Financial Matters in New York. Gold Closed at 1351/@1351/4.

[By Telegraph to the Pittsburgh Gazette.] NEW YORK, January 7, 1869. MONEY.

Money market quiet and easy at 7 per cent. currency to coin interest, with no attempts to extract a commission. The feeling is more cheerful in financial circles, and there is no prospects of a revival of high rates for money. There is a movement among city banks to return to the old State system. The Commonwealth and Continental are mentioned as having taken the initial step. A dividend of 15 per cent. is talked of on the Pittsburgh and Cleveland road, to represent earnings spent on the road and the increased value of real estate. The Eric party has obtained control for a favorable lease in Cleveland for the Atlantic & Great Western. It is also announced they are after Toledo & Wahash, and here there is talk of a scrip divi-dend in the future. The Rock Island road has \$1,400,000 of first mortgage bonds ma-turing this year, and the managers already have a proposition before them for selling new stock to take up the bonds. The built clique have been selling heavily within a few days, in view of the probable increase in the capital stock. Sterling quiet at 9% (@9%: Gold firmer, the range of to-day being from 1851% to 1853%, closing at 1351%

tive, excited and strong. Cleveland and Pittsburgh rose rapidly to 88%. Rock Island ranged between 118% and 119%. Northwestern and St. Paul were noticeably active. New York Central less dealt in, owing to uncertainty of legislation and lit-igation. Pacific Mail was a feature, and sold high at 120@120% in the afternoon market, though at one time lower, was atrong and active, and closed with prices at the highest point of the day. In many cases Old Southern was especially firm on expectation of four per cent. semi-annual dividend. Pittsburgh rose to 89%. Wabash and St. Paut were active, as was Pacific Mall, under the prospect of the payment of back dividends in February. Rock Island was ieverish on rumors that the company are about to take up an equal amount of the bonds which mature in 1870. If such the directors of the company in this city.
