FINANCE AND TRADE

OFFICE OF PITTSBURGH GAZETTE, WEDNESDAY, March 17, 1869. Gold to-day was from 1311/2 to 1313/4, with little disposition to sell. It is supposed that the large shipments of bonds to Europe will raise the rate of interest in London by the Bank of England to 4 per cent, and prevent shipments of coin from Europe and drawing specie from this country. If this is resorted to, a sharp advance in gold may be looked for, and a heavy decline in bonds here; even re-

turn shipments of bonds are likely to take place. Bonds were dull and lower to-day, the decline averaging about one haf per cent. The old bonds are now neglected, the supply on the market being so small that orders can not be filled, and the speculative orders are executed in new bonds, especially in 1867 consols, which

have also been used for shipment to same 20, weighing 20,300, at 6: Sprinker Railroad shares were weak, and if it was not for the short interest created yesterday, and on Monday, the market would yield much more. Fort Wayne,

would yield much more. Fort Wayne, old Southern and the Northwestern shares are the only strong stock now dealt in, and mainly on their own merits; their earnings are repidly increasing.

In local stocks we have but a dull market, except for, an occasional sale of either Exchange Bank, Citizens or Mechanics Bank stock. Columbia oil sold last night at 20 against 24½ a few days ago. Allegheny county finds 6½ a good price.

By Telegraph to the Pittsburgh Gazette. 1 NEW YORK, March 17, 1869. Gold was dull until afternoon, when the rumors that the Government was about to sell freely, and that there were to be liberal importations from Europe, occasioned;a decline. Pacific Mail fell to 93½. Later the whole market became weak and declined ½@2 per cent, New York Central falling to 158½; still later there was a reaction of ½@½ per cent, and the market closed steady and generally up from the lower point. Pacific Mail fell to 92 under great pressure of sales, but reacted to 93. Quickallyer and Mariposa were in lively request and higher.

Report says all suits against the New York Central have been withdrawn.

Express shares were without special interest, though later in the day it became known that Judge Cardoza had granted an in junction to restrain the prosecution of all pending suits, and the Total Snipments Refined.

In the case of Refined, there are a good many buyers, but they are holding back in anticipation of a still further decline.

LIVE STOCK MARKETS PENN'A CENTRAL STOCK YARDS, WEDNESDAY, March 17, 1869. CATTLE-The market thus far this week has been a little more active, the sales being larger in the aggregate than isual, though compared with last week, prices are a shade lower. The demand eems to be mainly for New York, the number taken for Philadelphia being comparatively insignificant, and it would ppear that the latter market is now being supplied from Baltimore and Lan! caster, Chester and other counties in the eastern part of the State. It is thought that from this time forward there will e more buyers than formerly from New York, and if this should prove correct.

York, and it this should prove correct, we expect to see the Cattle trade largely increased at these yards. As will be seen by reference to report of sales, good shipping steers sold at 7½ @7½, and extra do may be quoted at 8@8½. Stock Cattle, 5@6.

PETROLEUM MARKET. OFFICE OF PITTSBURGH GAZETTE, WEDNESDAY, March 17, 1869. The market was decidedly panicky to-day, and while there was but little done the feeling was very "bearish," and, compared with yesterday, prices have still further declined. For March delivery, last half, there was a decline in Refined of a full cent during the day, and the later months are also off but not so badly, and those who sold "short" are now covering and that, too, at a very handsome profit. Notwithstanding the decline to-day, the question still comes up, is it likely to go lower? and this is the most important point connected with the business at the present time. There are many, including shorts and specula-tors, who are desirous of buying, but who do not desire to pitch in while there is a prospect of a still further decline, and hence, while the market remains in

its present condition, weak and drooping, we do not expect to see much busi-REFINED—The market, as already REFINED—The market, as already intimated, was weak and panicky to-day, and compared with yesterday prices have still further declined.
