The Pittsburgh Gazette FINANCE AND TRADE.

OFFICE OF PITTSBURGH GAZET TE, THURSDAY, February 18, 1869. for American securities from Europe, and shipments continue to be made on a large scale. The locking up process, which was commenced early yesterday, and the severe attack of the market in either gold, bonds or stocks by a powerful hear clique, with headquarters at dull and languid, with a demand con-washington, has caused a partial decline fined mainly to supplying immediate here of bonds, averaging about 1% per cent.; but the markets of Europe being well sustained, the price advanced this afternoon, and closed with considerable firmness. A release of the funds now locked up, will create a new excitement to buy, and in fact the large short sales made within the last two days have to

be covered at any price, since bonds are quite scarce for delivery and as high as 1-32 of one per cent. per dlem has been paid for borrowing the 1867s. Gold is dull, and closed about one per cent lower from last night's quotation. The market was sustained only by the efforts of the bull clique in stocks, who

had locked up a large amount to make gold scarce for delivery, but failed in their attempt. Stocks recovered already last night from their lowest quotation, and to-day there was a general rise of at least one per cent. The Erie clique stocks which had suffered most, reacted quickly to-day and were buoyant at the close with

PETROLEUM MARKET. OFFICE OF PITTSHURGE GAZETTE,

THUR DAY, Feb. 18, 1869. The market was in a topsy-turvy con dition to-day, and while there was considerable excitement, manifested, there was no business effected, and the brokers generally reported, that there was no chance to do anything. . Both buyers and sellers appear very sensitive about making fresh contracts, feeling disposed to hold off and await further developments and take the chances. It was ru-morel that considerable excitement prevailed at Oil City to-day, in consequence of some heavy: purchases by New Yorkers—supposed, by some, to be a "bull" movement. It is said to be the policy of movement. It is said to be the policy of the "bull ring," whenever any signs of weakness are apparent, to buy—not that they want the oil, but in order to keep the market steady, and provent a reaction, and this is supposed to be the object in buying in the oil regions to-day. We'do not say that this is a fact, but give it as the surmises of some of our dealers, without vouching for its correctness. The Allegheny River continues ness. The Allegheny River continues in fine navigable condition, and it is estimated that between fifty and sixty thousand barrels will reach herb, in bulk heats within the next for darks. bulk boats, within the next few days.

CRUDE. The market was excited and unsettled The market was excited and unsettled to-day, though not a single sale reported, and buyers and sellers were wide apart. Spot may be quoted nominally at 17 to 17½c, next six months, seller 16½, all year seller 15½ to 16; and March 17½. As already intimated, it is expected that between 50,000 and 60,000 bbls will reach here on present rise. here on present rise. REFINED.

There were but two sales reported to-day, 1500 each March to June at 38, and 1,000 for February at 38%. The market,

compared with yesterday, has undergone but litte change as regards to prices, but there was a sensitiveness manifested which did not prevail to the same extent on Wednesdey. It will be reced that on Wednesday. It will be noted that the shipments seast have been increased slightly within the past few days.

PITTSBURGH MARKETS.

OFFICE OF PITTSBURGH GAZETTE, THURSDAY, Fébruary 18, 1868. Trade in general merchandise continues rather dull, though the time is now near at hand, when, an improvement may be looked for. With the exception of Groceries, however, there is no excitement, a light demand, and no material change in values. Sugars are still excited also Molasses and Syrups, and holders generally are not disposed to sell, preferring rather to hold in anticipation of a still further advance. There has been a grand speculation in "Sweets" within the past week, and those of our dealers There is no abatement in the demand who were fortunate enough to hold big stocks prior to the advance, can now, if so disposed, realize a very handsome profit.
