THE high rate for exchange had a tendency to advance the price of gold to 157 1/2 with a general disposition to buy, not only for covering former rates, but also for speculation.

IN Railroad shares the market is strong in Rock Island; West. Wayne, New York Central, Erie, Cleveland, Ohio & Mississippi, and all dependencies on Erie are firm, waiting for something to turn up.

THE receipts of Cattle have again been large thus far this week, the arrivals to-day alone reaching about seventy car loads, and with unfavorable advice from the West, and a smaller number of buyers in attendance than usual, the market is a very dull one, and compared with last week's prices is lower.

THE market for Hogs at the date of our last report was a little offish, since the arrival of a drumer feeling has again sprung up, and prices are nearly as high as ever.

THE Sheep market was very dull to-day, caused by increased receipts, and a diminished demand, and compared with the close of last week, prices are from one half to three-fourths of a cent lower.
