CLIPPINGS.

SCIENTIFIC men in France and Germany think the recent convulsions of the earth indicate the ultimate formation of a new continent.

THERE is not in the present House of Lords a single descendant of one of the twenty-five barons appointed to enforce the observance of Magna Charta.

CLARA LOUISE KELLOGG, it seems, has CLARA LOUISE KELLOGG, it seems, has not a high appreciation of Cleveland musical talent. While the audience in that city was tiring out in an excessive encore, the other evening, she exclaimed, in the dressing room. ["What shalf I the dressing room.] sing ? guesss I'll give 'em 'Sweet Home;' they can't appreciate anything higher." She sang the same song in Cincinnatiperhaps for the same reason.

SHEEP .- The wholesale butchery of sheep last autumn, so general throughout the State of Ohio, is already beginning to manifest its legitimate result. Sheep, which three months ago could scarcely find sale at from fifty to seventy-five cents per head, are now in demand at prices varying from one and a half to three dollars, and without doubt prices will continue to advance with the opening of Spring.

THE PRESS OF THE UNITED STATES .---your necessary su A recent statistical publication says that in the United States there are 542 daily papers, 4,425 weekly, and 277 monthly— total 5,244. The number of printing offices exceeds 6,000. In addition there are 56 tri-weekly papers, 64 semi-weekly, 46 semi-monthly publications, 297 month-ly, 4 bi-monthly, and 24 quarterly, mak-ing the total number of all American publications 5,734. or of newspapers proper, leave him, and a total of 5,353.

POPPIES.-It is reported that the cultivation of the poppy plant will be intro-duced into Louisiana. A French gentle-man at Natchitoches, it is stated, has announced his intention of planting in the spring of 1869, several acres of poppies, and of manufacturing opium. It is as-serted that an acre of poppies will make fifty pounds of opium, worth fifteen to twenty dollars a pound, at a cost of less than four dollars a pound for manufacturing, and that one man can cultivate three acres.

THE Italian Government, it is said, now proposes to adopt a new attitude with respect to Rome, and to ignore, as far as possible, the existence of both the city and the Pope, which governs it. The Vatican has wind of the intention, and is much annoyed in anticipation. All attempts to arrange friendly terms will henceforward be abandoned as utterly useless, on account of the dogged immo-bility of the Papal counselors. The Italian government will try to do without ie in every way, and to await events.

Novel Incendiarism. port "Fire-Bug." From the Boston Advertiser, Feb. 4.) By this entomological name the citizens of Newburyport are wont to speak of the incendiary who for the past two

JAMES D. KELLY, ADMINISTRATOR. fe9:e16-T

A SSIGNEE'S NOTICE OF AP-A SSIGNEE'S NOTICE OF AP-POINTMENT. WESTERN DISTRICT OF PENNSYLVANIA, 85 At Pittsburgh, the 8th day of February, A. D. 1869

OUT DOOR RELIEF.—The number of patients in New York city who applied in 1868 to the Bureau of Out-door Sick, established in 1845 for the benefit of such persons as do not require constant medical attendance, amounted to 9,650 persons, to whom 36,468 prescriptions were furnished. In this Bureau the diseases are classified, and physicians assigned to each class. The more prominent diseases treated are those affecting the eye and ear, the chest, the digestive organs and the skin.

THE ALABAMA .- Mr. Graves, M. P. for Liverpool, said, in a speech in that city on Friday, that the treaty negotiated with the American Minister for the settlement of the Alabama claims was sure to be ratified by the United States Senate. He said the American claims were made with a digrity and maintained a forbearance that were fully appreciated by England. She had in consequence met the advances of the United States more than halt way, and receded from principles which had been regarded as fundamental to the British Constitution.

