#### persons who believe the mines are too good to last, and who believe that the ore deposit is of no great thickness. The White Savages of Texas. The following is the report of General

Reynolds, commanding the Fifth Military District, which embraces the State of Texas: HEADQU'RS MILITARY DISTRICT,

STATE OF TEXAS, AUSTIN, November 5, 1868. To the Adjutant General of the United States

Army, Washington, D. C .: GENERAL: I have the honor to forward herewith the annual tabular statement of expeditions and scouts, and a report of the movements of the various regiments serv-ing in this District for the year ending Sept. 80, 1868. Armed organizations, generally known as the Ku-Klux-Klan, exist independently or in concert with armed bands in many parts of Texas, but are most numerous, bold and aggressive east of the Trinity river. The precise objects of these organizations cannot be readily explained; but it seems to be in this State to disarm, rob and in many cases murder Union men and negroes, and as occasion may offer, mur-der United States officers and soldiers; also to intimidate every one who knows any thing about the organization, but will not join it. The civil law east of the Trinity river is almost a dead letter. In some counties the civil officers are all, or a portion of them, members of the Klan. In other counties where the civil officers will not join the Klan, or some other armed band, they have been compelled to leave their counties The examples are Van Zandt, Smith and Marion counties. The connty seat of the lat ter is Jefferson. In many counties where the county officers have not been driven off, their influence is scarcely felt. What political end, if any, is aimed at by these bands I cannot positively say: but they attend in are entirely removed. The glass is then large bodies the political meetings and bar- bound to a zinc plate, covered with a layer large bodies the political meetings and bar-bacues which have been and are being held of asphaltum varnish, and the whole exin various parts of the State under the auspices of the Democratic clubs of the different counties. The speakers encourage their attendance, and in several counties men have been indicated by name from the speakers' stand as those selected for murder. The men thus pointed out have no -course left them but to leave their homes or be murdered on the first convenient opportunity. The murder of negroes is so com as to render it impossible to keep an 'accu-rate account of them. Many of the members of these bands of outlaws are transient per sons in the State, the absence of railroads and telegraphs and the great length of time required to communicate between remote points, facilitating their devilish purposes. These organizations are evidently counter nanced, at least not discouraged, by a majority of the white people in the counties where | is deposited the bands are most numerous. They could not otherwise exist. I have given this matter close attention, and am satisfied that a remedy, to be effective, must be gradually applied, and combined with the firm suppor of the army, until these outlaws are punished or dispersed. They cannot be punished by the civil courts until some examples of military commissions show that men can be punished in Texas for murder and kindred crimes. Perpetrators of such crimes not heretofore, except in very

rare instances, been punished in the State at all. Free speech and a free press, as the terms are generally understood in other States, have never existed in Texas. In fact, the citizens of other States cannot appreciate the state of affairs in Texas without

The National Banks, ' Comptroller Hubbard, of the currency bureau, in his forthcoming annual report will recommend such action on the part of Congress as will prevent national banks from certifying checks not founded on real funds. This is intended to stop such

sons. As an offset to all the above, it is

but fair for us to add that there are many

reported, will auggest several reforms in the method of collecting United States taxes from National banks. During the last fiscal year, the Treasurer has collected \$5,728,365 for duty on the three items of capital, circulation and deposits. The Commissioner of Internal Revenue, during the same period, has collected \$1,868,739 as taxes upon the same three items, from Na tional banks, State banks and private bankers. The collections from National banks for duty are made semi-annually by the Treasurer, and involve no expanse. The taxes on banks and bankers are one twelfth of one per cent. a month on circulation and one-twenty-fourth of one per cent, a month on capital and deposits, and are collected by the Revenue Department, which receives payment for the service. This expense, as far as the National banks are concerned, it is proposed to save, by requiring the pay-ment of the tax directly into the United States Treasury.

Koertling's Method of Relief Printing. A glass plate is coated with a non-trans-

parent varnish, and the desired figures are drawn on it with a needle, the dark parts posed for a length of time to the suulight, after which the zinc plate is washed with oil of turpentine. The light passing through the scratched lines on the glass plate renders the asphaltum directly subjacent insoluble in turpetine, and the corresponding portion of the zinc remains coated, while the rest is" laid bare. The plate is then etched in the usual manner, leaving the figure in rclief, and capable of being printed from, like a woodcut, when properly mounted. Objects may be gilded in two colors, by first de-positing one shade of metal, then coating vith suitable varnish, on which is drawn the pattern of the second shade. With a graver or pointed instrument, the varnish and original gilding are removed along the pattern, and the article is then subjected to the second process, by which the other tint

N., Washington, D. W. BLIRS, M. D., Washington. BOLICITORS AND ATTORNEYS. WM. E. CHANDLEE, Washington, D. C. ECORGE HARDING, Philadelphia, Pa. This Company, National in its character, offers, by reason of the Larg-Capital, Low Rates of Premium and New Tables, the most desirable means of in-saring life yet presented to the public. The rates of premium being largely reduced, are made as favorable to the insurers as those of the best Mutnal Companies, and avoid all the complica-tions and uncertainties of Notes, Dividends and the misanderstandings which the latter are so apt to cause the Policy-holder. Bereral new and attractive tables are now pre-sented which need only to be understood to prove ac-ceptable to the public, such as INCUME-PRODUCY. IN the former, the policy-holder not only secures a life insurance, payable at death, but will receive, if living, after a period of a few years, an annual ta-comsequal is then per cost. (IU per sent.) of the par of Mis policy. The lister the Company agrees to re-turato the assured the total amount of money he has publicy. The sitter the Company agrees to re-turn to the assured the total amount of ins policy. The stiention of persons contemplating insuring their lives or increasing the amount of insurance they siresdy have, is called to the special advant-ages offered by the National Life Insurance Com-pany Circulars, Pamphiets and full particulars given on LATE 608 CHESTNUT STREET, PHILADELPHIA, Informs his friends and patrons in Pittsburgh that he is now connected with South-east corner of CHESTNUT and SEVENTH
