Dry Goods Market.

New York, May 27.—Aiready there has been a movement in printing cloths and an advance of %@%c per yard established, but there are other classes of unbleached muslins, which are selling at relatively lower rates, that must eventually advance, as production is now reduced to meet the limited request of trade, which is generally exceedingly quiet. In York 30 inch Ticks an advance of it is established; the goods are now selling at 22. The Wauregan blue Dennims have, on the contrary, declined from less, by auction yesterday, was a perfect, less, by auction yesterday, was a perfect, slaughter, the goods being closed out at 16%c, clear sides 17%c, Sugar cured Hams 20c, Lard held firmly, with small sales of choice at 18c. Receipts—small s Dry Goods Market.

PITTSBURGH MARKETS

OFFICE OF PITTSBURGH GAZETTE, THURSDAY, May 27, 1869. The most encouraging feature we have to notice just now is the fact that the weather is all that could possibly be desired for the growing crops, and never were the indications more favorable for. an abundant harvest. There was a larger area of ground put in grain this ear than ever before known, at least it year than ever before known, at least it is so reported, and the yield, according to present indications, will doubtless be the largest in the history of the country. Unless there is a blighting June frost or something of that character, we may look for cheap Flour and Grain next fall, and possibly before that, and there is nothing perhaps that could add more to the strength and stability of the country, than good crops.
