WE PRINT on the inside pages of this morning's GAZETTE—Second page: Religious Intelligence and Miscellaneous News.

U. S. BONDS at Frankfort, 50¢.

PETROLEUM at New York, 58¢.

Gold closed yesterday in New York at 154.

The copper-tariff bill from the Senate is brought to a direct vote, it is expected to pass.

AND NOW the Senate declines even to consider the new Dodge bill, for getting the interest upon their railway bonds guaranteed by the Treasury.

CONTRACTS providing for specific payments in coin are quite certain to be legalized at the present session.

The XLIX Congress be credited for at least so much in the way of financial reform.

MR. GALUSHA A. GROW was severely burned yesterday on the Lackawanna and Bloomsburg Railroad, by a train running off the track.

BEFORE MR. JOHNSON retires from office, he will probably extend his Executive pardon to Kump and the other prisoners now under sentence at the Fort.

TWO MOVEMENTS have been projected in New York which will, we are told, result in an establishment for instructing females in type-setting, the other, to a free school of typography for women.

AN ONTO JOURNAL, which is somewhat worried by the recent Act of our Legislature to amend the Act reorganizing the Fort Wayne Railway Company, remarks that "perhaps a Legislature is omnipotent."

IT WAS CHANGED, some time since, that the Alaska appropriation was carried through Congress by corrupt means.

AN ERROR from the President of San Domingo arrived at Washington about two weeks since.

GENERAL GRANT'S SILENCE. Not a few members of Congress are said to complain that General Grant does not consult them or any of their class upon the important matter of selecting heads of the Departments.

Senate such men for Cabinet places as suit his taste and judgment. He is under no more obligation, and there is no more propriety in his advising with members of Congress as to what he shall do in this regard, than there is for members of the House to consult with him as to the selection of a Speaker of that body, or for the Chairman of the Standing Committee to take his advice in designating the Chairman of the House.

General Grant evidently feels competent to perform the duties assigned to him by the people, and means to do so in his own way. Keeping strictly within the proper limits assigned to him by the Constitution in executing his functions, he thereby suggests to persons officially connected with other departments of the government, the propriety of imitating his example.

General Grant owes his election to the Presidency to his personal qualities and public services. He is stronger with the people than the best score of Congressmen that can be named. If he shall accommodate—as it is fair to presume he will—men for Cabinet positions, whom the people will approve, grumbling in Congressional circles will do him no harm.

General Grant owes his election to the Presidency to his personal qualities and public services. He is stronger with the people than the best score of Congressmen that can be named. If he shall accommodate—as it is fair to presume he will—men for Cabinet positions, whom the people will approve, grumbling in Congressional circles will do him no harm.

made immense fortunes, with no cost or risk to themselves. This is what has stimulated the present rash of applications more than anything else. Government has acted unwisely, and cannot stop on a moment's notice.

All needed public improvements will come, in due season, without the interposition of national help. The whole content will be checked with railroads, and at no distant period, whether government aid is given or withheld. At all events, we are fully in the faith that if a railway will not pay, on the basis of legitimate business, it had better go unbuilt.

This granting of subsidies is corrupting Congress so that the people are rapidly losing confidence in it. A stipulation, if nothing stronger, widely prevails that Senators and Representatives do not, in the present condition of the national finances, vote untold millions out of the Treasury, and into the coffers and pockets, without taking care to save their own consciences, with pecuniary gratification. In this, injustice may be done to the taxpayers, but we do not see that they have any remedy but in taking the hint as to popular opinion, and conforming their official action to the public demand.

The Erie clique, beaten at Columbus and Harrisburg, and driven back upon the Lake's shore, and every lovingly as Cleveland and "Banxer" will win! The Herald of yesterday says: The difference between the rival parties in the management of the Cleveland and Pittsburgh Railroad have been amicably adjusted.

