REV. DR. JACOBUS, of Allegheny, was elected on Wednesday, Moderator of the Old School General Assembly of Presbyterians, now in session at New York. This was a befitting compliment to a gentleman who deservedly occupies a high place among the eminent clergymen of the country.

THE Young Men's Christian Association and a large number of the most influential business firms of Pittsburgh, have united in a congratulatory autograph letter addressed to Mayor BRUSH. and commending in strong terms his course in rigidly enforcing the Sunday laws. There can be no doubt but the authorities have with them the fullest endorsement and sympathy of the religious portion of the community, in their efforts to protect the Sabbath from desecration.

WHERE will the Pittsburgh Commercial go? It has bolted from Republicanism, and the Democracy don't want it at all. Their organ, the Post, "sincerely hopes" that, "if it dies dead as a Republican mouthpiece, it will not turn a flip-flap and come up a Democratic journal. Our party has doubtless offended, but grievously hath it answered for it. Has it not been sufficiently punished, that this new affliction must be added." This is bad for our Commercial traveller. Repudiated by the Republicans, rejected by the Democrats, a trip to Greensburg would not do any good now, and there is nothing left for it but to join the new SPRAGUE party. That Senator has money, an wants recruits. It is the right opening for the Commercial

THE MEETING of the members of the Associated Press, at Cincinnati, was brought to a close on Thursday afternoon, after a harmonious and pleasant session. Nearly all of the prominent journals em. braced in the Association were represent. ed. The local Press Club of Cincinnati were conspicuously attentive to their guests and contributed largely towards making the visit one of pleasure and enjoyment. After the transaction of important business, having in view an improvement in news facilities, the visitors were taken in carriages to various points of interest, including the beautiful Spring Grove Cemetery, the private art gallery of Mr. Probasco, the retired millionaire, which is among the finest in America, and finally to the elegant residence of Mr. RICHARD SMITH, of the GAZETTE. where they were "wined and dined" in a good old fashioned manner. Two weeks since, the Leader, a Sunday print of this city, edited by a wellknown Democrat, promised for its next issue an exposition of affairs in the office of the County Commissioners. The promise was not kept, but the reason was palpable, when its other columns were examined. But the same writer does the political writing for the professedly Republican Commercial, also of this city, and published his promised expose in its issue of yesterday. Of course, the substitution of his daily newspaper for his other Sunday print was quite natural. The Leader and the Commercial are the twin-Dromios of Pittsburgh journalism, the Siamese twins in mand. And his purchases of bonds supfact, inseparably connected, beating with port the market at the most critical moone heart, animated by the same impulses. controlled by one and the same brain. and bent upon the same ends. there is honor, even among the class to which they are reputed to belong.

-In the meantime, the Pittsburgh Commercial puts publicly upon record grave accusations against the Commissioners of this county. These officials stand collectively and individually charged by that journal, under the plainest of inuendos, with accepting bribes in the discharge of their swern duties. These accusations should be met, promptly and squarely, by those who are concerned.

A WELL-KNOWN citizen evidently refuses to take large stock in the capacity of the Commercial's pet for Assembly, and marvels that he should fill the measure of exaction which that pretentious journal requires in all candidates for public place. Hear him:

EDITORS GAZETTE: Mr. George H. Holtzman, for Assembly, is the subject of laudatory commendation in Thursday's Commercial. A year or two since he was an attache of that paper—its president, for a period—and left, we think, under the pressure of some disapprobation, but probably still has an interest in its capital stock. These circumstances are doubtless better known to the press than to outsiders. It is quite possible that the recent wholesale proscription of the Republican party, so indignantly denounced by the GAZETTE and other Republican papers, was instigated by a desire on the part of the Commercial to make room for Mr. Holtzman's "integrity," "honesty," "fine business qualifica-tions," etc., by such wholesale defamation of the party as would result in showing somebody else out. It has been snared in its own trap. As Mr. Holtzman has been photographed at the Commercial rooms, the could judge better of the picture if seen from a standpoint further up Fifth street.

