RIVER NEWS.

The river continues to rise slowly at this point with scant seven feet in the channel by the Monongahela marks last evening. The weather yesterday was undoubtedly the worst of the season. A steady mixture of snow and rain fell during the entire day, while under foot there was a mixture of snow, water and mud, rendering it exceedingly disagreeable for pedestrians to navigate, and out-door business was almos completely suspended.

We have no arrivals or departures aside from the regular packets. The New York, from Cincinnati, and Armenia, from St. Louis, are among the first boats due.

The Bayard, in command of Capt. Geo D. Moore, leaves for Cincinnati to-day. She will continue in the Pittsburgh and Cincinnati packet trade until the McCullough is able to resume business again.

The Savanna arrived from St. Paul last

evening. This is her first appearance here since last spring; she usually comes here to winter.
The Coal City was getting a tow ready last evening, and will doubtless take her departure to-day.
The Glasgow, Capt. Andy Robinson Jr., will be the first boat out for St. Louis.

—Igon Barges.—There is a very strong probability that Dubuque is to have quite an accession to her manufactories; one that an accession to her manufactories; one may will redound very materially to the gene-ral prosperity and notoriety. We mean a shipyard (?) for the building of from barges. Yesterday, Commodore Jo. Rey-nolds, better known as "Diamond Jo," waited on Messrs. Rose & Dean, the well water on messis, tose & Dean, the well-known magbine and engine builders of our city, and laid before them the project of building iron barges for his line. Messrs. Rose & Dean's foreman of the boller shop, who has had considerable experience in iron ship building in England and the Canadas, gives it as his opinion that iron burges can be built here within one-third or one-fourth the cost of wooden barges. Should this prove true, the Commodore will have two from barges put on the stocks at lonce, as he is satisfied to enter into a contract within that margin. Plans of the barges are to be furnished for estimates, and the result will be known in a few lavs .- Dubuque Times, 8d.

The following affidavit of Mr. Joseph P. Maigh and Captain W. B. Donaldson, was read in the United States District was read in the United States District Court, at St. Louis, on Friday last, in regard to the Great Republic: It stated that they were present at the time appointed for the sale, and that it was then apparent from the appearance and conduct of the parties present that there would not be any fair competition in the bidding for the boat, end that it would, if put up, be sacrified; that the Deputy United States Marshal, under the circumstances, stated to those present, that unless a sum was bid that would justify him in starting the boat, he would not put it up; that the sum of \$25,000 PITTEBURGH, FORT WAYNE & CHICAGO

DISEASED LUNGS.

There is no doubt whatever that diseases of the innes, or nicers of whatever sort, on any of the incomplete condition of health established. If the laborative functions, of which the stomach is the primary and most important one, are restored to a condition to do the repairing of the human system. alcers or sores, whether upon the lungs, the liver, the kidneys or the bowels, or upon the legs, as is requently the case, can be made to heal, and a complete standard of health re-established.

We have frequently seen these results from the use of Dr. KEYSER'S LUNG CURE, a pleasant and agreeable medicine, which will ripen up and carry out of the animal economy all effete and used up material. Dr. K. says that he has known the most distressing and harassing coughs, whose vibraions would threaten to shake the whole constitution to pieces, removed in the course of a few days In long standing cases of consumption, or of other ometimes fatal, but always troublesome and annoy ing maladies, known as catarrh, chronic bronchitis trachitis or pharyngitis, it is a wonderful allevia ting medicine in the former and a sure cure in be latter disease.

DR. KEYSER'S LUNG CURE IS EMBICHED BY OME OF THE MOST VALUABLE PLANTS AND HERBS ENOWN TO BE USEFUL AND CURATIVE IN ALL DETE-RIGHATED STATES OF THE HUMAN BLOOD, and whilst it adds to its plasma, it at the same time stimulates, gently but effectively, the skin, the kidneys, the liver and the glanular system to sufficient action to enable the body to take on healthful action and eradicate the disease. The sick and affleted should bear in mind the virtues of this great nedicine, and if those who are sufficiently alive to the importance of health, will resort to it in the beginning of a cough or cold, there would be no falling into declines and repid consumption, hopelessly incurable and so most surely fatal.