THE eminent surgeon, Sir James Simpson, has lately called attention to the fact that the walls of hospitals-brick, stone and plaster-become in time to infiltrated with the emanations of disease as. to be dangerous to patients; and he gives figures to show that with the best skill and care of the great hospitals, three times as many patients die of operations, as if they were attended at their homes. even where these would seem less salubrious. It is not a question of size or ventilation, for a new hospital is healthy; but in spite of all efforts at cleanliness, the building itself becomes diseased.

CORNELL UNIVERSITY.—The Trustees of this educational institution, now in session in Albany, report that the re-sources of the University amount to \$76.744 per annum, and that the expensources of the physical data the expen-\$76,744 par annum, and that the expen-ses for the professorships reach the sum of of combustion, have been placed in the office of Mr. Fritz, the City Marshal; and ses for the professorships reach the sum of and many more applied for admission. The library, it is reported, will receive large additions, and the British Government has promised to send out its official publications.

THE Mont Cenis tunnel is advancing rapidly. A few more months and the railway lines of France and Italy will unite beneath a mountain 5,300 feet high. It is slow work, as the tunnel has to be pierced through extremely hard greenishgray sandstone mixed with quartz; 4,300 feet were hollowed out last year. tunnel is to be 39,700 feet in length; 29,-800 feet of the work are already com-plete; the remaining 9,900 feet will take about twenty-seven or twenty-eight months to accomplish; so that by March or April, 1871, this stupendous work will probably be done.

A TABLE has recently been published. giving some interesting statistics of the New York theatres, which afford employment, as it appears, to 1,895 actors, actresses and other employees. This, however, does not represent the actual number of persons who earn their support by ministering to the public taste for. various concerts and other musical entertable gives the average daily attendance at the theatres as 23,360, and the average daily receipts at \$14,638. These figures can only he regarded as approximations to the truth, and in some cases represent not the attendance at a particular theatre, but its seating capacity. Making allowance, however, for the concert-goers, who prosperous .- N. Y. Tribune.

of the incendiary who for the past two years or more has disturbed their peace and eluded all attempts to detect him. His activity during the present winter has been greater than ever, but the dam-age which he has occasioned has not thus for corresponded with the frequency and age which he has occasioned has not thus far corresponded with the frequency and persistency of his attempts to do mis-chief. By timely discovery, many of the fires which he hasset have been speedily extinguished, in just the nick of time to prevent disastrous conflagratione. But a fear prevails that the city will not always be so fortunate, and that if the "fire-bug" is not arrested in his villnipy, ths city will ere long be visited by a ca-lamity as disastrous as that which fell **55** AND **57** FIFTH AVENUE. Messrs. H. B. SMITHSON & CO., proprietors of the well known Mammoth Auction House are creating an excitement consequent upon the ar-rival of new goods which are being sold at re-rival on new goods which are being sold at re-nival on the area to the sold at the markably low prices. Goods ofervery variety; the unest sewed boots, the mbst. fashionable bal-tioral galters and ankite Aution. So trouble to show geods. Ladler', misses and children's fanted as represented. BY A. LEGGATE.

lamity as disastrous as that which fell AT AUCTION. upon it in 1811. The method employed by the incen-The method employed by the incen-diary is at once novel and ingenious. His kindling apparatus consists of a wooden box, about four inches square and fifteen inches long, with covered top and bottom, lined at the top and sides with tin, and having on one side near WAREHOUSES.

South Canal Street, Allegheny, ON LINE OF W. P. B. B. with tin, and having on one side, near the bottom, a hole for the tire to issue from- In this box a candle is placed, There will be sold at Anction, THURSDAY,

