## Financial Matters in New York. without decided change. Bacon steady with a moderate inquiry. Lard dull at Gold Closed at 134%@135.

## (By Telegraph to the Pittshurgh Gazette.] NEW YORK, December 28, 1868. GOLD.

The money market opened with less pressure, and up to two o'clock loans were made at the legal rates, and seven per cent. in coin. Shipments of currency to the South continue, but they are more than counterbalanced by the receipts from the West. The demand for money became very active after two o'clock, and the mar-ket was more stringent than on any pre-vious day since the present stringency set in. The suspension of Storms, Thuler & moderately active, with moderate receipts; very active after two o'clock, and the mar-Co., retail dry goods merchans, for \$40,000, is reported, with small probability of weathering their difficulties. Many bor-rowers found it actional difficulties. Many borrowers found it extremely difficult to get money even at very dear rates. Before three o'clock the legal rates. He-fore three o'clock the legal rate in in currency was paid, with commissions added of 1-16@34 per cent. These are among the dearest rates ever paid on Wall spreet, and there can be no permanent improvement until after the quarterly bank statement is made, as most of the banks are poor. After bank hours, %@% per cent. was bid for money. To-morrow's dis-counts are very dull and nominal, the rate being 8@10 per cent. Sterling dull at 9%@ 9% per cent. Gold is without decided change and quite dull, though an undertone is strong. 'Extremes of to-day wore 24%( 35; closing rates 34%(34, Governments closing with only \$20,000,000.

DISEASED LUNGS.

There is no doubt whatever that diseases of the angs, or ulcers of whatever sort, on any of the internal organs may be, and are frequently cured, and complete condition of health established. If the taborative functions, of which the stomach is the primary and most important one, are restored to a condition to do the repairing of the human system, alcers or sores, whether upon the lungs, the liver. the kidneys or the bowels, or upon the legs, as is frequently the case, can be made to heal, and a complete standard of health re-established.

We have frequently seen these results from the ise of Dr. KEYSER'S LUNG CURE, a pleasant and agreeable medicine, which will ripen up and carry out of the animal economy all effete and used up material. Dr. K. says that he has known the most distressing and harassing coughs, whose vibrations would threaten to shake the whole constitution to pieces, removed in the course of a few days. In long standing cases of consumption, or of other ometimes fatal, but always troublesome and annoy ing maladies, known as estarrh, chronic bronchitis, trachitis or pharyngitis, it is a wonderful alleviating medicine in the former and a sure curs in he latter disease.

DR. KETSER'S LUNG CURB IS BARICHED BY OME OF THE NOST VALUABLE PLANTSAND HERBS KNOWN TO BE USEFUL AND CURATIVE IN ALL DETE-BIORATED STATES OF THE HUMAN BLOOD, AND whilst it adds to its plasma, it at the same time stimulates, gently but effectively, the skin, the, lidneys, the liver and the glanular system to suffcient action to enable the body to take on healthful action and eradicate the disease. The sick and aflicted should bear in mind the virtues of this great nedicine, and if those who are sufficiently alive to the importance of health, will resort to it in the beginning of a cough or cold, there would be no. falling into declines and rapid consamption, hopelessly incurable and so most surely fatal.
