ALLEGHENY VALLEY RAILROAD.

Sixteenth Annual Meeting of the Stockholders—Report of the President and Board of Directors—Election of Directors.

The seventh annual meeting of the stockholders of the Allegheny Valley Railroad Company was held yesterday morning at the office of the company, on Pike street.

The meeting was called to order by F. R. Brunot, Esq., upon whose motion Henry Whelen, Esq., of Philadelphia, was called upon to preside, and Mr. Jacob Glosser appointed Secretary.

The report of the President, Colonel Wm. Phillips, and the Board of Directors, was then read, as follows:

ANNUAL REPORT.

In accordance with the requirements of the charter, the President and Managers present the sixteenth annual report to the stockholders of the Allegheny Valley Railroad Company, together with the reports from the Superintendent, Chief Engineer, Treasurer and Auditor, showing in detail the operations of their respective departments.

A condensed statement of the receipts and expenditures for the year is as follows:

EARNINGS.

From freights	$668,662 75
From passengers	253,057 16
From express	7,550 00
From mail	6,585 00
From miscellaneous	550 30
Total	$946,405 34

EXPENSES.

Conducting transportation	$133,015 47
Motive power	147,710 09
Maintenance of cars	37,016 61
Maintenance of way	163,655 39
General expenses	18,100 55
Total expenses	$499,498 22
Total net earnings	$446,907 02

During the year 1867 the gross receipts of the road amounted to $487,240.28, but, owing to the varying circumstances of the road, as regards length, no useful comparison can be made with these figures the present year. In view of the fact that your road was only opened for through traffic in time to begin the fiscal year just closed, and that its business, for many months, was subject to the many inconveniences and drawbacks incident to a new road, we have reason to congratulate the stockholders upon the result. The receipts for the first six months of the year averaged $67,674 per month. Receipts for the second half of the year averaged $90,059 per month. The expenses for the first six months averaged $38,669, and for the second six months, $44,680. Increase of gross receipts, 33 per cent.; increase of expenses, 15 8-10 per cent.; percentage of earnings in first six months, 57 per cent.; for last six months, 49 6-10 per cent.

The year's business proves conclusively that your road can never fail to produce ample net revenue to meet the interest upon its bonded debt, and to have a handsome surplus for the interest on and liquidation of the floating debt, the improvement of the road, and eventually for dividends.

The cost of managing and operating the road was fifty-two per cent. of the gross receipts. The earnings per mile of the road were $7,224 47; expenses per mile, $3,812 96; net earnings per mile, $3,411 51. The number of barrels of crude petroleum carried was 564,667; of refined, 595,577; number of tons of coal carried south, 208,992; northward, 20,837 tons. Further interesting details in regard to the operations and traffic of the road, are given in the accompanying reports.

The road-bed and track are in excellent order, nearly all of the old iron having been replaced by new of the best make. The track is fully ballasted and surfaced up to the grade, and the engineer pronounces your road to be equal to the best roads in the country, "both for smoothness and solidity; also, for general safety." The rolling stock is in good condition, and generally sufficient for the present business of the Company. The rapid increase of coal, lumber, stone and iron traffic, will require a considerable addition to the number of gondola cars.

The cost of the road is represented by

Capital Stock	$2,241,250
Bonded Debt	4,000,000
Floating Debt, not provided for	1,801,543
Total	$8,042,793

For which you have 131 miles of first-class single track railway, with the necessary side tracks, etc., and equipments for a business of $1,500,000 per annum. This is equal to a cost of $61,000 per mile, and in view of the fact that the forty-four miles of road between Pittsburgh and Kittanning have been entirely relaid with new iron and ties, and have been ballasted and otherwise improved, making the road almost equivalent to rebuilding, this cost will be found to compare not unfavorably with that of similar enterprises which have been prosecuted during the same period of high prices and inflated currency.

Your Board of Managers estimate the gross receipts of the road for the coming year at $1,500,000. The experience of the past year goes to show that the expenses will not be over fifty per cent of the gross receipts, which will leave us, over and above expenses, $750,000. Deducting from this sum the interest on $4,000,000 of bonded debt, $292,000, we will have the sum of $448,000, for the interest and reduction of the floating debt.

