FINANCE AND TRADE, OFFICE OF PITTSBURGH GAZETTE, FRIDAY, April 9, 1869. The announcement about a week ago, that the May interest would be anticipated, induced a great many brokers, and especially foreign bankers, to sell their gold in advance, thus creating a large short interest in the market, which is easily abserved in the high loaning rate for gold, the stock on the market being very small. In order to force the short interest either to cover or to pay a high rate for borrowing gold, the price was advanced to-day to-day to 1331/4. The advance took everybody by surprise, and importers, who are also short of gold, look to Washington for relief, by paying out the interest due in May next. The

amount of gold on the market is so small, that witnout the Treasury interference the premium might be run up to 136 or even 137. The advance in gold gave the bond market a firmer tone, and the entire list advanced this afternoon about one-fourth per cent-with a strong feeling among the foreign houses which have bought largely recently, in the hope to see a rise here in order to advance quotations in Europe. But they are strongly opposed by a few leading bond dealers, who were misled past ten days, has been taken by the 114 SOUTH THIRD STREET, by the tight money market, in supposing that a decline of greater magnitude

back with their purchases. Stocks are nearly unchanged, and only a limited business doing. Allegheny Val ley bonds are freely offered, but above

the market.

(By Telegraph to the Pittsburgh Gazette.) NEW YORK, April 9, 1869. The Money market has been very irregular to-day, and caused no little surprise to borrowers. At the opening of business call loans 7 per cent. currency and coin on Governments and stocks, but as the day advanced the market hardened and 1-16 per cent. was paid again. Before three o'clock there was apparently an easy feeling, but it did not last long, and very soon a pressing demand set in, which caused an advance to seven percent, and a commission of 1/2 percent, the closing transactions being at these rates. The changed aspect of the market gave rise to some uneasiness in regard to the future. Discount market dull and best pipes its inurrent mily at large shaves. The course of speculation in New York Central shares to-day disapointed a host of anxious operators in this stock. The public were amply projected with stock to sell at a profit when the Scrip bill passed the Legislature. This bill went through last evening, and there were a large number of orders.

REW YORK, April v.—The weather is much finer, and trade better. The prices of some classes of goods are still a little weak. Atlantic and Pacific brownsheetings are 1/2 lower, and Coates is it cord dozen; this is the same thread which is sold in Europe, and never before sent to this market; and its having a ready sale ever, rule steady at 90c for Coates. The other best makes of coolered obtains a little weak. Atlantic and Pacific brownsheetings are 1/2 lower, and Coates is its cord dozen; this is the same thread which is sold in Europe, and never before sent to this market; and its having a ready sale at this price. All other threads; however, rule steady at 90c for Coates. The other best makes of colored cottons show more steadiness, and it would seem as if prices generally had finally touched low water mark. In Woolens the market is irregular and depressed, but there has been more doing at low rates, both in fine fabrics and low grades. paid again. Before three o'clock there This bill went through last evening, and there were a large number of orders to sell on the expected advance, which, however, did not take place. The sharp rise in Hudson River shares gave ties to considerable goistly. There is very general belief that the stockholders of the Hudson and Harlem roads will be the recipients of something in shape of scrip or stock dividends. There is some talk of building a branch road from near Chatham to connect with the Hudson Railroad. Foreign, exchange dull. Gold active and strong; opened at 132½, rising to 183½ and closing at 183½. The rise was ascribed to various reasons, among which was a growing, scardity of cash. Was ascribed to various reasons, among which was a growing scarcity of cash BLUWS.

The Stock market during the morning was active and buoyant, the principal dealings being in Northwestern shares, St. Paul, Hudson, Michigan Southern, Toledo, Reading and Wabash. The first named sold at 85½ for common, and 97¾ for do. preferred; St. Paul, common, at 78, and preferred at S6; Michigan Southern, 97½; Reading at 94½; Toledo and Wabash, 67, and Hudson River, 150.

The rise in Hudson since yesterday is equal in the extreme quotation to 10 per cent., and is due to the belief that the road will soon be consolidated with the New York Central, and the stock will be largely increased in the form of a stock dividend. Harlem is strong, having sold New York Central, and the stock will be largely increased in the form of a stock dividend. Harlem is strong, having sold up to 137. PETROLEUM MARKET.

OFFICE OF PITTSBURGH GAZETTE, FRIDAY, April 9, 1869. The oil market compared with yesterday has undergone little or no change. Operators, generally, are inclined to do something, either buy or sell, but somehow or other they cannot get together, and as a consequence the volume of business continues comparatively Most of the oil bought here within the "shorts," and it is said that it will take a considerable quanity of oil yet to enable ing that a decline of greater magnitude the short interest to cover entirely, and therefore held the demand from this source, for the time the demand from this source, for the time being, appears to exceed that all from all other sources put together. Exporters are holding off in anticipation of a decline, but unfortunately for the shorts they are not in position to hold off; they must either buy in order to satisfy there contracts, or pay the difference between what the oil was sold at and the price current at the time of delivery. The eastern markets are reported quiet and without quotable change and the same

current at the time of delivery. The eastern markets are reported quiet and without quotable change, and the same is true of the foreign markets.

CRUD'—The Crude market is quiet and unchanged. Spot oil is still held at 15, with offers to buy at 14½; sale 1,000 each April to June at 15½; and it was reported that a similar line had been sold at 15. There was an offer floating around. at 15.
