The new iron aqueduct over the Swatara creek at Middletown will be finished about the 5th of April, and the canal ready for to be necessary, there is little doubt that another treaty can be negotiated; and there is small reason to fear European rivalry. Even should Europeans construct the canal, the same reservations that made it free to their use as to ours, under Mr. Cushing's treaty, would as undoubtedly preserve it for our use, without discrimination; and the cost of construction, at the lowest estimate, is enormous.

each department is confined to its sphere. I tell you, as one speaking from the dead, there is danger in the Government, and that danger is in the Legislative department. The Executive branch cannot make laws, neither can the Judiciary; but the Legislative branch, under the pretence of making laws, can trample upon the liberties of the people. Yes, a despotic Congress can go on until Yes, a despotic Congress can go on until it takes away the liberties of the people. But I feel I stood as breakwater to the Government, and arrested its progress for a time. The time has come to talk for a time. The time has come to talk about the first principles of the Government. Take away the restraints which have held back Congress, and one branch of the Government will wipe out the other two. Let me tell you here, that a wise and good Prince is infinitely better than a despotic, arbitrary Congress. Look at the acts of Congress.

Look at the acts of Congress, and see how they are like the acts of Great Britain towards the Colonies in the carly days of this country. Look at our condition. The writ of habeas corpus suspended. And when a citizen appealed to the Supreme Court, Congress takes from him the right of anneal and deed to the Supreme Court, Congress takes from him the right of appeal and de-prives him of his liberty.
