AMUSCHEN IS MRS. SIDDONS AT THE ACADEMY.

Last evening, at the Academy of Music, the spontaneous voice of an audience, lando Reese, Louis Meyer, Frederick which comprehended nearly all that is intellectual and highly cultured among the populations of these cities, awarded to Mrs. Scott-Siddons' reading for the Young Mens' Library Association, the very highest tribute of its appreciative admiration.

For the woman who, without the advantitious aids of the dramatic stage, its costumes, scenery, music, varied actions and numerous personnel could stand before a critical acl. could stand before a critical audience—dressed as the was for the drawing room, and relying upon no other help than the gitts given to her of her birth-right—and could bring the hearts of so many hundreds of men and women captive to the power of her genius, is infinitely beyond the mere actress, no matter how accomplished. She reigned in the empire of heart and brain with the far loftier royalty which is imreigned in the empire of neart and brain with the far lofter royality which is imparted only to the purest and the best.

We forbear any extended or minute criticism of these readings. > The gems of the evening—If we may venture upon an invidious distinction, where everything was of the highest order of merit,—were the renderings from Macbeth and the May Queen. dred grief.

We bespeak for the readings to night a crowded house, and this not because we would compliment the reader, nor even because we wish well to the treasury of the Association, but rather because we would not have one among our friends to lose an entertainment, which seen will be appreciated and held to be incomparably superior to anything of its kind

PITTSBURGH THEATRE.—The Gregory combination troupe, which a few weeks since played a very successful engagement in this city; have returned, and are now holding forth at the Pittsburgh Theatre. They opened last night to a full house, and will doubtless continue to house, and will doubtless continue to draw full houses during the short time they will be here. Their engagement is

for one week only.

> A Mystery. One of the greatest mysteries of the age is the workings of the New Eng. age is the workings of the New England Jewelry Company. The fact is generally known that it has been conducting business on the one price system for a number of years, and apparently with great success, and to the general satisfaction of its patrons. It is well known that for twenty-five cents any article in their establishment is sold, many of which cannot be purchased at other houses for twenty-five dollars; yet how they can afford to do business in this manner is a mystery which we do not explain. Messrs. J. R. Difficulty About House Rent. Adam Berry made information yesterday before Alderman Humbert against Wm. Keller for false pretence. The information is the result of a difficulty in regard to the payment of the rent of a house, 303 Robinson street, Allegheny. Berry alleges that Keller rented him the premises at a rental of twenty dollars per month, and represented that he owned month's rent was paid the house. Alleged False Pretence. William Coleman alleges that William Porter obtained a wagon on credit from him valued at one hundred and five dollars, by representing that he was employed at the Poor Farm, and had money due him from the Superintendent to the amount of two hundred dollars, which he would receive in a day or two and pay for the vehicle. Having by these statements obtained possession of the wagon, Coleman further alleges that Porter, in an hour or two afterwards sold it to a countryman for eighty dollars, and pocketed the cash. Learning of the transaction Coleman states, he made inquiries, and discovered Porter's statements to be false, he having never worked at the Poor Farm and having no money due him from the Superinten dent. Alderman McMasters issued warrant for the arrest of Porter, who re sides in East Liberty. Coleman resides n Brownstown.

GENUINE

GLYCERINE TOILET SOAP,

GLYCERINE TOILET SOAP,

Mannfactured by PETER SQUIRE, 227 Oxford street, London
This boap has been, by a peculiar process, freed from the excess of sikali almost invariably found even in the phree-loops, and at the same time it is made the tale up a large quantity of Glycerine (40 per cent i. It is to this latter substance that it chieft owes its scothing quality—softening the skin, preserving the complexity—softening the skin, preserving the complexity—softening the skin, preserving the commercian, preventing chappine and the unpleasant roughness experienced in cold weather. It is found most useful in alleviating the irritation produced by dryness of the skin.
An account of its great purity it recommends the first of the common soaps: for delicate skins it is the entry soap that can be tolerated. It is particularly useful for cleaning diseased skins where the irritation produced by ordivary soaps causes so much inconvenience.

It is the most agreeable shaving soan that can be used, leaving the face soft and comfortable.
The soaps assually soid as Glycerine. Soaps contein little or no Glycerine. It is only necessary to apply the tangue to the surface, a 'd the gen une will be distinguished from the spurious by the sweet taste. AGENT,