At the last annual meeting the stockholders directed the early prosecution of the work of extending the line of the road from the Allegheny river at the mouth of the Mahoning to the Susquehanna. The surveys had already far progressed, and as soon as possible a location was made, and the work begun at several important points, to prepare the road bed. Notwithstanding the prior right of this Company to the location, both by the charter and the surveys of its engineers, the contractor found his ground disputed by working parties claiming to act under the direction of the Philadelphia and Erie Railroad Company. Other points on the line were also claimed by the Winslow Collier Company. It is not believed that either of the interfering roads will affect any purpose seriously detrimental to the interests of your company. Nevertheless, the paramount importance of vigorously pushing forward the work of your eastern extension is manifest. The company has expended already, in surveys and grading at different points, about $30,000, and it would be very desirable to put a large force at work on the tunnel at the summit, and other points where the work is heavy, as early as possible in the spring.

In order to supply the funds for the prosecution of this work, and to fund the present floating debt of the company, your Board recommend the issue of the bonds authorized by the act of Assembly of April 11, 1837. To enable the company to issue the proposed bonds, and so apply them, a slight modification became necessary in the present laws of the company. The President has already taken preliminary measures to secure the necessary supplementary legislation, and the stockholders are asked to approve his action. The bonds, when issued, it is believed, will command ready sale at a satisfactory price, owing to the fact that the company is already in receipt of the necessary funds, in ample amounts, for the liquidation of the coupons as they mature.

A railroad bridge at Venango City or Franklin, or at each of these points, would be of great value to your company, but of equal or greater importance to the companies with which we desire to connect. In addition to the facilities it would afford in the transmission of oil, coal and lumber between the several roads, a considerable through business of traffic and trade between the head of the Ohio and the lakes would spring up. Especially would the picturesque beauty of the Allegheny river and the strange sights of the oil regions make the route a favorable one for tourists to and from the Falls of Niagara.

The Bridge across the Allegheny at Brady's Bend has been completed, and greatly facilitates the shipment of railroad iron from the extensive works of the Brady's Bend Iron Company.

In surrendering, at the close of the year, the trust committed to them, the managers take pleasure in bearing testi- to the diligence, faithfulness and ability uniformly evinced by the officers of the Company in conducting the important and difficult duties of their respective positions.

The report of J. J. Lawrence, General Superintendent, was next read. The report gave a detailed statement of the business of the road during the year. From it we learn that 362,893 passengers were carried during the year, 97 1-10 of whom were local, and 2 9-10 through. The average number of miles traveled was 21 2-10, and the amount received per mile 3 4-10 cents. Total passenger mileage 7,602,148. During the same period 570,186 tons of freight were moved, eighty-nine per cent. of which was local and eleven per cent. through freight. The amount of revenue per ton. per mile 3 2-10 cents, and the cost of transportation 1 7-10 cents. The report states that no serious accident to passenger or freight trains has occurred, except one caused by the breaking of an axle near Scrubgrass, resulting in the serious injury to one passenger, and the slight injury of four others.

The reports of F. W. Martin, Chief Engineer, of construction, and H. Blackstone, Chief Engineer, were also read, upon the conclusion of which a resolution was offered and adopted, accepting and adopting the reports as read,

A motion was then made that the stockholders go into an election of a Board of Directors for the ensuing year.

The motion was adopted and E. Gregg, Esq., was appointed Judge and Messrs. G. W. Logan and J. L. Brown, Tellers, to conduct the election.

Following is a list of the Directors elected: William Phillips, William M. Lyon, W. K. Nimick, James Park, Jr., B. F. Jones, J. Patton Lyon, F. R. Brunot.

The meeting then adjourned.

Division of Shaler Township.

A petition numerously signed by qualified voters of Shaler township was presented in the Court of Common Pleas yesterday morning, asking for the division of said township into two election precincts, as follows:

Election precinct No. 1 to begin at the south-end corner of the borough of Millvale, on the north side of the Allegheny river, thence northwardly along the division line between lands of H. and Wm. Sample and said borough to south line of land of Wm. Sample, Sr.; thence westwardly along said line to the division line of lands of Wm. Sample, Sr., and Jas. Irwin; thence northwardly along said line to the north-east corner of said Jas. Irwin's land; thence westwardly along the line of said land to the division line of Ross and Shaler township; thence northwardly along said line to a stone at the corner of lands of M. Cridge, David Thompson, W. Theobald and —— Thompson; thence along the division line between lands of said Thompson and Theobald, north 89½ degrees east, 82 perches, to corner of lands of A. McFerron and Wm. Thompson; thence north 89½, east 80 perches; thence through line of land of H. Trimble, south 93½, east 104 perches; thence along a lane between lands of Wise and Trimble, south 37, east 50 perches; thence through land of Muetzo, south 97, east 30 perches; thence south 44, east 12 perches; thence through land of Golo Wise's heirs, Hoffman, Crinder, and Brilarly, past Clancy, to division line between lands of James Claney and Mrs. Fiddlesock, south 44, east 54 perches; thence along said line north 89, east 76 perches, to the old Butler road, adjacent to the northwest corner of the borough of Etna; thence southwardly along the line of said borough to the Allegheny river, adjacent to the north of Big Pine creek; thence westwardly along the said river to the place of beginning.

The place of holding general, special and township elections in said precinct to be at School House No. 1 in said precinct.

Election precinct No. 2 in said township to be composed of the residue of said township, and bounded by the lines of Ross, Hampton and Indiana townships and by said precinct No. 1.

The place of holding the general, special and township elections in said precinct, the present place of holding elections.

The Court granted the prayer of the petitioners, and ordered and decreed that the said township of Shaler be erected into two election precincts, with metes and bounds above described.

In accordance with the act of Assembly in such cases made and provided, the Court appointed the following named persons as election officers for precinct No. 1, who shall act as such until their successors are duly elected: Judge, Wm. Sample, Sr.; Inspectors, Wm. L. Seavey, Charles Theobald. For precinct No. 2—Judge, George Rindt; Inspectors, John Campbell, John B. Miller.

This Company, National in its character, offers, by reason of the Large Capital, Low Rates of Premium and New Tables, the most desirable means of insuring life yet presented to the public.

The rates of premium being largely reduced, are made as favorable to the insurers as those of the best Mutual Companies, and avoid all the complications and uncertainties of Notes, Dividends and the misunderstandings which the latter are so apt to cause the Policy-Holders.

Several new and attractive tables are now presented which need only to be understood to prove acceptable to the public, such as INCOME-PRODUCING POLICY and RETURN PREMIUM POLICY. In the former, the policy-holder not only secures life insurance, payable at death, but will receive, if living, after a period of a few years, *an annual income equal to ten per cent. (10 per cent.) of the par of his policy.* The latter the Company agrees to *return to the assured the total amount of money he has paid in, in addition to the amount of his policy.* The attention of persons contemplating insuring their lives, or increasing the amount of insurance they already have, is called to the special advantages offered by the National Life Insurance Company.

Circulars, Pamphlets and full particulars given on application to the Branch Office of the Company in Philadelphia, or its General Agents.

AT AUCTION.

Beautiful Residence AT SHADYSIDE.

Monday, March 1st, at 4 O'Clock,

Will be sold, by auction, on the premises, the very beautiful residence and grounds of the late line of the Pennsylvania Railroad. The grounds consist of 4 acres, well improved, and highly ornamented with fruit, shade and forest trees, shrubbery and small fruits. That portion in front of the house is a beautiful level lawn of about one hundred yards square, while that in the rear has a handsome, gentle slope to the railway. The house is a two-story, double frame, containing parlor, sitting and dining rooms, with folding doors, five bed rooms, kitchen, wash house, pantries, closets, and other conveniences. There are marble mantles, Boston range, bake oven, boiler, pumps, spring house, stable and carriage. There are handsome front and side porches, and an observatory from which exceedingly fine views of the surrounding country can be obtained. The house is substantially built, and has a very pleasant appearance. It adjoins the residence of Dr. Hussy, and is encircled by those of Messrs. Renshaw, Hitchcock, Pitcairn, Lewis and Graham.

It is near to church and school house, and but a few yards from Shadyside Station. There are eight trains daily to and from the city, eighteen minutes ride. In view of the spacious and convenient, the good neighborhood, and all the pleasant surroundings, this property should command the special attention of business men desiring to procure a beautiful suburban home. The premises are unoccupied, so that immediate possession can be given. By applying at 116 Wood street. Terms—one-third cash, balance in one and two years. Train for sale leaves at 3:45 P.
