FINANCE AND TRADE. OFFICE OF PITTSBURGH GAZETTE, WEDNESDAY, March 24, 1869. The gold market was steady all day at \$1%, with less disposition to buy until he Secretary of the Treasury has better defined his policy. On the other hand, few care for buying in the face of a tight noney market, but prefer to await the event after April 1st, when no doubt a

new line of operations will be estab-Government bonds opened at a decline, rallied about 1/2 per cent. and finally dropped to the old price. The market is very dull, with more sellers than buyers. Lower prices for bonds are predicted, and the principal speculators, as well as the Washington clique, are all selling and are now short, confidently expecting to buy at lower rates. In stocks, an apparent downward move is on foot, and it would not be sur-

reasonable concession. Basiness paper offered freely at high rates of interest, and every effort is made by parties to provide for the first of April. Business dull.

(By Telegraph to the Pittsburgh Gazette. New York, March 24, 1869. The demand for money has been more stringent, and stock houses have experienced considerable difficulty in arranging their loans, and freely paid 7 per cent. iu gold. The stringency is mainly due to the large shipments of currency

to the interior, one express having taken one million dollars last evening, while the total shipments will probably reach three millions: most of this has been sent to Boston, Philadelphia and Baltimore. The demand for money continued much later than usual, and many bank accounts were not made up until after four o'clock. Sterling dull at \$80% for sight. Gold firmer; touched 181% but closed dull at 181% [131%]. The rates for borrowing were 3 per cent to flat. Rumor says the Treasury is selling gold, but nothing definite is known. The Treasury currency balance here is being replenished by transfers from other depositories. It was generally understood that any Treasury sales will be to get currency to bridge over until the Internal Revenue receipts have been more free. The market for Governments has been feverish; prices opened at the closing rates of yesterday, with little disposition to take stock. During the day, however, some short sales were covered, and this improved the list; they demand was mainly for 62s, 65s and 67s.

Governments are still out of the market, not being able to dispose of their exchange, and until the demand springs in the market closed dull and lower. Coupons of \$81, 118%; do, 622 the total shipments will probably reach exchange, and until the demand springs up they can fill but few orders for shipments. The market closed dull and lower. PITTSBURGH MARKETS. OFFICE OF PITTSBURGH GAZETTE, WEDNESDAY, March 24, 1869. As noted in our last report, there are unmistakeable signs of an improvement in some branches of business, and we are in hopes now that the worst has been passed, and the Spring trade is about to open up in earnest. The demand, however, as yet for almost everything is light, being confined mainly to supplying immediate wants, and as a consequence, round lot operations are of rather rare occurrence. In regard to values there are no important fluctuations, with the exception of Sugars, which, under the influence of the advices

rom Cuba, have advanced. APPLES -Scarce and in good demand; nay be quoted at \$41/@61/2 per bbl, as to

Dry Goods Market. New York, March 24.—The market continues moderately active for the sale of Printed Calicoes, at reduced prices, but in most other classes of goods there is little life in trade; all classes of goods are mostly selling at low and unprofitable rates, and the trade are consequently despondent, but the business transacted is mostly done at a less all around. Nice styles of Adriatic Prints are selling down to 8%c: Brown Cotton Mass BB are selling as low as 13%c. There is no important change to notice to day, but the market is a little feverish owing to the failure of the Utica Steam Woolen Mills continues moderately active for the sale
