## CITY AND SUBURBAN.

The Atlegheny Councils will hold a regular meeting next Thursday night. Mayor Drum committed two well known female vagrants to jail Saturday

morning. On Account of the increased interest the Universalist Fair will be continued this week.

Petitions are already out for the pardon of Robinson and Hall, who were sentenced on Saturday. Lippincott's Magazine.-For the con-

tents of this excellent magazine for April see card on fifth page. There were seven prisoners in the county lail Saturday, sentenced, and walling to be taken over to the Western

Penitentiary. Yesterday was Palm Sunday. The present is Holy week. Thursday will be Holy Thursday, Friday, Good Friday, and Sunday Easter Sunday, the close of last

Oyer and Terminer.—The case of the Commonwealth vs. Michael Kauffman, indicted for murder, will be taken up in the Court of Oyer and Terminer this morning.

The Pittsburgh Conference of the M. E. Church, now in session at New Philadelphia, Ohio, is transacting business rapidly, and will, it is thought, be able to adjourn to-day.

The Allegheny police arrested a num ber of small boys for jumping on the cars of the Fort Wayne Railroad, near the Federal street depot, on Saturday. After being reprimanded and warned not to repeat the offense, they were discharged by the Mayor.

The Fiftieth Anniversary of the establishment of the Independent Order of Odd Fellowship in this country, will take place on the Twenty-sixth of next month. A number of lodges in the different parts of the county are making preparations to celebrate the day with appropriate ceremonies.

Finally Held.—David Jones had hearing on Saturday on each of the various charges preferred against him before Alderman McMasters recently, the circumstances of which are already well known. The accused was finally held for trial on each case in \$1000 bail. He produced the proper security and was

Barratry.—Joseph McCann made information on Saturday before Alderman McMasters against Chas. McGraw, for barratry. McCann is a saloon keeper on Wylie street. He alleges that the accused has several times brought suit against him for selling liquor without license and on Sunday, when there was no just cause for complaint. The ac-cused was arrested and gave bail in the sum of \$1,000 for a hearing this evening.

The Lost Mail.—The western mail which was burned near Miffin on the 16th inst. was a very valuable one, consisting of thirty-three letter and one hundred d sixty newspaper bags; four or five of the letter bags containing California mails were saved and sent forward. aged condition, and returned to the New York office, whence they were again for-warded to their destination.

Tableaux Vivants.-A series of Tableaux Vivants and of musical offering by artistic amatter performers will be held to-morrow evening at Excelsior Hall, Allegheny City, for the benefit of the Presbyterian Church Sabbath The subjects illustrated by the Tableaux are historic and poetical and doubtless will form a pleasing entertain-ment, even without the rich vocalizations mised. A very pleasant evening may be anticipated by those who attend.

Debate.—A very exciting debate is expected to come off at the next meeting of the "Fayette Library Society," which will be on Tuesday evening, March 30th. The question is, "should woman have the right of suffrage," Joshua Lizzett and Dr. T. B. Graham will sustain the affirmative, and Daniel Hoffman and W. J. Sterling the negative. These gentle-men are well known as "big gun" debaters, and a rare treat may be expected. There will be other spicy performances on the same night of meeting.

Bit His Finger,—Jas. W. Thornly made information before Mayor Drum on Saturday, against Charles Snyder for assault and battery. The prosecutor is barkeeper at the Mangencella saloon, in the Allegheny Diamond. He alleges Snyder came into the saloon and demanded something to drink, which upon being refused, made him angry and caused a scuffle between the parties, during which Snyder caught Thornley's finger between his teeth and almost bit it off. A warrant was issued for the arrest of the pugnacious Snyder.

Shoved Out.-Henry Frank is proprietor of a beer saloon on the Spring Garden Run Road. Louis Fisher is an occasional visitor at the saloon, and usually a welcome one. On Saturday, however, this was not the case. Fisher called at the saloon, but instead of being cordially received, he alleges that Frank got into an altercation with him, altogether unprovoked, but which ended in his being unceremoniously shoved out into the street. He called at Alderman Egger's office recently and made information against Frank for assault and battery, upon which a warrant was issued.

