FINANCE AND TRADE OFFICE OF PITTSBURGH GAZETTE, THURSDAY, May 20, 1869. The fluctuations in the gold market were very violent and 144% was once eached, declining again to 1441/6. The tendency has so far been constantly upward, without any reaction, and it seems probable that the operators will carry it

much higher. It is even generally be-lieved that a rate approximating 160 will be reached, and the present state of the country's trade is favorable to such a scheme. The true cause of the rise and its main support is the immense adverse balance of trade against us and the large amount of goods now in the bonded warehouses, that have to be paid for yet in either bonds, so long as Europe is willing to take them, or in coin, if no produce can be shipped.

NEW YORK, May 20, 1869. Money easy at 6@7 per cent. on call loans, with rather more business at 6 per cent. than for several days. The Toledo and Wabash road to-day notified Stock Exchange that in thirty days from date its capital stock will be increased to four million dollars. The Company intend to appropriate \$600,000 for the purchase of the Decatur and Illinois Railchase of the Decatur and Illinois Railroad, giving them an air line to St. Louis, \$500,000 to erect new elevators at Toledo, and \$1,900,000 to extend the road from Quincy via Hannibal and Waberly to Kansas City. Sterling firmer: 9%,69% for 60 days, and 10% for sight; rather more bond bills offering and taken by leading bankers to cover their own bills. Gold excited and firmer. The recent rapid advance is sustained by expectation that specie shipments will soon begin, prime bankers exchange having reached a point where in will be small profit in exporting gold The soon begin, prime bankers exchange having reached a point where in will be small profit in exporting gold The unfavorable advices from London also excited apprehension. Private dispatches say money there is active, though the Bank of England has not advanced its rates, yet outside rates are 5@8% per cent. The price opened at 43% advanced to 44%, and fell to 43%@43%. At the close carrying rates were 4@9 per cent, and 1-32 to flat. The market was wildly excited in the afternoon under a rumored failure of a large firm in the Brazillian trade, which was afterwards denied. The final decline was occasioned by rumors from Washington that the Secretary of the Treasury had decided to stop buying bonds and would cancel the 3 per cent, certificates instead. The clearances reflecting yesterday's business were one hundred and sixty-seven millions. Heavy sales of long gold was made this afternoon by prominent bulls, estimated at six to ten millions. At the Treasury sale bids were filed for \$2.100.000 and awards made to Word. Duquesne Way, Fittsburgh, Pa. bulls, estimated at six to ten millions. PITTSBURGH MARKETS.

The general markets are rather dull and devoid of any new or important features worthy of notice. The demand for nearly all of the leading articles is confined mainly to supplying immediate wants, while in regard to values there are no important changes. The unsettled and, we might say, panicky feeling in regard to financial matters, is having. considerable to do with the dullness which has prevailed for some days, as there seems to be a disposition mani-fested in commercial circles to do just as

agusted.
