

CITY AND SUBURBAN.

Large Sted took the place of cars on the Mineville Passenger Railway yesterday.

Allegany Councils.—The Allegany Councils will hold a regular meeting tomorrow evening.

The "oldest inhabitant" thinks the fall of snow yesterday morning was one of the heaviest within his recollection.

The Ordinance in relation to shoveling the snow from sidewalks was very generally observed in both districts yesterday.

The Pitt Posters.—John McCourry and James Thackeray are rival bill posters, and like rivals in any other important matter, they don't seem to get along pleasantly with each other.

A Popular Grocery Store.—There are few wholesale and retail grocery establishments in this city more worthy the patronage of the public than the extensive and well known house of L. J. Blanchard, No. 396 Penn street, which has long and successfully monopolized a full share of trade.

Accident at the Rink.—Yesterday morning about three o'clock, the Superintendent of the Keystone Rink, Mr. Brown, who was sleeping in the building, was aroused by the sound of crashing glass and timbers.

On Sunday night as Mr. Thomas Smith was passing down Union street from the Y. & C. depot, he was assaulted by four men, who knocked him down and beat him in a terrible manner.

At the recent meeting of the new Board of Directors of the Cleveland and Pittsburgh Railroad, J. N. McCullough, Esq., was re-elected President and William Stewart, Esq., General Superintendent and General Ticket Agent.

THE ALLEGANY ELECTION.

Allegany Municipal Election—Contests in the Wards—The Final Result.

The regular municipal election in Allegheny was held yesterday. Notwithstanding the extreme disagreeableness of the weather, the turnout was better than had been expected, and in some of the wards, quite a respectable vote was polled.

In the Third, Fourth, Fifth, Sixth and Seventh wards opposition candidates were run for all the offices, with some measure of success, as the table given below demonstrates.

CITY COUNCIL.

An adjourned meeting of the City Councils was held in the City Council Chamber, at two o'clock, P. M., Tuesday, for the purpose of electing city officers.

The members present were Ahlborn, Ahl, Armstrong, Burgwin, Coffin, Craig, Dickson, Edwards, Hartman, Herron, Jones, Keenan, Kery, Garrow, Lloyd, Marshall, Morrow, Murray, Murdoch, McClelland, McEwen, McMahon, O'Brien, Quinn, Rafferty, Rees, Rush, Shipston, Schmidt, Torres, S. J. Walworth, Wilcox, White, Zern, and President McAuley.

The minutes of the previous meeting were read and approved.

Mr. Holmes moved as an amendment to run 32nd, that the President of Councils be empowered to increase the number of members on the several committees as they deem proper.

Mr. Holmes read a communication from the City Comptroller, relative to the construction put upon the city ordinance for getting a new City Gauger.

The motion was received and Mr. Holmes moved that committee of five from Select and three from Common Councils, in conjunction with the City Gauger, to investigate Mr. Nobbs' books for the past year, be appointed.

Mr. Kelsey moved that before a committee be appointed to examine the books of Mr. Nobbs, that he be made against Mr. Nobbs.

Mr. Holmes said that he had no charge against Mr. Nobbs, but that charges had been made, and he thought it due to Mr. Nobbs to have the matter investigated.

Mr. Craig thought that Councils were probably going to pass and that before going forth, the ordinance relative to the matter should be read.

Mr. Holmes moved that the member from the Eleventh ward need not ask for charges against Mr. N., that the admissions of that gentleman through the city papers was sufficient charge, and he thought a Committee should be appointed.

After some further discussion the question was passed to a vote and adopted, and Messrs. Jones and Morrow appointed from S. C. in C. C. no action.

Mr. Schmidt, from the Sixteenth ward, introduced a resolution, which was adopted, and Mr. Schmidt moved that his seat be declared vacant and the Mayor requested to fill the place.

The motion was adopted. Council adjourned.

Common Councils.—Council was called to order at half past two o'clock by President Tomlinson.