The question of laying additional rails along the Erie route is a subject of agreement, as that question was covered by the arrangement in regard to Directors. The new board will, as a matter of course, lay the broad gauge rails from Newburg to the Union Depot, provided arrangements are made for entering the line.

We understand that Mr. Jay Gould, on behalf of the Erie Company, has recommended the adoption of a proper compensation for the privilege, and the lines now occupying the depot are willing to admit the Erie Company on the payment of a fair compensation. This is fair to all parties.

The same journal adds that "it is not yet an assured fact that the present Director of the Fort Wayne Company are unwilling to make terms with the Erie and allow the trains of the latter to run from Mansfield to Chicago over the Fort Wayne line."

In pursuance of the call of the Chairman, the Union Republican State Central Committee assembled at the Lochel Hotel, Harrisburg, on Thursday, the 4th day of February, 1899, there being a very large attendance of its members.

Resolved, That the next Union Republican State Convention shall be held in the city of Philadelphia on Wednesday, the 28th day of August, 1899, for the purpose of nominating a candidate for Governor and Judge of the Supreme Court.

Resolved, That this Committee earnestly recommend the adoption of a proper metropolitan police bill, and request the Republican members of the Legislature to give the measure an earnest and vigorous support.

Resolved, That we do sincerely desire that all persons occupying an official position shall have a due respect for the same and in their actions, believing that the future success of our party depends largely upon the strict observance of that rule.

Classification of Railway Directors. A supplement to an act, entitled an act to provide for the reorganization of the Pittsburgh, Fort Wayne & Chicago Railroad Company, approved March 1st, A. D. 1893, and is hereby adopted by the board of directors.

The Alabama treaty may be reported on at this session, but it is not probable that any action will be taken. The Senate will amend the House Congressional Amendment Bill, but it is thought that the changes will not be of a radical character.

The lower branch of the Maine Legislature yesterday, by a majority of four, refused to pass an act allowing parties to fix a rate of interest they might agree upon as a legal one.

Consolidation of Army Bureaus. Secretary Schofield, before the House Military Committee, was decidedly in favor of making one bureau of the Quartermaster's, Commissary and Pay Departments, another of Ordnance and Artillery, and a third of Engineering and Surveying.

On Friday evening, as on Thursday, the dinner who joined in the festivities was about four hundred. It was a beautiful sight to behold so many of the most respectable citizens, men, women and children, in holiday dress all with pleased countenances, happy in the hour of delightful reunion, happy in the ample and varied repast, happy in the presence of the laudable object in hand, and especially happy in the success achieved by the ladies in gathering the means to accomplish that object.

The death of Skinner, was hung at noon of the 4th. He came upon the scaffold without emotion, neatly dressed. The sheriff asked if he had anything to say. He replied no, and he said that he would be happy to promote the laudable object in hand, and especially happy in the success achieved by the ladies in gathering the means to accomplish that object.

The New York Assembly, yesterday, a bill was introduced for the purpose of authorizing the State to take charge of the proposed change of the eastern boundary of New York City above Fort Lee street.

United States District Court—Judge McCandless. FRIDAY, February 5.—The case of N. Holmes & Sons vs. James Robb, an issue in involuntary bankruptcy, which was on trial for some days, was concluded.

Disorderly Passengers. Conductor McCloy, of car No. 44 Troy Hill branch Manchester Passenger Railway, made information before Mayor Drum yesterday morning against Wilson Waiter and John Gill for disorderly conduct.

THE INCREMENT SEASON. AND ITS EFFECTS ON THE WEAK AND THE DRAFTS WHICH SEARCHING COLD MAKES UPON THE VITAL POWERS OF THE DEBILITATED AND DELICATE ARE NOT LESS SEVERE THAN THE DRAIN UPON THEIR STRENGTH BY EXCESSIVE HEAT.

THE SOUND OF THE BELLS. One of the most accurate ways of determining whether the lungs are healthy or diseased consists in means of detecting the voice of the most intimate vocalizations.