RAILWAY NEWS,

It is believed that all differences, upon ninor questions of detail, will be adjusted between the Pennsylvania and the Fort Wayne Railroad Companies, and that the proposed lease will be agreed upon, if it be not so already. The lease is to be perpetual, the Pennsylvania paying a twelve per cent. annual dividend, at quarterly periods, upon the \$11,500,000 of present capital of the other Company, with the interest on its bonded debt. and the yearly payment to the sinking. fund. It the Fort Wayne capital be increased to \$20,000,000, the dividend would then be about seven per cent. on the increased sum. The Fort Wayne will retain its company organization, and will also divide its present cash assets of about

74 per cent. The Post says: Although a majority of the stockhold-ers appear to favor the measure, it is not likely to succeed, as the President, Gen. ass, and several members of the Board are known to be opposed to the measure and have been from the commencemen of the negotiations. A scrip-dividend of fifty per cent.

hinted at, on the Cleveland and Pitts burgh stock, which, it is said, will pay eight per cent. on the enlarged capital. A road from Crestline, via Tiffin to Toledo is projected, with the understand. ing that the Fort Wayne shall iron, equip and run it when complete, paying over

forty per cent of its gross earnings. THE FINANCIAL OUTLOOK.

Secretary BOUTWELL's new policy, the sale of gold and the purchase of bonds. has encountered an awkward state of affairs in the money-market, springing almost wholly out of our international complications with England. The London market has been disturbed for some weeks, by the pressure of large applications for loans to some of the Continental governments. The current subscriptions to these loans have drawn down the bullion in the Bank of England to an embarrassing point, and the Bank has raised its rate of interest again and again, to check the speculative movements of the market. A drain, of five millions already, from its cash, must not be suffered to go further. Then came Mr. SUMNER's speech, with its reasons for the rejection of the Alabama treaty, and a letter from Prof. Goldwin SMITH, now at Ithica, N. Y., to a London journal, warning England to be prepared for a runture with America. This depressed our securities immediately in London. The markets at Frankfort and Paris could not but sympathize. The lower quotations, daily telegraphed, should have put the bonds down here also. Instead of that, bonds and gold are both going up together, the one because the Secretary is retiring them at the rate of a million per week, and the other because it is to be in demand from abroad, to pay for our excessive importations which

satisfy. The Secretary's movement was fortunately timed. His sales of gold, of one to two millions per week, will-soon swamp the gold-room speculators, besides, more than meeting the legitimate foreign dement it has experienced since the close of the war. But for the Secretary's inor thirty per cent. higher than it is, and

PITTSBURGH, May 21, 1869, MESSES. EDITORS: Some of my personal friends have been kind enough to sonal friends have been kind enough to urge my name for nomination before the Republican Judicial Convention, which is to assemble on the 1st proximo, for the position of Judge of the Court of Common Pleas, and I have thus far acquiesced in the movement, but avoided taking any part personally, believing as I do that Judicial stations should be conferred and not sought. I now learn that under certain management the delegates which should properly be selected by the people, at the primary meetings to be held on Saturday, the 29th inst., have already been determined upon, and that the ratification of their selection at the so called primary meetings, on the 25th, will be primary meetings, on the 25th, will be a mere form. While I was quite aware that this was almost always the course of political proceedings in the cities, I hoped that such was not the case in the country; this, however, is a mistake, as the machinery seems quite perfect in nearly all the districts, and any attempt

to frustrate its pre-arranged management will be entirely futile.

I therefore respectfully request that my friends will desist from any efforts at the primary meetings on my behalf, as I shall not permit my arrange to the primary meetings on my behalf, as at the primary meetings on my behalf, as I shall not permit my name to be used before a Convention so selected, and with the composition of which the people have had so little to do.
