remaining fall rains at the surface, to which will be added the snows of winter. When the thaw comes in spring there will be no soaking—the waters will run to the rivers. —A St. Louis dispatch, under date of Friday, says: The Great Republic case was decided in the United States Court this morning. Judge Treat reprimanded the Marshal for assuming to reject bids at any sale made under order of the Court any sale made under order of the Court, but, on account of the sale in this case not being advertised sufficiently, and not transpiring in strictly legal form, he would overrule it, and order a new sale on the 17th of December. The boat must then be ocked down to the highest bidder, 'no matter what the price may be.

—A Louisville telegram, under date of Thursday, says: There not being falls water, the Diamond, Grand Lake, Wild Cat and Simpson Horner are putting their tows through the canal. The Boaz has not arrived. The Emma No. 3, for New Or-Jeans, received here 506 plows, 466 empty barrels, 7 tuns iron, and a large lot of fur-niture and miscellaneous freight; also, 500 plows at Jeffersonvillo, and 300 empty tierces at New Albany. There is some feeling manifested through the charge of the Emina's cutting freights, and intendent Sturgeon is examining her bills of lading.