February 18, at 2 o'clock F. M. that valuable business property, Nos. 116 and 117 SOUTH CANAL STREET, corner of Walnut street, surrounded at the bottom with combus tible materials, saturated with inflam-mable oil. When the candle has burned Fourth ward, Allegheny Litr. The lot is 50 feet front on South Canal street and 121 feet on o low that these materials are ignited,

so low that these materials are ignited, the flame issues from the aperture in the box, and comes in contact with the wood-work of the building, which has previously been saturated with oil. Generally, the box is placed against the outside of the building intended to be destroyed, but when access is easily ob-tained, it is placed upon the inside. It is Walnut street. The building is a substantial brick, formerly the Fourth Ward Public School, brick, formerif the Fourin ward rubic School, converted into three spacions warehouses, with dwilling, carriage house, stabiling, and all appli-ances for conducting Produce, Grocery, Com-mission. Forwarding or similar tusiness. Can be easily applied to manufacturing purposes. be easily applied to manufacturing purposes. Being on the line of the Western Pennsylvania Railroad, and uear to the Chestnut Street Sta tained, it is placed upon the inside. It is tained, it is placed upon the inside. It is supposed that the incendiary comes forth with his box at about six o'clock in the evening, when the factory operatives are going to their homes and he can pass most easily without observation, and the time required for his infernal machine to take effect varies with the condition of the atmosphere, the direction of the wind or some other circumstance whose tion, adds to the value of the position for many purposes. A careful inspect on of the premises and surrounding alvantages is respectfully colicited. A very lucrative investment may be made in this property. For terms and particu. lars, call on . LEGGATE, Auctioneer, wind or some other circumstance whose fe 12

effect he cannot always closely calculate A T AUCTION. ÎÔT

ses for the professorships reach the sum of \$38,000. The endowments amount to \$105,000, and \$171,000 will be required to place the institution in complete work-ing order. The students number 368, and many more applied for admission. tion shows that they are the work of a practiced hand. The acts and motives of the incendiary

afford abundant food for speculation; and there are not a few wisecares who are con-fident of their ability to solve the mystery by pointing out the culprit. Some assert that the mischief is caused by some member of the fire department; others declare that it is the work of some carpenter who desires to keep his line of business active; while others are equally confident that some member of the willow force. the police force uses the advantages which his position offers to carry on the fe15 nefarious work. Stories are rife of mys torious persons seen in suspicious places and of men found wandering at nigh and of men found wandering at night in womon's clothing. Planchette has been consulted, and has made revela-tions as conflicting of the node revela-

been consulted, and has made revea-tions as conflicting as they are extraor-dinary. One appeal to the "spirite" elicited a reply that the fires are the work of young Clark, who was hanged at Salem in 1821, for arson committed in Newburyport. Self-appointed detec-Newburyport. Self-appointed detec-tives have tried their skill in watching for the incendiary, and in some in-stances have found themselves under surveillance of the regular police; while many ludicrous incidents have arisen from the authorized and unauthorized ement; as no account is taken of the from the authorized and unanthorized efforts for his discovery. A person seen after dark, with a bundle under his arm intervals in different halls, and the num-ber of which averages three or four a week all through the winter. The same pelled to submit to a great deal of sharp criticism for their failure to discover the eriticism for their failure to discover the criminal, and are even charged with ne-glect to take the proper steps to that end. As wo are not writing for the ben-efit of the "fire-bug," we shall not state the means now employed for his detec-tion; but we are able to say that such vicer and skill are enlisted for that purvigor and skill are enlisted for that purare not set down at all, the totals are probably very near the truth. Most of our theatres this winter are unusually necessaries $-N \neq Tribune$

WASTE OF

HYDRANT WATER. The undersigned deems it his duty to inform

consumers of Hydrant Water in the city of Pittsburgh that extensive and highly important changes in the machinery at the Lower Water Works will require, for the present, careful use and strict prevention of the waste of water. Railroad companies and other large consumers must use strict economy in use of water for all purposes, and the use of all street washers and fire plugs, except in case of fire, must be sus-

pended unt!l further notice. JOSEPH FRENCH,

Superintendent Water Works. NOTICE.-The Office of the PITTSBURGH WHITE LEAD AND COLOR WORKS has this day been REMOVED fiom No. 67 Fourth Avenue, Pittsburgh,
