[By Telegraph to the Pittsburgh Gazette.] NEW YORK, January 6, 1869. Money easier, and the indications are that Money easier, and the indications are that the reign of Shylock in Wall street is over. Currency is flowing here from the West, and the outflow to the South is now comparatively light. The disbursements on account of interest and dividends, which this month amount to over \$60,000,000 here, are coming out freely, and the market is rapidly reaching the point where it will be impossible to renew the recent high rates of interest by artificial means. The Bank Examiner is in town, and it is believed will call some institutions to a sharp account. The attention of the District Attorney is said also to have been called to the recent heavy shaves of money lenders.
