The gold market remained firm to day at 135%; the lowest point reached was 135%, and the highest 1351/2. The demand for cash gold is very light from the fact that the government will pay out in January next about thirty-two million dollars which with the present coin in the bank at New York, will likely swell the amount there to over thirty millions which would far exceed the gold held by old state banks; their average being twenty-three millions, and but one had reached thirtyfour millions. This, together with the increased shipments of cotton from now to March next, will keep the market well supplied of either exchange or gold, should present importations. Fort Wayne, Erie, Cleveland and Ohio Mississippi are all firm, whilst Western shares are lower. Express shares are firmly held during the pressure for money at the end of the week; it is evident that these stocks are cheap at present

prices, and, at that, ought to yield a handome return sooner or later. In our local money market, the demand for money is increasing, and the state of the market is reflected at the sales of local securities, which it is difficult to sell, except at concessions. Allegheny Valley bonds were njuch in demand a few days ago at 84 to 85, but could not be sold over 8214, and a round lot might not bring that, when

ALLEGHENY CATTLE MARKET. OFFICE OF THE PITTSBURGH GAZETTE, Monday, December 14, 1868.

CATTLE.

There was a full supply of Kattle on sale to-day, about 1050 head, but with good weather and a fair demand, the market was more active than last week, and, if anything, prices, especially for prime fat Cattle, ruled a shade higher. The number of eastern buyers was not very large, but and there was an increased number of country buyers in attendance. As regards quality, there appeared to be a very fair proportion of good Cattle, and, as a matter of course, this grade always sells with less of course, this grade always sells with less the staple styles, and then advanced by the per yard. Bleached Muslins continue in request and Lonesdale and Hope have again risen another 140 per the butchers took hold with more liberality, trouble and at relatively better prices than the commoner kinds, though when we left the yards (at 10 s. m.) the indications were 107 Market St., near Fifth Ave., trouble and at relatively better prices than

that there would be very few of any kind left unsold. Prime to extra butchersstock may be quoted at 7 to 71/2; good to medium at 6 to 61/2, and common at 51/2. Stock Cattle range all the way from 4 to 514, ac-

SHEEP AND LAMBS.

SHEEP AND LAMBS. The supply of Sheep was again comparatively small this week, scarcely reaching two thousand head, and as a consequence the market was firmer and prices higher. Prime to extra fat Sheep sold at from \$3,75 to \$4,50 per head, and some lots were held at 5 cents per pound. Even "scalawags" were held at an advance and the scalawag were held at an advance and the scalawag butchers, were growling bitterly—some intimating that another market or so like this one would smash "Butler." There was one eastern buyer in attendance, but he did not buy, the butchers paying more for prime Sheep than he was willing to give, while scalawags he did not want.

M.
