PITTSBURGH METAL MARKET.

OFFICE OF PITTSBURGH GAZETTE,

FRIDAY, February 12, 1868. The market, if we take the views of the brokers, is in an unsettled condition, with but comparatively little doing. Some of the commission men reported the market dull and weak, with a drooping tendency; while others reported it steady, with no great accumulation of stock, and that prices were firm and fully sustained. It was generally conrather unfavorable.

Financial Matters in New York.

Gold Closed at 135@135%. (By Telegraph to the Pittsburgh Gazette.) NEW YORK, February 12, 1869.

MONEY. Money is abundant and easy at 5@7 per cent. on call. The spring trade is constantly increasing and business is 25 to 50 per cent. greater than last year. The principal purchasers are for the South, who take a large amount of goods, paying cash for a considerable portion thereof. The West is not buying freely, and, the Express says, is behind in her payments. Sterling heavy and lower at 9@91/c. Gold was steady most of the day, closing a trifle easier; it opened at 135%, touched 135%, and closed at 135 8**, 2**07,**0**00,0

BONDS AND STOCKS. Governments are active and higher under the prices from abroad, and the firmness of London and Frankfort shows an improving confidence in our secur ties, and a further advance is predicted here. The advance to-day of 3 @1 per cent. being most marked on old 65's, the demand was heavy for shipment and home investment. Foreign bankers took 3 or 4,000,000 of 62's, 65's, 67's and Ten-Forties. The demand for borrow-Ten-Forties. The demand for borrowing is heavy. Coupons of 1881, 1114; do. '62, 1144,@1144; do. '64, 1114,@1114; do. '65, 1134,@1134; new do., 1104,@1104; do. RIVER NEWS.

The river was apparently about at a stand last evening with nine feet six inches in the channel, by the Monongahela marks. Weather yesterday was clear and pleasant, with a sharp white frost in the morning, which at this sea-son of the year, is regarded as a precursor. of rain. Mercury at four P. M. 60.

Business was moderately active at the landing vesterday, the offerings of freight being fair, but under the influence of a sharp competition, prices are ow, and there is not much show for a boat to realize much, even if she does secure a full cargo.

// Boats in port—Glendale, Grey Eagle, Kate Putnam, Lorena, Maggie Hays, Wanadita, Sallie, New York, Wild Duck and Armadillo. The Wild Duck Barges, Capt. Anawait, are announced to leave for St. Louis to-day, and shippers should bear this in mind.

mind.
The Grey Eagle, Captain C.P.L. Brennan, is the regular packet for Parkersburg to day, leaving at noon.
The Glendale, Capt. Hare, is filling up steadily for St. Louis, and will leave to-day without fail, and passengers and shippers should bear this in mind. The veteran Capt. Jas. Mellon still retains charge of the office.
The Kate Putnam, Capt. G. W. Reed,

will depart for Nashville at an early day next week. The Kenton was due from Portsmouth last evening, and will return again this

Washington City, to wit: That it shall not be permitted when making storage on steamers for any person to obstruct the full and free pa of the engineer from his engines to his boilers, or to any part of the machinery requiring his care and attention. An observance of this rule is required to be strictly enforced, and any failure on the part of the owners or masters to comply with such regulation will be sufficient cause to find action against the steamer so offending. Engineers upon our South-ern and Western waters will, we have no doubt, fully appreciate and acknowledge the merits of such enactment. As general rule, their interests and comforts have been very little respected, es-pecially on the class of steamers engaged n the transit of baled cotton and light

-A Lousville telegram to the Cincinnati Commercial says: The Richmond is due from New Orleans. Napoleon Jenk-ins, the pilot of the America, is in city. The grand jury United States Court is in sess but, as vet, no indictment has been found against any of the officers of the America or United States, and it is not known whether any witnesses will be brought before the jury or not. To-mor row the case of Rev. Father Bachman who was blown up on the General Lytle, for damages against Z. M. Sherley and others, will be commenced.

-Mr. Josiah Cammity, (says the Cincinnati Enquirer) first engineer on the steamer Alaska, has, perhaps, been engaged as engineer on the river for a longer period than any now in commission, having entered the service in 1834 in that capacity, since which time no accident has occurred to engines in his charge. His statements in regard to the changes in steamboating and the "set-tlements" on the river, gives us a fair idea of the great progress since that

-The steamer Mary Byrd, recently sunk near the Half-Moon Island, Ten nessee River, arrived in port at Chat-tanooga, Thursday evening. The dam-age done to her hull can be repaired in a few days. Her bow was stoved in and she settled to the bottom in six minutes afterward. She was raised by building a confierdam across her bow just in front of the stairway, and bailing her hull aft the dam. Her cargo was but slightly dámaged.

-The Glasgow and Emperor were ad vertised to leave Cincinnati for Pitts-burgh on Thursday. River and Weather.

Louisyille, February 12.—River rising, with eight feet nine inches of water in canal. Weather clear and warm.
