The city of Chicago has already laid some forty miles of pipes, some of which are of the largest calibre; but owing to the rapid growth of the city, they now contemplate laying nearly as much more, as they are determined to supply the whole city with that essential and necessary wholesome beverage, pure water, no matter at what cost. water, no matter at what cost.

Would it not be well for our city authorities to look at our water supply through a "Chicago telescope," and as they have now began the good work use this instrument freely and extend to the newly consolidated districts all the advantages the old city has been so long

enjoying. The last season has been one of the buliest that our city has seen for years, in our various improvements, and the man-ner the authorities have treated, and propose extending the various city facilities to our new districts, has shown them to our new districts, has shown them that it was greatly to their benefit to be-come part of this great city; and this lib-erality has produced quite a change of eranty has produced quite a change of sentiment among the citizens of our neighboring city and boroughs, to such an extent that they are now anxious and seeking to be consolidated with us.

To the Clergy and Laity of the Diocese of Pittsburgh. As it has been stated in printed cir culars that the General Convention in October last authorized the use of Hymns, butchers of Allegheny city, simultane-ously disappeared from their places of the Church, I hereby give notice that such a statement is entirely erroneous. The Bishop of each Diocese was authorized to license the whole or a part of that and of the book "Hymns for Church and Home," at his discretion, for use in the services of the Church in his own Diocese. No such license has as yet been issued in this Diocese, but it is my purpose soon to send the proper notice and license on this subject to the clergy and congregations of the Diocese. The Hymns in the Prayer Book and the "Additional Hymns," are the only ones at present authorized for use in public translation. J. B. KERFOOT,
