THE FIRE. Weather. The Flames Subdued-Laborers of the

Fire Department, The extensive and destructive conflagration at Forsythe's Oil Works has at length subsided, and there appears to be true, there being more stormy and no further apprehension of danger. The loss of property, although not definitely ascertained, is estimated at \$298,000, and the insurance \$84,000, making a loss over the insurance of \$114,000. The scene of the disaster was visited yesterday by hundreds of persons. March trafferred her at-mosphere to April, keeping back the too early growth of the earth; by pres-ent observation it bids fair to be one of the best of seasons. A warm December Chief Engineer John H. Hare, and the eutire Fire Department, deserve great credit for the faithful manner in which they labored to extinguish the flames. Mr. Hare was on the ground as soon after the alarm was given as it was posi-ble for him to reach it, and remained as long as there was any hopes of extin-guishing the flames or a probability of them spreading. A young hopeful, aged about twelve years, John O'Brien by name, was arrested by officer Garber, on Etna street, in

The officer stated that there were five or six boys, all about the same size, in the par-ty, and that when he discovered them they were hallowing at him and then run up stairs in a house and called after him out of the window. He went to get an-other officer to assist him in making the arrest in order to catch the whole party, but when he returned they had all es-caped but O'Brien, who was found secre-ted in the cellar. The Soldiers' Monument

The question as to where to locate the proposed monument to be erected in honor of the brave boys from Allegheny county, who died beneath the old flag in the late rebellion, remains unsettled, and under the present circumstances we presume will remain so for some time to come, unless a sufficient number of the incorporators waive their views in order to effect a compromise. It is now suggested, by way of settling the dispute, that the square of ground recently occupied by the Scotch Hill Market House and owned by the holders of property on

it, be selected for the purpose, It is thought that that location will meet with little or no objection, more especially as the citizens of the Second ward will country. make a generous proposition to the Mon-ument Association to secure the award. A correspondent writes at considerable length on the availability of that site, from which we extract the following: "The citizens owning property front-ing on the second Ward Park, I feel assured, will in the event of the erection of the proposed monument, cede to the Association the rights they hold to the site, and at the same time enter into an agreement to provide iron railings for closing in the entire grounds, erect two public fountains within the square, plant more trees and further adorn and improve the grounds in such manner as to render them attractive both in Summer and Winter. The location is good and, the profiered assistance from the citizens should not be despised. The Association can have the assurance that the grounds will always be cared for and watched by d by the residents of the locality and from time to time se improved by private en-terprise as to form the only attractive garden spot in the limits of the old city, which from itself would attract visitors even if the monument did not grace the the square."

Consolidation of Hotels,

Franklin, Pa., has long enjoyed an enviable reputation as sustaining the best two hotels in the oil regions, indeed, we might say in Western Pennsylvania outside of Pittsburgh. The Great Exchange, so commodious and first class in all its appointments, so cleverly managed in every department, and the United States so pleasantly located, airy, comfortable. and convenient, have ever vied with each other for popular favor and patronage. We are glad to announce that both of these popular establishments have been consolidated under one management, and been newly refitted and refurnished in such elegant manner as to render them more than ever attractive to the traveler or Summer visitor. The best part of the announcement, however, is, that our uni-versally popular friend and host, S. R. Stratton, Esq., presides with grace at the head of both hotels, and gives his undi-vided attention towards securing the comfort and enjoyment of the guests. Any of our readers traveling that way must not fail to make his acquaintance and partake of the hospitalities dispensed by his clever and generous hand as either the Great Exchange or United States, and our word for it they will thereafter take large stock in his ability to keep hoin such elegant manner as to render then