Robbery in the Diamond.

At an early hour Saturday morning the grocery store of E. Heazelton, in the Diamond, was entered by thieves, who gained access by removing the grating over the cellar vault in the front pavement. The depredators secured about twenty tiollars cash from the drawer, and after rummaging aroun drawer, and alter the office and the goods in the store, departed through the front door, leaving it open as they went. None of the goods were carried off, and the cash seemed to be all the spoils secured. There is no clue.

## Explosion at Church Run-Pour Men

A most terrible socident, fatal in its nsequences, occurred at Church Run, about one mile from Titusville, on Thursday of last week, the particulars of which we gather from the Titusville Herald.

About half-past four o'clock Thursday,

A. D. Griffin, W. H. Todd, William Bills and Col. P. Davidson were in the office of the latter preparing a torpedo for one of the wells, and while working with it in jarring down the charge the torpedo exploded from the concussion. The charge contained about seven pounds of fulminating powder, and there were about twenty pounds of the same material lying on the floor near where they were working with the torpedo.
The building was of course blown into fragments and its inmates, with the exception of Col. Da were instantly killed. Their clothing was almost entirely stripped from their bodies, which were stripped from their bodies, which were shockingly lacerated in every part. A crowd of men were speedily gathered from the vicinity. Col. Davidson was found to be conscious, but utterly helpless, and experiencing intense pain. His right thigh was severed to the bone, as though laid open by an axe, and his chest, back, arms and head covered with chasfly burns, his face burned to a grant chasfly burns, his face burned to a grant chasfly burns, his face burned to a grant chasfly burns. ghasily burns, his face burned to a crisp, and the sight of one eye destroyed. His first inquiries were concerning the fate of his companions, whom he feared were more severely hurt, and desired that they should be attended to. A litter was constructed, upon which, as speedily as pos-sible, he was borne to the Bush House, where he received all the care and medical attention that could be given him; but his injuries proved fatal and he expired about five hours after the occur-rence. He retained his mind, notwith-standing the terrible pain he must have endured, was perfectly conscious and conversed rationally concerning his bu-siness until within a short time previous to his death. He was a single man and leaves a widowed mother and brother residing at Middleburg, New York, where his remains will be re-

moved for burial. Mr. Griffin came to the oil regions Mr. Griffin came to the oil regions from Chicago about three years ago, and had spent most of that interval at West Pithole, where he was engaged in the oil business. Colonel Todd was also from Chicago, and is supposed to have been interested in the same improvements. He had been a resident of the oil regions for about three years past. Mr. Bills was from Allegheny City, and had but recently entered the employ of of the company for exploding torpedoes. All of the parties made their homes at the Brush House. the Brush House.

His reputation as an actor is so well established the use of adulterated milk, they being that we could add nothing to it, no matter how much we admire him. Mr. Jefferson was not the only person in the cast of "Rip Van Winkle," which occupied the boards during the entire week, and which will be repeated to night, who received and justly merited applause. The entertainment, as on the previous evenings, was of a highly satisfactory character. Shall We Have Pure Milk! In Common Council at the last meeting, Mr. Batchelor introduced a resolution instructing the proper Committee to report an ordinance for the creation of the office of Milk Inspector for the city. We sincerely trust that the Councils will favorably act on the measure, inasmuch as we believe in no city of the Union are the people more imposed on by dishonest dealers in the all-necessary lacteal fluid than in Pittsburgh. Much complaint reaches us that the milk daily peddled about the streets in carts is not only weak and watery but is made of chalk, lime and other disagreeable adul-terations. Indeed, it is jocosely said that pump on a leading road from the rural listricts to the city has furnished more

districts to the city has lurnished more milk to the people hereabouts during the last twenty years than any two dozen respectable dairies could provide during the same term of years. Milk adulteration is quite common throughout that Pittsburgh alone has immunity from dishonest and avaricious dealers. We see it stated that a physician of Providence, R. I., asserts that ten per cent. of of children are sacrificed every year by milk they use has so much water in it that it will not nourish them, nor even support life. He goes further, and shows that this dilution of milk falls with especial severity on the poor. But in Maine the late Legislature passed a law requiring inspectors of milk to be annually appointed in cities and towns containing not less than three thousand inhabitants

