U. S. BONDS at Frankfurt, 83. PETROLEUM at Antwerp, 53 3/4 @ 59. GOLD closed in New York yesterday at 135 1/2.

TENNESSEE has fixed the fire-test of illuminating oils at 120 degrees, with \$500 fine for the offense of selling oils below that grade.

THOSE friends of aspiring politicians who have been industrious in intimating that their favorites "have been invited" by General Grant to enter the Cabinet, are in rather a tight place, since the declarations of the President-elect last Saturday. They will not indulge in any more "intimations" at present.

THE Legislative proposition to turn all the legal advertising in this country into the columns of an obscure print which ninety-five per cent. of our taxpayers have never heard of, finds but little favor at Harrisburg.

THE SUFFRAGE amendment, and all other important legislation in which the concurrence of Mr. JOHNSON is not expected, must be matured before the close of the current week.

THE PRES CORRESPONDENTS at the Capital really wield a most potent influence, giving tone to the journalism of the country, and a positive bias to public opinion.

TARIFFS AND NATIONAL PROSPERITY—CAREY ON WELLES.

An elaborate Report, from Commissioner WELLES, upon the subject of tariffs and revenue, was recently laid before Congress, and has been generally submitted to public opinion.

THE SENATE NATURALIZATION BILL, reported from its Judiciary Committee on Saturday, requires the declaration of intention and oath to be made before a Federal Court, or a Commissioner of Bankruptcy, who is to be charged also

with the function; all State tribunals are excluded. Application for final papers must be preceded by one month's notice of the intention, this notice specifying the particulars concerning the previous declaration of intention.

THE Commissioner, having undertaken to combat the general opinion that tariff-legislation heretofore has had a direct influence, favorable or unfavorable, upon the general prosperity of our people, attempted to support his position by citations, as of fact, from the actual history of the country, especially controverting the idea that, as the tariff of 1842 had been beneficial, so that of 1846 had been pernicious to the popular interests.

There can be no doubt that the proposed act, of which the above is a synopsis, is thorough in its provisions for the protection of honest citizens, native or foreign-born, against the invidious practices which, of late years, have brought such merited odium upon the present system.

UNFORTUNATELY, in this ugly business from Georgia, General BUTLER was so careless as to lose his temper, saying some things which overleaped the cooler judgment of that majority of the House which, there are good reasons for believing, concurs with him in opinion upon the merits of the case.

For once, we think Ben. Butler was decidedly in the right. Georgia has not complied with the provisions of the Reconstruction acts, and therefore is not entitled to recognition or representation.

Says the Utica Herald: This concurrent resolution (Edmunds) is one of the silliest things which any body of men ever attempted to shirk responsibility.

And, while Republican journals see nothing in this business beyond the duty of abusing BUTLER in the roughest terms, the old rebel element is carefully improving the situation which Congress has prepared for them.

Novel Oil Refinery. The Berkshire, Massachusetts, Eagle, publishes what purports to be a letter from Cincinnati, narrating a most astounding discovery. It seems that a man, according to the story, upset a kerosene lantern into his meal bin.

THE Commissioner, having undertaken to combat the general opinion that tariff-legislation heretofore has had a direct influence, favorable or unfavorable, upon the general prosperity of our people, attempted to support his position by citations, as of fact, from the actual history of the country, especially controverting the idea that, as the tariff of 1842 had been beneficial, so that of 1846 had been pernicious to the popular interests.

There can be no doubt that the proposed act, of which the above is a synopsis, is thorough in its provisions for the protection of honest citizens, native or foreign-born, against the invidious practices which, of late years, have brought such merited odium upon the present system.

UNFORTUNATELY, in this ugly business from Georgia, General BUTLER was so careless as to lose his temper, saying some things which overleaped the cooler judgment of that majority of the House which, there are good reasons for believing, concurs with him in opinion upon the merits of the case.
