AMUSEMENTS.

Opera House—Humpty Dumpty

having an excellent run. It is well put on the boards, and as a result has succeeded perfectly. This afternoon a grand Matinee for ladies and children will take place at two o'clock. Special arrangements have been made for this Matinee, which will doubtless be largely patronized.

PITTSBURGH THEATRE.—The new troupe at this establishment succeeds in attracting large audiences, which is the object of the management. A Matinee has been arranged for this afternoon, with an entire change of programme. The entire company will appear. Go early.

THE RANGERS OF THE PROMENADE.—The Academy of Music, on Monday night, is to be the scene of the first representation of this national drama. The change here made is a happy one, and the committee having the engagement in their arrangements are to be congratulated. The play will be given in the evening, and the establishment of the character of the play is an instructive entertainment, worthy of extensive patronage.

MISS DARGAU'S READING.—Miss Dargau's reading at the Academy of Music drew together one of the largest and most intellectual audiences of the season, and if we are to judge from the frequent manifestations of applause which rang through the house at the proper times, her hearers were keenly appreciative. She read perfectly, at home in her own language, and in all of her readings displayed that rare and characteristic genius which has made her so popular in theatrical circles. She is a native of France and speaks French with grace and delicacy.

OF INTEREST TO EVERY ONE.

We were surprised to learn how great a number of persons require the care of a Dentist, and never fully realized it, until we called at the Steam Dental Establishment of Dr. J. Scott, 275 Penn street, and saw the crowds that made demands upon his valuable time and services. But we are not surprised to learn that the Doctor's business, although very large, is yet steadily increasing. For we know him to be at the head of his profession in this city, and a thorough Dentist, as well as a conscientious and humane man. It is just here that the teeth that can be manufactured.
