The Directors of the various wards in llegheny city, together with those from all the townships and boroughs of the County, assembled at City Hall, Tuesday afternoon, for the purpose of electing a Superintendent of the County Common Schools, for the ensuing term of three vears, as prescribed by law.

It was suggested that the salary to be attached to the office should first be fixed. The suggestion was not acted upon, and the original motion prevailed. Messrs. A. T. Douthett, Thos. A. Neal

and Thos. E. Wakeham were nominated The D. rectors voted viva toce, each replying to his name when called out by the Secretary, with the following result: Douthett, 108; Neal, 32; Wakeham, 42. Mr. Douthett, having received a major-ity of all the votes cast, was accordingly declared elected.

The Chairman stated that the next busness in order would be the fixing of the salary.

A Director moved that the salary be

fixed at \$2,000 per year, the same as for merly paid. Amendments fixing it at \$1,500 and \$2,500 were made but voted down, and the original motion finally adopted.

Mr. Douthett, in response to calls, appeared on the platform and returned his thanks to the Directors for the renewed evidence of their confidence and esteem with which he had been honored. In regard to a remark made during the dis-cussion relative to the salary, he stated he had always endeavored stated he nad always endeavored faithfully and conscientiously to discharge the duties of the office of County Superintendent during the nine years which he had filled the position. There were five hundred and fifteen schools to be visited, and though be had travelled four thousand miles during the past year, and made every effort, yet some of them had not been visited. He pledged himself to continue in the future is in the past to devote his whole time to

the work, and endeavor by every possible means to advance the interests of Com-mon Schools throughout the county. The meeting then adjourned. RE-CONVENED.

Before the Directors had left the hall, they were reassembled, at the suggestion of one of their number, to take some action in regard to the proposed establishment of a Normal School in the county. Superintendent Douthett urged the necessity of such an institution, and the importance of taking some steps in the matter at once. He said the project of establishing such a School under the patronage of Allegheny, Beaver and Butler counties, had been long considered, but no definite action had as yet been taken. Col. Espy had offered ten acres of land and \$5000 cash to the enterprise, and Col. Kelley had offered ten a land at Wilkensburg. All that was need ed now was sufficient money to construct a building; probably \$32,000 would be enough for this purpose. He spoke at some length in favor of this movement, and urged immediate action.

On motion, the Chairman of the meet ing, Mr. F. C. Negley, was instructed to appoint a committee of ten to act in conunction with himself in reference to the natter, and report at a future meeting. The members of this committee will be ounced as soon as appointed.

The stable is large, airy and commodious, and is now undergding such repairs

The carriage house of the concern is well worth a visit, if only to see the beautiful vehicles with which it is crowded. It must be borne in mind that everything connected with this stable is new, horses, carriages, buggles, wagons, harness, etc., and further, that no expense has been spared to secure the best stock in the market. Their carriages were purchased from the best Eastern makers, and for richness, comfort and extreme beauty of appearance cannot be surpassed. They are gold mounted, and from the expensive manner in which they are finished, remind one of the famous State equipages which make such a display in the ages which make such a display in the royal processions so common at the other side of the Atlantic. Every particular part of the human body has had its average natural properties, constituents, quantities, &c., reduced upon scientific principles to a standard of nearly definite proportions in health.
