Confession of a Female Poisoner—Another Mrs. Grinder.

(By Telegram to the Pittsburgh Gazette.)

New York, December 28.—In Lafayette, Sussex county, New Jersey, a widow White made a confession just previous to her death, on Saturday, which horrified the town. Being a member of the Methodist church, she sent for some of her fellow members to attend her in her dying hour. She confessed that about seven years ago she poisoned her infant child, and that it died, and a year afterwards she poisoned her husband's father, and he too died. Later still, on the return of her husband from the army, she dealt to him also a fatal poison. The woman had borne a good character. The only reason assigned for making this dying confession was her desire to rid her conscience of the load of crime prior to her death. She was perfectly sane up to the time of her decease.

NEW YORK CITY.

An Apology from Mr. Gladstone—French Cable Company—Panama Ship Canal—Cable Cases—Dinner at Delmonico's.

(By Telegram to the Pittsburgh Gazette.)

New York, December 28, 1868.

A letter from Right Hon. W. E. Gladstone, is published. He says: With respect to the opinion I publicly expressed at a period during the war, that the South had virtually succeeded in achieving its independence, I could not be surprised or offended if the expression of such an opinion at such a time had been regarded as wrong work much less kindly than the notices I have seen at pages 529 and 533. I must confess myself in expressing such an opinion. My sympathies were then where they had long been, and where they are now, with the whole American people.

It appears the French Cable Company has a charter granted by the Legislature of this State, conferring on them a valuable telegraph franchise. Part of the purchase money was conditioned upon the procurement of the opinion of the State either of the Legislature of the State or of the Congress of the United States, can limit that right, or authorize any one else to interfere with its enjoyment. The Chief Justice declined to give such opinion, and recommended that Mr. Curtis be tried. From him and from Mr. Curtis' unsatisfactory opinions were received. The Company next made a trial of Mr. Curtis, and secured his opinion in a banquet speech. In the course of his remarks Mr. Curtis said he would regard his friends belonging to the Empire State as the friends of the Revolution. Their grant did not differ much from England and the great principles upon which it was founded; they had made each State an equal and each was left in undisturbed possession of the territory which it had acquired. What the company wanted, although he did not precisely know, but he supposed they wanted as much as they could get; but if they wanted to carry their plan into Maryland, and get permission of the State, no one could hinder them from going there.

The Evening Post has a report that Mr. Cushing has been sent to Bogota to close the contract for the isthmus canal, towards which, it is said, our government is ready to promise a guarantee of a million for a survey. The Post says it is asserted that Gen. Grant has been consulted about the Panama ship canal, and is warmly in favor of speedy construction necessary to secure our commercial and naval supremacy and our empire in the Pacific. It is rumored that the Government has been examining maps, and report upon the most feasible line of canal, and he is convinced the canal must be built near the line of the present Panama and Railroad ought to be one.

Judge Nelson has vacated his order staying the proceedings in the case of the Government, or any similar proceedings, shall be arrested of judgment, when a motion for arrest of judgment, or any similar motion can be heard, if the defense desire.

In the U. S. District Court, before Judge Blodgett, the Stevens cotton case, involving about one million of cotton, was taken to have come on for trial, but until next month on account of the absence of important testimony. The case was finally set for January 6th, with the understanding that the Government was not then ready the case was to be brought on.

R. B. Roosevelt, of the New York City, gave an elegant dinner at Delmonico's this evening to Hon. Eugene Casserly, Senator-elect from California. Other guests were present, including members of the New York press, who were invited with the view of making Mr. Casserly's acquaintance.

A pleasant social evening was passed. Speeches were made by the host, by the chief guest, Mr. Casserly, and by Wm. Dana, John Bigelow, Mayor elect Oakley Hall, Col. E. A. Conkling, Hon. Erastus Brooks, Hugh Hastings, Wm. Bronckton, John Swinton, Messrs. Sedley, Herrick, and others. Mr. Casserly, in the course of his remarks, alluded to the arrest of Samuel Bowler, and said that the law is being put into effect, and that the liberties of the press would yet have reason to rue the Blasdel and Eckel case is to come on for trial to-morrow.

No reports of intelligence have been received.

(By Telegram to the Pittsburgh Gazette.)

The game was close and exciting and was eventually won by Foster by four points. The game did not terminate until one o'clock this morning.

It is stated that General Grant expressed himself merely for opinion's sake. The purpose of his administration will be the faithful performance of his duties of his great office; to see that the law is carried out; that honesty and economy prevail in the public service; and that all the officers are capable and efficient men, and an officer in the public service has shown a peculiar fitness for his position and evidence of his ability to perform its functions in the highest degree of excellence and with honesty of purpose, no matter what his political inclinations may be, it would be improper to replace that officer with one who could, at least, perform the duties no better.

WASHINGTON Gossip.

Democrats seem determined to repeat the story that General Grant is at variance with the President. Few statements more sensationally false have been sent to the country in a long time. The very reverse of what is stated is true. Mr. Morrow said the ordinance had not been drawn by a lawyer, but he thought it expressed all that was necessary. Mr. Brown said it was quite evident that it had not been drawn by a lawyer. It was not necessary for the gentleman to state so. He would from the appearance of it, that it had been drawn by a French gentleman. It had no title, and if adopted in the shape it was presented, would not be worth anything.

After some further discussion, the ordinance passed to a third reading, on a suspension of the rules and was adopted. C. non-concorded and laid the ordinance on the table.

The Company desired to take the right of way from Liberty to Wood street, and along Wood to Fifth avenue, but the Street Committee considered the best route would be that indicated in the ordinance.

Mr. Jerney favored the ordinance, and Mr. Brush opposed it.

Mr. Robb moved to refer the ordinance to the Ordinance Committee, with instructions to report at next meeting.

Mr. Daub said he was a resident on Smithfield street, and knew that all property holders along the line proposed on that thoroughfare were in favor of granting the company the privilege asked.

Mr. Batsheler thought the matter of too much importance to be rushed through in haste.

After some further discussion, Mr. Weldon withdrew the ordinance.

CITY PRINTING.

The ordinance providing for a change in Company was reported from Select Council.

Mr. Brush took the floor and stated that he could see no good reason for a change in the ordinance under which the present Council had elected its officers to do the printing.