The following members answered at roll call: Messrs. Albertz, Batcher, Barr, Black, Berger, Bell, Boggs, Booth, Bulger, Carroll, Case, Dain, Daub, Dunsath, Fleming, Gerner, Gildenreiter, Hare, Houston, Johnson, Jamison, Jones, Keenan, Meyer, Moore, Moorhead, Morgan, Morton, McClaren, McCandless, McManis, McKeever, Nixon, Palmer, Pearson, Penney, Pugh, Quinn, Rees, Rosewater, Ryce, Selfert, Shott, Scott, Verner, Vick, Walden, Walton, Welsh, Weisenberger, Wilson and Tomlinson, President.

Fatal Accident on the Fan Handle Railroad.

Three Men Killed and Several Seriously Injured.

A most terrible railroad disaster occurred a few miles west of this city, at Cook's Run, on the Fan Handle Railroad, between three and four o'clock yesterday morning, by which three men were killed instantly and four were seriously injured, some of them perhaps fatally.

The small train west, (No. 6), consisting of two passenger and one sleeping car, which left the Union Depot at three o'clock yesterday morning, arrived at Cook's Run about half past three o'clock, and had crossed partly over the fill, which at that point is very heavy, when the track gave way and the sleeping car in which were seven passengers, was thrown from the tracks and precipitated over the embankment to the run below, a distance of sixty feet, almost perpendicular.

The car in its descent made several revolutions, and by the time it reached the bottom was literally demolished. Fortunately, the coupling connecting the sleeping car with the coach in front of it broke, when the former was thrown from the track otherwise the entire train might have been thrown over the embankment, the result of which would have been a much greater destruction of human life.

The names of the killed, so far as can be ascertained, are as follows: John Allen, conductor of the sleeping car, McPherson of Springfield, Ohio, and the third is supposed to be Rev. J. G. Archer, of Clearfield, Clearfield county, Pennsylvania. Mr. Henry C. Barnett, from Springfield, Ohio, a brother-in-law of Mr. McPherson, one of the killed, and Mr. John Reulke, a driver from Scrubsville, were also killed.

Mr. Barnett's injuries were of a very serious character and at first his life was despaired of, but he was brought to the Continental Hotel, Mansfield, where he was attended by Dr. McCook, and at last accounts he was recovering and will probably survive.

The other passengers were not seriously injured and proceeded on their journey.

The bodies of John Allen and McPherson were discovered immediately after the disaster and removed to Mansfield, and the Coroner sent for, who repaired thither yesterday afternoon for the purpose of holding an inquest. Shortly before his arrival the third body, supposed to be that of Rev. Mr. Archer, of Clearfield, was found under the wreck in the run below, and was brought to the Coroner to the city. A jury was empaneled and sworn, and after viewing the bodies and the wreck, adjourned to the Coroner's office Saturday, at ten o'clock, A. M., when the matter will be thoroughly investigated.

After the accident the wreck took fire, but fortunately the fire was extinguished very speedily, and the addition of the most fatal horrors on such occasions, was avoided.

As soon as the news of the accident reached Pittsburgh, Mr. J. B. Dorrington, the efficient and energetic Ticket Agent of the company, went with sufficient force to the scene of the occurrence, and did everything in his power to hasten the removal of the wreck, and among the debris, he found several sums of money, some watches and one or two chains which belonged to the passengers. They will be returned to those proving ownership.

Weather.—Messrs. Messers' Affairs giving some items in my article on the weather in the GAZETTE of the 23d of December, the following appears: "This gradual lowering of the temperature in the fall to the middle of December has been generally a prelude to a cold, natural winter, and from the abundance of snow being fixed in the north-east, it is not to be expected that it would be a steady cold. But the indications of the present (lunar) month point to a winter of a different character. From December 12th to January 12th point to eighteen cloudy and variable, eleven snow and rain, and eleven sunshine days, atmospheric conditions, pleasant in winter month, and a moderate amount of snow. These indications are contrary to what we have seen in the past, and in the middle of January the winter will be severe and prolonged, as there is a large amount of snow lying north, and a mild winter is not to be expected.
