The Nittsburgh Enzette. FINANCE AND TRADE,

OFFICE OF PITTSBURGH GAZETTE, Tuesday, May 4, 1869. Government bonds were less active today and somewhat lower, in consequence of the greater activity in money, for which seven per cent. gold interest has been paid to day. Although at present price of gold and exchange it pays to snip bonds to Europe in place of exchange, few can do it since the telegraph expenses are too great on small amounts. Gold was very strong this morning at 1361/4, from which it declined to 135% and closed dull and weak. There is hardly any doubt but that the cliques will manage to get the Government one

million dollars of gold as cheap as possible, and then run ap the market again. Stocks were dull, weak and lower, for the entire list. Money is easier and business quiet. Quotations as received by Ph. R. Mertz: Gold, 135%; Silver, 127; Eightyone's, 118%; Five Twenties, 1862, 11836;

By Telegraph to the Pittsburgh Gazette.] NEW YORK, May 4.

Money active and sharp at 7 per cent., with exceptional transaction at coin interest. This has occasioned yielding in prices on exchange.-Many prominent bulls took advantage of the recent rise to sell largely, are not lending their money freely, and the carrying rate of gold having advanced to 10 per cent, the large owners of gold have withdrawn it from the market, which necessitates calling in of heavy amount loans from stock brokers. Herein lies the explanation of present activity in money. Sterling heavy at 9@91/c, mainly former. It is reported that one prime

money. Sterling heavy at 9@9/c, mainly former. It is reported that one prime Banking firm will ship one million in bonds weakened toward close of to-day, and price opened at 36/4, and closed at 36/4. The rates paid for carrying were 5@10 per cent, on 1.62 per day. Clear-sances, \$122,000,000. Exports, \$36,000.

Gevernments are less active and lower under an increased demand for money and lower quotations from London. The prices here and at London are now about prices here and at London are now about equalized, and consequently foreigners are not large buyers. The investment movement is healthy but without feature. The small bonds, are selling below the large ones, as there is less buying for reinvestment of interest. The market closed steady. PETROLEUM MARKET.

OFFICE OF PITTSBURGH GAZETTE, TUESDAY, May 4, 1869. The oil trade was, if anything, a little stronger to-day, occasioned mainly by a slightly improved demand for May, and while this particular delivery was higher the later months, as yet, have undergone no quotable change. There was this difference between to-day and yesterday, bids were entertained and refu-sals asked, which yesterday were offered sals asked, which yesterday were distributed as without attracting any attention, and it is usually the case, that when one month advances the later months are more or less affected, as it is calculated to infuse a stronger feeling, though possibly there may, for the time being; be no advanced as will be seen, however, the sales were as the sale were as the case of the case will be seen, however, the sales were as the case of the case light, and as regards prices, the only essential change apparent, as yet, is for the last half of May.