Vendors of adulterated milk are to be punished with a fine. The office of milk inspector might be filled by some of our market house officials without any great cost to the city. We feel that there is a necessity for favorable action on an ordi-nance creating the office, and trust Councils will not overlook the importance o the subject.

in New Business. Our friend Mr. Thomas Roberts, late of Roberts & Sherratt, has been appointed Notary Public, and opened an office at No. 126 Wylie, near Washington street. Besides attending to the duties of that office, he will devote much care and attention to the delivery and collection of accounts, the collection of rents attending to insurance, the execution of deeds, bonds, mortgages, etc., and to all deeds, bonds, mortgages, etc., and to all other business of a legitimate character which may be entrusted to him. The high reputation which Mr. Roberts enjoys in this community is the best recommendation he can have. He is honest, courteous, fair dealing, and in every way worthy the confidence and patronage of the public.

Slight Fire.

A slight fire occurred, yesterday evening, in the barber shop in the basement, under Hale's clothing store, corner of Sixth and Penn streets. It was extinguished, however, without calling the fire department into service. Some one occupying a room on the third floor, dis-covered the smoke and on coming down stairs to see the cause of it, found that it came from the barber shop in the base ment. The door was broken open, when the shop was found to be full of smoke. and one of the barbers was sleeping in a chair. The fire was discovered in a pile of rubbish in a closet. The application of a few buckets of water extinguished it.

MORTGAGES.

Same day fifteen mortgages and quit claim leeds were filed for record.

We learn from the following paragraph, which we clip from the Cincinnati Enquirer, that a monster iron safe is being manufactured in that city for a Pitts

burgh company: "Joseph L. Wall & Co., of this city, are manufacturing a monster safe for a Pitts-burgh Safe Deposit Company. It is to be eighteen teet high, eighteen feet wide, eignteen feet high, eighteen feet wide, and twenty feet long, and will weigh two hundred and hitty thousand pounds." The iron of which this safe is being made was doubtless manufactured in this city, and the Company will necessarily have to pay the freight on two hundred and fifty thousand pounds of iron from this city to Cincinnati and return over and above the cost of material, cost manufacture, and the manufacturers' profit. The Company purchasing the safe doubtless have reasons for having it manufactured in Cincinnati, and those reasons reasons for most property because they can sons are most probably because they can get it cheaper than they can here. We certainly have establishments in this city where such articles can be and are man-ufactured, and have the facilities for making as good safes as are made in Cincinnati or any other city on the continent, and how a Cincinnati firm can purchase the iron in this city, transport it there, and after working it afford to se the manufactured article at a less rate

than our own manufacturers can do, we cannot tell. Why is it? Waltham Watches.

America is now clearly ahead of the world in the manufacture of watches. For many years Europe retained the supremacy in this branch of manufacture, but Yankee brains and ingenuity cannot long be kept in the lower ranks. In the Waltham watches, sold in this city by Messrs. J. R. Reed & Co., 68 Fifth avenue, and J. B. McFadden, Market street, the public have time pieces which excel both in quality and workmanship and general perfection the finest imported ar-ticles. The fame of the Waltham watches is rapidly growing, and the day is not far distant when the owner of a foreign time piece will be assumed to own that he was so ignorant of the merits of home productions that he paid more for inferior articles. The stem winding watches just introduced are magnificent specimens of workmanship, and are but to be seen to be appreciated, and their manufacture is only attempted by this one company. Since the manufacture of watches was initiated at Walthum, the company have made and sold about 400,000 watches. In every town and village of the country some wearer of the Waltham watch may be found. We commend them in the highest terms of praise to our readers.

He was in the store examining the frames, and while doing so concealed one under his while doing so concealed one under his coat. He then started out of the store up Smithfield street, in the direction of Sixth avenue, but was not allowed to proceed far before he was taken in custody by an officer.
