EASTER EGGS.

The use of Easter eggs dates far back in the Middle Ages. Its origin is, not definitely known, but the inhabitants of Western Europe are said to have borrowed it from the Greek Church. Their crimson coloring is to represent the blood

of Christ. Trinity bells with their bollow lungs And their vibrant lips and their br.zen tongues Over the rools of the city pour. Their Kaster music with joyous roar. Thil the soaring motes to the sun are rolled. As he swings along in his path of gold.

"Dearest papa," says my boy to me. As he merrily climbs on his mother's hnee, "Why are these ergs that your see me hold Colored so finely with blue and gold? And what is the wonderful bird that lays Buch beautilui ergs on Easter days?"

Tenderly shine the April skies, Like laugh er and tears in my child's blue ey And every face in the sirect is gay. Why cloud this youngster's by saying nay! So I cuder my brains for the tale he begs And tell him this story of Easter eggs.

You have heard, my boy, of the man who died. Crowned with keen thorns and crucified; And how Joseph the wealthy-whom God re wardt

ward! Cared for the corse of his martyred Lord, And plously tombed it within a rook, And closed the gate with a mighty block.

How close by the tomb a fair, tree grew, With pendulous leaves and blossoms or blue, And u-ep in the green tree's shadow preast A benutiful singing bird sat on her nest. Which was bordered with mosses like malach and held four eggs of an igory white.

Now when the bird-from her dim recess Beheld the Lord in his burial dress, And looked on the Heavenly face so pale, And the dear feet pierced with the cruel nail, Her hearsnigh broke with a sudden pang. And out of the depths of her serrow she sang.

All night long, till the moon was fb. She sat and sang in her muss wreathed cup, A song of sorrow as wild and shrill As the homeless wind when it roams the hill, Bo full of tears-so loud and long, That the grief of the world seemed turned to

But soon there came through the weeping night A glittering angel clothed in white; And he rolled the stone from the tomb away, Where the Lord of the Earth and Heavens lay; And thrist arose in the cavern's gloom, And in living lustre came from the tomb:

Now the bird that sat in the heart of the tree Beheld this celest al mystery, Bebeld this clear at myster? And its heart was filed myster? And its beard was filed will a sweet de light, And it worred a soug on the throbbing myster Netes climbing notes, till higher. Higaer, Thay shot to fica yen lisc opears of fre.

When the alittering white robed angel heard The sorrowing song of the grieving bird, and heard the following chant of mainth That halled Obrist risen ag in on earth, He said. "Sweet bird, be forver hiest-Thyself, thy eggs, and moss wreathed nest!" And ever, my child, since that block in this, When death bowed down to the bord of Light, The eggs of that sweet bird change their faue, and burn with red, and gold, and blue. Bemiading maukind in their eimple way, Of the holy marvei of Easter Day.
