Railway shares opened at about closing quotations of last evening and adranced until after first regular board, when the prices halted and subsequently declined. The prominent features have been Rock Island, Ohio & Mississippi, Pittsburgh, Michigan Southern, North Western, and Harlem. The latter has advanced six per cent. since yesterday. Rumors are in circulation that this company contemplate selling their city real estate. There is little doubt that some time in the future a large dividend will be made on these shares. The stock is likely to follow the example of the Central in rising and falling many times be-fore the dividend is declared. This afternoon the general market was feverish and unsettled, on the passage of the rail-road bill in the Illinois House of Representatives, and increased in activity There were full sales of stock, especially in Northwestern and other railway shares, and many weak holders were shaken; but the short interest has been increased quite materially to-day. The market closed with a recovery from the
